Robert Duncan

and the Pragmatist Sublime James Maynard, 2018-05-01 This study examines the theoretical underpinnings of Robert Duncan's poetry and poetics. The author's overriding concern is Duncan's understanding of excess in relation to poetry and the philosophies of Alfred North Whitehead, William James, and John Dewey. *The Cure of Poetry in an Age of Prose* Mary Kinzie, 1993-07-15 The role of the poet, Mary Kinzie writes, is to engage the most profound subjects with the utmost in expressive clarity. The role of the critic is to follow the poet word for word into the arena where the creative struggle occurs. How this mutual purpose is served ideally and practically is the subject of this bracingly polemical collection of essays. A distinguished poet and critic, Kinzie assesses poetry's situation during the past twenty-five years. Ours, she contends, is literally a prosaic age, not only in the popularity of prose genres but in the resultant compromises with truth and elegance in literature. In essays on the rhapsodic fallacy, confessionalism, and the romance of perceptual response, Kinzie diagnoses some of the trends that diminish the poet's flexibility. Conversely, she also considers individual poets: Randall Jarrell, Elizabeth Bishop, Howard Nemerov, Seamus Heaney, and John Ashbery, who have found ingenious ways of averting the risks of prosaism and preserving the special character of poetry. Focusing on poet Louise Bogan and novelist J. M. Coetzee, Kinzie identifies a crucial and curative overlap between the practices of great prose writing and great poetry. In conclusion, she suggests a new approach for teaching writers of poetry and fiction. Forcefully argued, these essays will be widely read and debated among critics and poets alike.

Hyperscapes in the Poetry of Frank O'Hara Hazel Smith, 2000-01-01 Frank O'Hara's poetry evokes a specific era and location: New York in the fifties and early sixties. This is a pre-computer age of typewritten manuscripts, small shops, and lunch hours; it is also an age of gay repression, accelerating consumerism, and race riots. Hazel Smith suggests that the location and dislocation of the cityscape create hyperscapes in the poetry of Frank O'Hara. The hyperscape is a postmodern site characterized by difference, breaking down unified concepts of text, city, subject, and art, and remolding them into new textual, subjective, and political spaces. This book theorizes the process of disruption and refiguration, which constitutes the hyperscape and celebrates its radicality. *The Penguin Modern Classics Book* Henry Eliot, 2021-11-18 The essential guide to twentieth-century literature around the world. For six decades, the Penguin Modern Classics series has been an era-defining, ever-evolving series of books encompassing works by modernist pioneers, avant-garde iconoclasts, radical visionaries, and timeless storytellers. This reader's companion showcases every title published in the series so far, with more than 1,800 books and 600 authors, from Achebe and Adonis to Zamyatin and Zweig. It is the essential guide to twentieth-century literature around the world and the companion volume to *The Penguin Classics Book*. Syntax in English Poetry, 1870-1930 Will Baker, 1967 This inquiry restricts itself to syntax in poetry for two related reasons: 1) during the nineteenth century, and the first decades of the twentieth, literary scholars discussed word order only indirectly in its

relation to prosody rhyme scheme and genre 2 Studies of poetic language in the last 25 years have therefore been less concerned with the formal musical properties of verse than with diction

Surrealism Anna Balakian, 1986 First published in 1959 *Surrealism* remains the most readable introduction to the French surrealist poets Apollinaire Breton Aragon Eluard and Reverdy Providing a much needed overview of the movement Balakian places the surrealists in the context of early twentieth century Paris and describes their reactions to symbolist poetry World War I and developments in science and industry psychology philosophy and painting Her coherent history of the movement is enhanced by her firsthand knowledge of the intellectual climate in which some of these poets worked and her interviews with Reverdy and Breton In a new introduction Balakian discusses the influence of surrealism on contemporary poetry This volume includes photographs of the poets and reproductions of paintings by Ernst Dali Tanguy and others

The Scandalous Eye Silvano Levy, Conroy Maddox, 2003-01-01 Conroy Maddox discovered surrealism by chance in 1935 and spent the rest of his life exploring its potential through his paintings collages photographs objects and texts Inspired by artists such as Max Ernst Oscar Dominguez and Salvador Dal he rejected academic painting in favor of techniques that expressed the surrealist spirit of rebellion Maddox went on to become a rebel in every sense the defiance that had initially turned towards aesthetics became a broader challenge against morality religion and the establishment as a whole Maddox's colorful exploits and outstanding artistic production undoubtedly made him Britain's most beguiling provocative and vigorous exponent of surrealism This book maps out his place in the history of the surrealist movement and reveals the intellectual complexity as well as the poignant charm of an oeuvre that spans eight decades

Photography and Literature in the Twentieth Century David Cunningham, Sas Mays, Andrew Fisher, 2009-01-14 *Photography and Literature in the Twentieth Century* offers an accessible and fresh approach to an object of interdisciplinary research that is currently receiving increased international attention Providing a broad historical schema and examining pivotal moments within it the collection brings together a range of writers and practitioners who help to guide the reader through a historical cross section of current work in this area Unlike most existing studies this volume considers both key literary figures from Proust to Sebald and photographic practitioners from Heartfield to Sekula in order to give a commanding overview of its subject that is both well informed and often ground breaking With original and accessible essays by acknowledged experts in the field this is a book that should be of interest not only to students and teachers in departments of literature and photography but also to those in cultural studies and art history as well as photographic artists
