Classical Art Caroline Vout, 2018-05-29 How did the statues of ancient Greece wind up dictating art history in the West How did the material culture of the Greeks and Romans come to be seen as classical and as art What does classical art mean across time and place In this ambitious richly illustrated book art historian and classicist Caroline Vout provides an original history of how classical art has been continuously redefined over the millennia as it has found itself in new contexts and cultures All of this raises the question of classical art's future What we call classical art did not simply appear in ancient Rome or in the Renaissance or in the eighteenth century Academy Endlessly repackaged and revered or rebuked Greek and Roman artifacts have gathered an amazing array of values both positive and negative in each new historical period even as these objects themselves have reshaped their surroundings Vout shows how this process began in antiquity as Greeks of the Hellenistic period transformed the art of fifth century Greece and continued through the Roman empire Constantinople European court societies the neoclassical English country house and the nineteenth century up to the modern museum A unique exploration of how each period of Western culture has transformed Greek and Roman antiquities and in turn been transformed by them this book revolutionizes our understanding of what classical art has meant and continues to mean

Sir Gardner Wilkinson and His Circle Jason Thompson, 2010-07-22 Following in the footsteps of Napoleon's army Europeans invaded Egypt in the early nineteenth century to gaze in wonder at the massive inscrutable remains of its ancient civilizations One of these travelers was a twenty-four-year-old Englishman John Gardner Wilkinson His copious observations of ancient and modern Egyptian places artifacts and lifeways recorded in such widely read publications as *Manners and Customs of the*

Ancient Egyptians and Handbook for Travellers in Egypt made him the leading early Victorian authority on ancient Egypt and paved the way for the scientific study of Egyptology. In this first full scale biography of Wilkinson 1797-1875 Jason Thompson skillfully portrays both the man and his era. He follows Wilkinson during his initial sojourn in Egypt 1821-1833 as Wilkinson immersed himself in a contemporary Egyptian lifestyle and in study of its ancient past. He shows Wilkinson in his circle of friends among them Edward William Lane, Robert Hay and Frederick Catherwood. And he traces how Wilkinson continued to use his Egyptian material in the decades following his return to England. With the rise of professional Egyptology in the middle and later nineteenth century Sir Gardner Wilkinson came to be viewed as an amateur and his popularity diminished. Drawing upon recently opened sources Thompson returns Wilkinson to his rightful place within centuries of Egyptian scholarship and assesses both the vision and the limitations of his work. The result is a compelling portrait of a Victorian gentleman scholar and his cultural milieu.

The Art of Roman Britain Martin Henig, 2002-11-01. With the help of over 100 illustrations many of them little known Martin Henig shows that the art produced in Britannia particularly in the golden age of Late Antiquity rivals that of other provinces and deserves comparison with the art of metropolitan Rome. The originality and breadth of Henig's study is shown by its systematic coverage embracing both the major arts: stone and bronze statuary, wall painting and mosaics and such applied arts as jewellery making, silversmithing, furniture design, figure pottery, figurines and appliques. The author explains how the various workshops were organized, the part played by patronage and the changes that occurred in the fourth century.

Overall the items are catalogued with the aim of producing a summary inventory that details the nature of the collection as built up over the years, the mechanisms by which the Ashmolean came to acquire the various pieces and the degree to which they survive and can be related to the documentary record. Volume I in the series was A Collection of Classical and Eastern Intaglios, Rings and Cameos 2003 and Volume II Classical Phoenician Scarabs 2004.
