English Monarchs And Theirs:

English Monarchs and Their Books T. A. Birrell, 1987

Lives of England's Monarchs Harvey Eugene Lehman, 2005

This informative entertaining read tells with wit and understanding England Bishops and Power in Early Modern England Marcus K. Harmes, 2013-10-24 Armed with pistols and wearing jackboots Bishop Henry Compton rode out in 1688 against his King but in defence of the Church of England and its bishops His actions are a dramatic but telling indication of what was at stake for bishops in early modern England and Compton's action at the height of the Restoration was the culmination of more than a century and a half of religious controversy that engulfed bishops Bishops were among the most important instruments of royal religious national and local authority in seventeenth century England While their actions and ideas trickled down to the lower strata of the population poor opinions of bishops filtered back up finding expression in public forums printed pamphlets and more subversive forms including scurrilous verse and mocking illustrations *Bishops and Power in Early Modern England* explores the role and involvement of bishops at the centre of both government and belief in early modern England It probes the controversial actions and ideas which sparked parliamentary agitation against them demands for religious reform and even war *Bishops and Power in Early Modern England* examines arguments challenging episcopal authority and the counter arguments which stressed the necessity of bishops in England and their status as useful and godly ministers The book argues that episcopal writers constructed an identity as reformed agents of church authority Charting the development of this identity over a hundred and fifty years from the Reformation to the Restoration this book traces the history of early modern England from an original and highly significant perspective This book engages with many aspects of the social political and religious history of early modern England and will therefore be key reading for undergraduates and postgraduates and researchers working in the early modern field and anyone who has an interest in this period of history

The English and Their History Robert Tombs, 2015 *The English and Their History* presents in a single volume an account of the English and their history The book spans 700 000 years from the island's very first inhabitants to the present day stopping along the way to recount the tales of conquerors kings and queens a nation's myths and legends facts and extraordinary truths Great English Monarchs and Their Times, 2000 A History of England: Combining the Various

Histories by Rapin, Henry, Hume, Smollett and Belsham: Corrected by Reference to Turner, Lingard, Mackintosh ... and Other Sources. Compiled and Arranged by F. G. Tomlins. Stereotype Edition Frederick Guest TOMLINS, 1839 **The Many**

Legalities of Early America Christopher L. Tomlins, Bruce H. Mann, 2012-12-01 This collection of seventeen original essays reshapes the field of early American legal history not by focusing simply on law or even on the relationship between law and society but by using the concept of legality to explore the myriad ways in which the people of early America ordered their relationships with one another whether as individuals groups classes communities or states Addressing issues of gender ethnicity family patriarchy culture and dependence contributors explore the transatlantic context of early American law the

negotiation between European and indigenous legal cultures the multiple social contexts of the rule of law and the transformation of many legalities into an increasingly uniform legal culture Taken together these essays reveal the extraordinary diversity and complexity of the roots of early America s legal culture Contributors are Mary Sarah Bilder Holly Brewer James F Brooks Richard Lyman Bushman Christine Daniels Cornelia Hughes Dayton David Barry Gaspar Katherine Hermes John G Kolp David Thomas Konig James Muldoon William M Offutt Jr Ann Marie Plane A G Roeber Terri L Snyder and Linda L Sturtz *Eliza Cook's Journal* ,1853 *Bibliotheca Politica* James Tyrrell,1718 *John Cassell's Illustrated History of England* John Frederick Smith,1857 **A New And Authentic History of England** William Augustus Russel,1782 *Kings and Their Sons in Early Modern Europe* Mark Konnert,2018-12-01 Some of history s greatest dramas have unfolded in the stories of kings and their sons in early modern Europe and their conflicts presaged in some ways today s tensions in family run businesses In several notorious cases the kings despised their sons to the point of committing murder thus killing their own heirs Prof Konnert shows that these tragic dramas actually represent an extreme of the normal state of affairs rather than unusual occurrences They are different in degree not kind This book is the first to look at these episodes in a systematic and comparative fashion The stories are moving in themselves but viewed in their historical context they illuminate aspects of a past society which has faded from view in the 21st century Two of the most famous episodes those of Frederick the Great of Prussia and his father and of Peter the Great of Russia and his son are examined here as well as three less well known cases These episodes are put into historical context and the family dynamics of these royal dynasties are discussed showing not only how they differed from those of today but also from those of their more common contemporaries These tensions are also compared to those that have emerged in family run businesses where conflicts between fathers and sons are also very common Furthermore when the interests of the dynastic enterprise whether political or corporate take precedence over family life and personal happiness marriage practices can produce particularly toxic relations The cases examined here are unusual only in the degree of hostility rather than in its existence **The Huguenots : Their Settlements, Churches and Industries in England and Ireland** Samuel Smiles,1867 **An Institution of General History, Or The History of the World ...: The Constantinopolitan Roman empire ... from the taking of Rome by Odoacer, and the exile of Zeno ... to the deposing of Irene and the promotion of Nicephorus** William Howell,1685 **American Pentimento** Patricia Seed,2001 The modern regulations and pervading attitudes that control native rights in the Americas may appear unrelated to the European colonial rule but traces of the colonizers cultural religious and economic agendas remain Patricia Seed likens this situation to a pentimento a painting in which traces of older compositions become visible over time and shows how the exploitation begun centuries ago continues today Seed examines how the goals of European colonialist in the Americas The English appropriated land while the Spanish and Portuguese attempted to eliminate barbarous religious behavior and used indigenous labor to take mineral resources Ultimately each approach denied native

people distinct aspects of their heritage Seed argues that their differing effects persist with natives in former English colonies fighting for land rights while those in former Spanish and Portuguese colonies fight for human dignity Book jacket
