## **English And Englishness:**

English and Englishness Brian Doyle, 2013-06-19 First published in 2002 This volume is part of the New Accent series looking at English and popular culture language policy fiction and democracy Each volume in the series will seek to encourage rather than resist the process of change to stretch rather than reinforce the boundaries that currently define literature and its academic study      **The Idea of Englishness** Professor Krishan Kumar, 2015-12-28 Ideas of Englishness and of the English nation have become a matter of renewed interest in recent years as a result of threats to the integrity of the United Kingdom and the perceived rise of that unusual thing English nationalism Interrogating the idea of an English nation and of how that might compare with other concepts of nationhood this book enquires into the origins of English national identity partly by questioning the assumption of its long standing existence It investigates the role of the British empire the largest empire in world history in the creation of English and British identities and the results of its disappearance Considering the myths of the English the ideas and images that the English and others have constructed about their history and their sense of themselves as a people the distinctiveness of English social thought in comparison with that of other nations the relationship between English and British identity and the relationship of Englishness to Europe this wide ranging comparative and historical approach to understanding the particular nature of Englishness and English national identity will appeal to scholars of sociology cultural studies and history with interests in English and British national identity and debates about England's future place in the United Kingdom      **England and Englishness** John Lucas, 1990 The subject is not patriotism but the way poets are forced to place themselves in a tradition a relationship to the state and the establishment sometimes as apologists rebels or outsiders to answer the questions who speaks for a nation's consciousness who decides the form of the national identity      **English and Englishness** Brian Doyle, 2013-06-19 First published in 2002 This volume is part of the New Accent series looking at English and popular culture language policy fiction and democracy Each volume in the series will seek to encourage rather than resist the process of change to stretch rather than reinforce the boundaries that currently define literature and its academic study      **Englishness Identified** Paul Langford, 2000-04-20 In the seventeenth century the English were often depicted as a nation of barbarians fanatics and king killers Two hundred years later they were more likely to be seen as the triumphant possessors of a unique political stability vigorous industrial revolution and a world wide empire These may have been British achievements but the virtues which brought about this transformation tended to be perceived as specifically English Ideas of what constituted Englishness changed from a stock notion of waywardness and unpredictability to one of discipline and dedication The evolution of the so called national character today once more the subject of scrutiny and debate is traced through the impressions and analyses of foreign observers and related to English ambitions and anxieties during a period of intense change      *Defining Englishness* Pilvi Rajamäe, Krista Vogelberg, 2004      **English Literature and the Other Languages** , 2022-06-08 The thirty essays in English

Literature and the Other Languages trace how the tangentiality of English and other modes of language affects the production of English literature and investigate how questions of linguistic code can be made accessible to literary analysis This collection studies multilingualism from the Reformation onwards when Latin was an alternative to the emerging vernacular of the Anglican nation the eighteenth century confrontation between English and the languages of the colonies the process whereby the standard British English of the colonizer has lost ground to independent englishes American Canadian Indian Caribbean Nigerian or New Zealand English that now consider the original standard British English as the other languages the interaction between English and a range of British language varieties including Welsh Irish and Scots the Lancashire and Dorset dialects as well as working class idiom Chicano literature translation and self translation Ezra Pound s revitalization of English in the Cantos and the psychogrammar and comic dialogics in Joyce s Ulysses As Norman Blake puts it in his Afterword to English Literature and the Other Languages There has been no volume such as this which tries to take stock of the whole area and to put multilingualism in literature on the map It is a subject which has been neglected for too long and this volume is to be welcomed for its brave attempt to fill this lacuna

**The English Studies Book** Rob Pope,2005-10-05 The English Studies Book is uniquely designed to support students and teachers working across the full range of language literature and culture Combining the functions of study guide critical dictionary and text anthology it has rapidly established itself as a core text on a wide variety of degree programmes nationally and internationally Revised and updated throughout features of the second edition include a new prologue addressing changes and challenges in English Studies substantial entries on over 100 key critical and theoretical terms from absence and author to text and versification with new entries on creative writing travel writing and translation practical introductions to all the major theoretical approaches with new sections on aesthetics ethics ecology and sexuality a rich anthology of literary and related texts from Anglo Saxon to Afro Caribbean with fresh selections representing the sonnet haiku slave narratives and science fiction and with additional texts by Elizabeth Barrett Browning Charles Darwin Ian McEwan Margaret Atwood Amy Tan and others handy frameworks and checklists for close reading research essay writing and other textual activities including use of the Internet

**Cultural Knowledge and Values in English Language Teaching Materials** Tao Xiong,Dezheng Feng,Guangwei Hu,2022-05-13 This book provides a contextualized and balanced look into the timely topic of values in English Language Teaching ELT materials with a primary focus on the Chinese context It features three distinct conceptual and methodological perspectives namely perceptions of stakeholders such as material writers teachers and students multimodal construction of values and textual representation of values It is a valuable resource for those interested in the social cultural moral and ideological dimensions of English education in general and in the textual and multimodal construction of values in language teaching materials in particular

**The Idea of English Ethnicity** Robert J. C. Young,2007-12-03 The Idea of English Ethnicity Robert Young has written a compelling and thorough textual history of

English ethnicity and its discursive relation to the history of racial theory Comprehensive carefully considered and clearly written this book sets the standard against which any future study of Englishness will be assessed The bar has been lifted a couple of notches higher David Theo Goldberg University of California What is Englishness Robert J C Young asks and in The Idea of English Ethnicity he offers an impressively well researched and eminently readable answer Werner Sollors Harvard University

*The Englishness of English Dress* Christopher Breward, Becky Conekin, Caroline Cox, 2002-04 The Englishness of English Dress examines the ways in which fashion and dress might be considered in the context of national identities as they apply in England

**Under English Eyes** Jopi Nyman, 2021-10-18 British fictions of the early twentieth century appear obsessed with Europe Various texts from E M Forster and D H Lawrence to Bram Stoker and the period's travel writing explore European spaces constructing the European as an Other threatening the position of the English What they constantly repeat is England's difference and the secondary role of European spaces whose representation resembles that of colonial lands By reading selected texts both canonized and popular published between 1894 and 1916 this study argues that this xenophobic construction is a sign of the pervading presence of concerns related to the maintenance of English national identity Englishness allegedly threatened by the European Other By drawing on current postcolonial theory the case studies in the volume show that the discourse on the Other produced in British writings on Europe contributes more than has been understood to the making and promoting of Englishness The authors studied include D H Lawrence Katherine Mansfield Anthony Hope Arnold Bennett Mrs Alec Tweedie Erskine Childers and Joseph Conrad The study will renew our understanding of the role of Europe in the period's cultural imagination showing that the identities of the English are formed in encounters with different internal and external Others

*The English and the Normans* Hugh M. Thomas, 2003-04-10 Since the Anglo Norman period itself the relations between the English and the Normans have formed a subject of lively debate For most of that time however complacency about the inevitability of assimilation and of the Anglicization of Normans after 1066 has ruled This book first challenges that complacency then goes on to provide the fullest explanation yet for why the two peoples merged and the Normans became English Drawing on anthropological theory the latest scholarship on Anglo Norman England and sources ranging from charters and legal documents to saints' lives and romances it provides a complex exploration of ethnic relations on the levels of personal interaction cultural assimilation and the construction of identity As a result the work provides an important case study in pre-modern ethnic relations that combines both old and new approaches and sheds new light on some of the most important developments in English history

*The Making of English National Identity* Krishan Kumar, 2003-03-13 Why is English national identity so enigmatic and so elusive Why unlike the Scots Welsh Irish and most of continental Europe do the English find it so difficult to say who they are The Making of English National Identity first published in 2003 is a fascinating exploration of Englishness and what it means to be English Drawing on historical sociological and literary theory Krishan Kumar examines the rise of English nationalism and issues of race and

ethnicity from earliest times to the present day He argues that the long history of the English as an imperial people has as with other imperial people like the Russians and the Austrians developed a sense of missionary nationalism which in the interests of unity and empire has necessitated the repression of ordinary expressions of nationalism Professor Kumar's lively and provocative approach challenges readers to reconsider their pre conceptions about national identity and who the English really are **How valid is it to say that Englishness is contained within Britishness?** Tobias Rösch, 2008-07-17

Seminar paper from the year 2007 in the subject English Language and Literature Studies Culture and Applied Geography grade 1.0 University of Freiburg course Proseminar Contemporary Britain language English abstract While Scotland and Wales slowly dissociate from a community that had served its purpose in times of crisis among them World War I and II and more recently the Falkland War of 1982 as well as in the global context of the British Empire England is left with a dilemma Before the backdrop of a potential division of Britain how can the English reinvent themselves and find their own specific identity This paper will be concerned with English identity and shed some light on the question of whether or not we can speak of Britishness as incorporating a specific notion of Englishness When in 1997 a majority of the Scottish public voted in favour of forming a Scottish Parliament endowed with its own limited legislative competence it became increasingly clear that Britain would undergo a process of national transformation in the years to come that would change the country irrevocably The shadow of devolution had fallen over what has always been the political and economic pivot of the Union Looming in a distance could be discerned the first harrowing signs of a disintegration that would gradually weaken national cohesion within Britain and sever the bonds that had held the nation together for more than three centuries In 1707 the Kingdom of Scotland had been married to the Kingdom of England by parliamentary acts that came to be known as the Acts of Union historically however both countries had been ruled by a single monarch ever since the Union of the Crowns dating back to 1603 Nowadays the debate about national sovereignty is being rehashed to many people especially those living in the English regions and among them a considerable number of politicians the drastic developments are more than just a nuisance While Scotland and Wales slowly dissociate from a community that had served its purpose in times of crisis among them World War I and II and more recently the Falkland War of 1982 as well as in the global context of the British Empire England is left with a dilemma Before the backdrop of a potential division of Britain how can the English reinvent themselves and find their own specific identity **The Politics of English Nationhood** Michael Kenny, 2014-03 Provides an overview of the evidence research and major arguments relating to the revival of Englishness and its varied political ramifications and dimensions The English Companion Godfrey Smith, 1996 **English Literature in Context** Paul Poplawski, 2017-05-18 This is the second edition of English Literature in Context a popular textbook which provides an essential resource and reference tool for all English literature students Designed to accompany students throughout their degree course it offers a detailed narrative survey of the diverse historical and cultural contexts that have shaped the development of English

literature from the Anglo Saxon period to the present day Carefully structured for undergraduate use the eight chronological chapters are written by a team of expert contributors who are also highly experienced teachers Each chapter includes a detailed chronology contextual readings of selected literary texts annotated suggestions for further reading a rich range of illustrations and textboxes and thorough historical and literary overviews This second edition has been comprehensively revised with a new chapter on postcolonial literature a substantially expanded chapter on contemporary literature and the addition of over two hundred new critical references Online resources include textboxes chapter samples study questions and chronologies

**The Politics and Poetics of Contemporary English Tragedy** Sean Carney,2013-01-01 The Politics and Poetics of Contemporary English Tragedy is a detailed study of the idea of the tragic in the political plays of David Hare Howard Barker Edward Bond Caryl Churchill Mark Ravenhill Sarah Kane and Jez Butterworth Through an in depth analysis of over sixty of their works Sean Carney argues that their dramatic exploration of tragic experience is an integral part of their ongoing politics This approach allows for a comprehensive rather than selective study of both the politics and poetics of their work Carney s attention to the tragic enables him to find a common discourse among the canonical English playwrights of an older generation and representatives of the nineties generation challenging the idea that there is a sharp generational break between these groups Finally Carney demonstrates that tragic experience is often denied by the social discourse of Englishness and that these playwrights make a crucial critical intervention by dramatizing the tragic

**English: A Story of Marmite, Queuing and Weather** Ben Fogle,2017-10-05 What makes the English English Is it their eccentricity their passionate love or indeed hatred of Marmite or is it something less easily defined

## English And Englishness Book Review: Unveiling the Magic of Language
