Essentials of English Henry Carr Pearson,Mary Frederika Kirchwey,1915 Enjoying Religion Frans Jespers,Paul van der Velde,Karin van Nieuwkerk,2018-08-15 Enjoying religion seems to be a contradiction because religion is generally perceived as a serious or even suppressive phenomenon This volume is the first to study the increase of enjoying religion systematically by presenting eleven new case studies occurring on four continents The volume concludes that in our late modern secular societies the enjoyment of religion or of its loose elements is growing In particular when scholars concentrate on lived religion of ordinary people the cheerful experiences appear to prevail Many people use pleasant elements of religion to add meaning to their lives to find spiritual fulfillment or a way to salvation and to experience belonging to a larger unity At the same time diverse cultural dynamics of late modern society such as popular culture commercialization re enchantment and feminization influence this trend of enjoying religion In spite of secularization playing with religion appears to be attractive *Enhancing Children's Rights* A. Smith,2015-03-18 This volume explores how children s rights has influenced research with children and how research can in turn shape policies and practices to enhance

children's rights The book examines the impact children's rights and Childhood Studies has had on how children are constructed and regulated internationally

Warriors and Worriers Joyce F. Benenson, 2014-01-08 The question of exactly what sex differences exist and whether they have a biological foundation has been one of our culture's favorite enduring discussions It should After a baby is born a parent's first concern is for its physical health The next concern is its sex Only in the most modern societies does sex not virtually guarantee the type of future life a new human being will have Even in modern societies one's sex usually plays a large role in the path a life follows Scientists have published thousands of papers on the subject with the general conclusion being that men and women are mostly the same whatever differences exist have been socialized and what differences exist have to do with women bearing children and men being physically stronger In **Warriors and Worriers** psychologist Joyce Benenson presents a new theory of sex differences based on thirty years of research with young children and primates around the world Her innovative theory focuses on how men and women stay alive Benenson draws on a fascinating array of studies and stories that explore the ways boys and men deter their enemies while girls and women find assistants to aid them in coping with vulnerable children and elders This produces two social worlds for each sex which sets humans apart from most other primate species Human males form cooperative groups that compete against out groups while human females exclude other females in their quest to find mates female family members to invest in their children and keep their own hearts ticking In the process Benenson turns upside down the familiar wisdom that women are more sociable than men and that men are more competitive than women

Applications of Flow in Human Development and Education Mihaly Csikszentmihalyi, 2014-08-08 The third volume of the collected works of Mihaly Csikszentmihalyi covers his work on the application of flow in areas that go beyond the field of leisure where the concept was first applied Based on his personal experience with schooling and learning as well as that of many others and contrary to what Cicero claimed Csikszentmihalyi arrived at the conclusion that instead of taking pride in making the roots of knowledge as bitter as possible we should try to make them sweeter Just as flow became a popular and useful concept in voluntary activities it could likewise be applied in education with the end result of young people being more likely to continue learning not just because they have to but because they want to This volume brings together a number of articles in which Csikszentmihalyi develops ideas about how to make education and more generally the process of learning to live a good life more enjoyable Since theory is the mother of good practice the first eleven chapters are devoted to theoretical reflections Some are general and explore what it means to be a human being what it means to be a person when we look at life from the perspective of flow Others are more narrowly focused on such topics as consumption education teaching and learning They help laypeople reflect how they can arrange their lives in such a way as to leave a small ecological footprint while getting the most enjoyment The second section of the volume contains a dozen empirical articles on similar topics They deal with the development of identity and self worth with the formation of goals and motivation with loneliness and family life
