Architecture in Early Modern England* Anne M. Myers,2013-01-01 Our built environment inspires writers to reflect on the  
human experience discover its history or make it up Buildings tell stories Castles country homes churches and monasteries  
are documents of the people who built them owned them lived and died in them inherited and saved or destroyed them and  
recorded their histories Literature and Architecture in Early Modern England examines the relationship between sixteenth  
and seventeenth century architectural and literary works By becoming more sensitive to the narrative functions of  
architecture Anne M Myers argues we begin to understand how a range of writers viewed and made use of the material built  
environment that surrounded the production of early modern texts in England Scholars have long found themselves in the  
position of excusing or explaining England s failure to achieve the equivalent of the Italian Renaissance in the visual arts  
Myers proposes that architecture inspired an unusual amount of historiographic and literary production including poetry  
drama architectural treatises and diaries Works by William Camden Henry Wotton Ben Jonson Andrew Marvell George  
Herbert Anne Clifford and John Evelyn when considered as a group are texts that overturn the engrained critical notion that  
a Protestant fear of idolatry sentenced the visual arts and architecture in England to a state of suspicion and neglect

**Visual Rhetoric and Early Modern English Literature** Katherine Acheson,2016-12-05 Early modern printed books  
are copiously illustrated with charts diagrams and other kinds of images that represent systems of thought and ways of doing  
things Visual Rhetoric and Early Modern English Literature shows how these images fostered what Elizabeth Eisenstein  
called brainwork related to concepts of space truth art and nature and reveals their importance to poetry by Andrew Marvell  
and John Milton and Aphra Behn s Oroonoko The genres of illustration considered in this book include military strategy and  
tactics garden design instrumentation Bibles scientific schema drawing instruction natural history comparative anatomy and  
Aesop s Fables The argument produces unique insights into the ways in which visual rhetoric affected verbal expression and  
the book develops novel methods of using printed images as evidence in the interpretation of the rich strange and beautiful  
literature of early modern England     Printed Reference Material and Related Sources of Information Alan Day,1990 A  
concise guide to the various sources used in reference librarianship at its core a series of chapters dealing with the various
