Jones,1919 **Nineteenth Century English Prose** Thomas H. Dickinson,2015-06-27 Excerpt from Nineteenth Century English Prose Critical Essays In preparing the present work the editors have restricted themselves to a single type of literary expression the critical essay They have endeavored to trace in a series of ten selected essays the development of English criticism in the nineteenth century In choosing the material they have been influenced by something more than mere style An underlying coherence in content typical of the thought of the era in question may be traced throughout The book is designed to furnish a series of essays covering a definite period and exhibiting the individuality in each author s method of criticism The subject matter in these selections provides interesting material for intensive study and class room discussion and each essay is an example of excellent though varying English style It has not been the intention of the editors to place the different authors represented on the same level either as critics or as stylists Nor do they claim to have necessarily selected the best essay of each writer they have sought rather to choose that one which appears to them to be most typical of the author s critical principles and at the same time representative of the critical tendency of his age About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
