

THE BRITISH POLITICAL TRADITION SERIES

# The English Radical Tradition 1763-1914

Edited by S. MACCOBY

British Radicalism had its birth in the reign of George III, whose increasing domination of Parliament and politics gave rise to the cult of individual liberty which has since wielded great power and is still to be reckoned with. Here Dr. Maccoby has selected passages from the speeches, pamphlets, books and other writings of the time to tell the living and developing story of the influence of the demand for "radical reform" on the political thought of a critical century and a half in British history. From the civic radicalism of Wilkes, the radical portraits of Tom Paine, the pioneering of Cobden, Chartist agitation, and the leadership of Bright, to the anti-imperialism of the nineties and the campaigning of Lloyd George, the "progressive" movement is seen growing and speculating until politically its leadership was lost to Fabian Socialism.
