El Laberinto Sentimental:

El laberinto sentimental José Antonio Marina, 1996 A la gente le gusta sentir Sea lo que sea escribio Virginia Woolf Como vamos a desear sentir en abstracto cuando sabemos que algunos sentimientos son terribles crueles perversos o insoportables Pues asi es Nos morimos de amor nos morimos de pena nos morimos de miedo nos morimos de aburrimiento y a pesar de la eficacia letal de nuestros afectos la anestesia afectiva nos da pavor Somos inteligencias emocionales Nada nos interesa mas que los sentimientos porque en ellos consiste la felicidad o la desdicha Actuamos para mantener un estado de animo para cambiarlo para conseguirlo Son lo mas intimo a nosotros y lo mas ajeno No sentimos lo que querriamos sentir Somos depresivos cuando quisieramos ser alegres Nos reconcomen las envidias los miedos los celos la desesperanza Deseariamos ser generosos valientes tener sentido del humor vivir amores intensos librarnos del aburrimiento pero nos zarandean emociones imprevistas o indeseadas Incluso un sentimiento tan tranquilo como la calma nos invade Podria leerse la historia de nuestra cultura como el intento de contestar a una sola pregunta Que hacemos con nuestros sentimientos El autor cree que ante todo conocerlos Para ello se interna en el laberinto sentimental con la colaboracion de la psicologia mas actual y de la filosofia de todos los tiempos Encuentra pasiones violentas y afectos tranquilos sentimientos proximos y emociones exoticas Estudia como el nino construye su mundo sentimental y como el adulto se encuentra viviendo en una casa tal vez inhabitable En el laberinto se tropieza con ilustres visitantes Rilke Kafka Proust Sartre Rimbaud Kierkegaard Don Nepomuceno Carlos de Cardenas y un misterioso personaje llamado G M Las conclusiones son sorprendentes Es posible elab

Deep Friendship Francisco Ugarte, 2017-01-01 The value of a true friend seems a unanimous declaration a friend is someone who knows all about you and still loves you Elbert Hubbard and the most precious of all possessions La Rochefoucauld friendship is a single soul dwelling in two bodies Aristotle the only cement that will ever hold the world together Woodrow Wilson And yet the statement that gets at the heart of Ugarte's book Deep Friendship belongs to Plutarch who says A constant friend is a thing rare and hard to find This is especially true in today's world in which we are constantly surrounded by people but seldom experience deep friendship The concept and value of friendship has become more than ever a rare treasure What seems a simple task that of finding a true friend who cares respects and deeply appreciates you can be harder than expected In his book Ugarte shares not only how to find a good friend but how to be one These attributes of true friendship lead to great benefits including a more genuine happiness and a greater union with God ¿Quién es Dios? Juan Luis Urcola Tellería, 2025-03-20 En un mundo gobernado por la duda el desconcierto y la inconsistencia moral el ser humano se sigue enfrentando a las preguntas más profundas y desafiantes Existe Dios Quién es realmente Cómo se puede llegar a la existencia del sufrimiento y del mal es compatible con la idea de la divinidad En la majestuosidad de algunos templos en las notas de una sinfonía o en la belleza de unos versos a Dios lo podemos encontrar en cualquier sitio pero entonces por qué la religiosidad parece desvanecerse en el mundo actual Este libro es un faro en la oscuridad de la incertidumbre que trata de

dar respuesta a las inquietudes que han removido desde tiempos remotos las conciencias tanto de creyentes como de escépticos. Sus páginas nos adentran en la esencia de la espiritualidad y exploran la huella de lo divino en la historia, el arte o el pensamiento de diferentes culturas y rincones del mundo. Quiénes Dios nos invita a un diálogo abierto con lo sagrado para reflexionar sobre las trascendentales cuestiones que vertebran nuestra propia existencia, el papel de Dios en nuestro tiempo, las razones para creer en Él ante el cientifismo imperante y sobre todo, cómo preparar el corazón para un encuentro que podrá cambiarlo todo.

A Catholic Spirituality for Business Martin Schlag, Domenc Mele, 2019. Spirituality and gift are notions that are en vogue. Topics such as spirituality at the workplace, spirituality management, spirituality in leadership, organizational spirituality and other related topics are trending in management literature. The logic of gift is also appearing more frequently, especially in attempts to rethink the way our economy works in order to include the marginalized. The expression logic of gift was introduced into official Catholic social teaching by Pope Benedict XVI who presented it in association with the principle of gratuitousness which in turn is an expression of fraternity. However, before Caritas in Veritate and ever since Marcel Mauss's groundbreaking work *The Gift*, the importance of gift for human relationships and for the cohesion of society had been increasingly recognized. Alain Caillé and Jacques T. Godbout further fleshed out the implication of gift for contemporary society in the context of secular social sciences striving to overcome utilitarianism. It was the civil economy movement, however, that exercised greatest influence on Benedict XVI's encyclical *Caritas in Veritate*. This present volume reflects on the general scope of these notions for business and society. This is done by structuring the book in two parts, each dedicated to one of the two concepts. Each part has two general chapters and two that apply the notions to business and to business education. The authors are a mix of well-known emeritus professors and younger talented emerging scholars. We have also been careful to combine European with American authors.

A Catholic Spirituality for Business: The Logic of Gift Vinculaciones afectivas, **Soy adolescente** Sylvia Ochoa, Pone de relieve las características y posibilidades de esa maravillosa y conflictiva edad. Alerta acerca del peligro que gravita sobre los padres de familia quienes al estar inmersos en el tráfico de lo cotidiano olvidan cuál es su papel en la crianza y educación de sus hijos y terminan sustituyendo las carencias de afecto y el vacío de su presencia con la exagerada complacencia y la permisividad.

Choosing Happiness Francisco Ugarte, 2017-01-01. St. Josemaría once wrote: Our Lord does not expect us to be unhappy in our life on earth and await a reward only in the next life. God wants us to be happy on earth too, but with a desire for the other, total happiness that only he can give. Our lives are full of highs and lows, successes and struggles, joys and sorrows. We are called to live with a happy heart alongside it all. But it is not enough to want to be happy; we must learn to be. Fr. Francisco will help you to discover happiness regardless of life's circumstances by uniting your heart with the heart of God. In this book, you will be given the knowledge and the tools to embrace and live out an all-encompassing happiness, a daily fulfillment that ensures joy now as well as in the afterlife.

Envy, Spite and Jealousy David Konstan, 2019-07-31. Classical Greece was

permeated by a spirit of rivalry Games and sports theatrical performances courtroom trials recitation of poetry canvassing for public office war itself all aspects of life were informed by a competitive ethos This pioneering book considers how the Greeks viewed explained exploited and controlled the emotions that entered into such rivalrous activities and looks at what the private and public effects were of such feelings as ambition desire pride passion envy and spite Among the questions the authors address How was envy distinguished from emulation Was rivalry central to democratic politics What was the relation between envy and erotic jealousy Did the Greeks feel erotic jealousy at all Did the views of philosophers correspond to those reflected in the historians tragic poets and orators Were there differences in attitude towards the rivalrous emotions within ancient Greece or between Greece and Rome Did jealousy envy and malice have bad effects on ancient society or could they be channelled to positive ends by stimulating effort and innovation Can the ancient Greek and Roman views of envy spite and jealousy contribute anything to our own understanding of these universally troubling emotions This is the first book devoted to the emotions of rivalry in the classical world taken as a whole With chapters written by a dozen scholars in ancient history literature and philosophy it contributes notably to the study of ancient Greece and to the history of the emotions more generally

The Emotions of the Ancient Greeks David Konstan, 2007-12-22 It is generally assumed that whatever else has changed about the human condition since the dawn of civilization basic human emotions love fear anger envy shame have remained constant David Konstan however argues that the emotions of the ancient Greeks were in some significant respects different from our own and that recognizing these differences is important to understanding ancient Greek literature and culture With *The Emotions of the Ancient Greeks* Konstan reexamines the traditional assumption that the Greek terms designating the emotions correspond more or less to those of today Beneath the similarities there are striking discrepancies References to Greek anger or love or envy for example commonly neglect the fact that the Greeks themselves did not use these terms but rather words in their own language such as *org* and *philia* and *phthonos* which do not translate neatly into our modern emotional vocabulary Konstan argues that classical representations and analyses of the emotions correspond to a world of intense competition for status and focused on the attitudes motives and actions of others rather than on chance or natural events as the elicitors of emotion Konstan makes use of Greek emotional concepts to interpret various works of classical literature including epic drama history and oratory Moreover he illustrates how the Greeks conception of emotions has something to tell us about our own views whether about the nature of particular emotions or of the category of emotion itself
