Transforming a University Angela Brew, Judyth Sachs, 2007-06-21 This unique collection shows what

happens when one university takes on the challenge of developing the scholarship of teaching and learning with a view to enhancing students learning experiences Perspectives on Enhancing Student Transition Into Higher Education and Beyond Willison, Debra, Henderson, Emma, 2023-07-10 Transition and change are part of everyone's life. In the context of higher education, there are multiple points where students will undergo transition. This includes the move from secondary and further education or elsewhere into higher education where students move from school or college to university. As students near the completion of their studies, they must make decisions about career or further study options, which again necessitates transition. In addition, different cohorts of students, such as those from a low socio-economic background, international students, and students facing additional barriers due to gender, ethnicity, or disability, will face further transitions. Many students look forward to moving on and progressing with their studies and careers; however, transitions can be challenging, and enhanced support can ensure continued success for all. *Perspectives on Enhancing Student Transition Into Higher Education and Beyond* supports the various transitions that students entering higher education face throughout the entire learner journey. This book brings together best practice examples of how institutions have enhanced the support offered to address the transition challenges that students face throughout the learner journey, before, through, and beyond the university environment. Covering topics such as collaborative teamwork, postgraduate education, and student engagement, this premier reference source is an excellent resource for faculty, administrators, professors, educational leaders, academic advisors, researchers, academicians, and more. *Serving Vulnerable and Marginalized Populations in Social and Educational Contexts* Anies Al-Hroub, Sally Reis, Joseph Madaus, Itab Shuayb, 2024-04-26 There is evidence that the global COVID-19 crisis is exacerbating existing inequalities and marginalization of vulnerable groups, including exceptional learners, stateless, street migrant, and refugee children and youths, and the limited use of frameworks of emergency planning with and for marginalized and at-risk individuals. These challenges are multi-sectoral and intersecting, and they require multi- and interdisciplinary interventions to inform inclusive responses. These issues include being at a greater risk of excluding vulnerable learners from gaining access to equitable education, online, remote, and blended education. Intersecting forms of discrimination, such as gender, socioeconomic, and legal status, further exacerbate the problem. This has alerted us to examine the living conditions of marginalized and vulnerable populations around the globe and to reveal their experiences, problems, and needs from an educational perspective, thus bringing insights into their vulnerabilities during the pandemic. Change and Improvement in School-University Partnership Settings: Emerging Research and Opportunities Catelli, Linda A., 2021-02-12 Now more than ever, the collaboration of researchers and practitioners from both PreK-12 and higher education in partnership and in research is imperative for solving problems in teaching and learning and for instituting fundamental change in education. There is growing empirical work on educational change and improvement in school-university partnership settings that should be explored. This applied research and research design impacts the initiation and institution of change in partnership.

settings Thus the role of research is an essential lever for reform Practical perspectives are necessary to share for shaping a future in partnerships and to promote collaborative action and inquiry in school university and professional development partnership settings This includes changes in the partnerships classroom teaching in school and college policies student outcomes course content and in partnerships teacher education programs Change and Improvement in School University Partnership Settings Emerging Research and Opportunities spotlights the types of research research designs and exemplar studies that were successful in producing changes and improvements in the longitudinal partnerships the author founded and directed The chapters reveal what worked and why it worked along with brief descriptions of the exemplar studies that served as catalysts for change In addition a brief history of the partnership movement in America is given along with an overview of the current landscape of the different types of education partnerships prevalent today and their key research features This book is ideal for researchers scholars teacher researchers change agents professors teacher educators students and graduate fellows interested in conducting practical and effective applied research for change and improvement in school university partnership settings
