Enhancing The Vitality Of The Natl Inst:

The ^ANational Institutes of Health John Kastor,2010-04-29 This book describes the premier organization for the performance and funding of biomedical research in the United States By articulating events that occurred at the National Institutes of Health from 1991 2008 this volume also examines the leadership of directors Bernadine Healy Harold Varmus and Elias Zerhouni To conduct his research Dr Kastor interviewed more than 200 people currently working at the NIH those who have left and those funded by the institute In an engaging and dynamic prose style Dr Kastor presents his findings on the operations problems controversies finances politics and structure of the NIH **Technological Innovation in Legacy Sectors** William B. Bonvillian,Charles Weiss,2015-08-18 The American economy misses opportunities for innovation growth and job creation because of a neglected problem the resistance to innovation from Legacy sectors like energy manufacturing and health care which constitute most of our economy The book offers systematic strategies to overcome the structural obstacles to innovation in critically important Legacy sectors **An Assessment of the National Institute of Standards and Technology Center for Neutron Research** National Research Council,Division on Engineering and Physical Sciences,Laboratory Assessments Board,Panel on Neutron Research,2008-11-27 The National Institute of Standards and Technology NIST Center for Neutron Research NCNR is a national user facility whose mission is to ensure the availability of neutron measurement capabilities in order to meet the needs of U S researchers from industry academia and government agencies A panel of experts from the National Research Council evaluated the NCNR by the following criteria 1 the technical merit of the current laboratory programs relative to the current state of the art worldwide 2 the adequacy of the laboratory facilities equipment and human resources as they affect the quality of the laboratory technical programs and 3 the degree to which the laboratory programs in measurement science and standards achieve their stated objectives and desired impact This book finds that NCNR is an extremely reliable and comprehensive neutron scattering facility Even as the other neutron source in the nation the Spallation Neutron Source SNS becomes increasingly operational and the Oak Ridge High Flux Isotope Reactor HFIR comes back online the NCNR will continue to be a vital resource for meeting the broad spectrum of user needs for and scientific objectives related to neutron scattering **Strengthening the National Institute of Justice** National Research Council,Division of Behavioral and Social Sciences and Education,Committee on Law and Justice,Committee on Assessing the Research Program of the National Institute of Justice,2010-10-14 The National Institute of Justice NIJ is the nation s primary resource for advancing scientific research development and evaluation on crime and crime control and the administration of justice in the United States Headed by a presidentially appointed director it is one of the major units in the Office of Justice Programs OJP of the U S Department of Justice Under its authorizing legislation NIJ awards grants and contracts to a variety of public and private organizations and individuals At the request of NIJ Strengthening the National Institute of Justice assesses the operations and quality of the full range of its programs These

include social science research science and technology research and development capacity building and technology assistance The book concludes that a federal research institute such as NIJ is vital to the nation s continuing efforts to control crime and administer justice No other federal state local or private organization can do what NIJ was created to do Forty years ago Congress envisioned a science agency dedicated to building knowledge to support crime prevention and control by developing a wide range of techniques for dealing with individual offenders identifying injustices and biases in the administration of justice and supporting more basic and operational research on crime and the criminal justice system and the involvement of the community in crime control efforts As the embodiment of that vision NIJ has accomplished a great deal It has succeeded in developing a body of knowledge on such important topics as hot spots policing violence against women the role of firearms and drugs in crime drug courts and forensic DNA analysis It has helped build the crime and justice research infrastructure It has also widely disseminated the results of its research programs to help guide practice and policy But its efforts have been severely hampered by a lack of independence authority and discretionary resources to carry out its mission
