English Studies In Japan:

English Studies Beyond the 'Center' Myles Chilton, 2015-11-06 This book addresses the shape of English studies beyond the center by analyzing how the discipline has developed and by considering how lessons from this analysis relate to the discipline as a whole The book aims to open a cross disciplinary conversation about the nature of the English major in both non Anglophone and Anglophone countries by addressing the tensions between language and literature pedagogy the relevance of a focus on hyper canonical Anglophone literature in a world of global Englishes world literature and multilingual students and by reflecting on the necessary contingency and cross purposes of blended literature and language classrooms Many of the book's points of discussion arise from the author's experience as an English professor in Japan where the particularities of English language and literature pedagogy raise significant challenges to Anglo centric critical and pedagogical assumptions *English Studies Beyond the Center Teaching Literature and the Future of Global English* therefore argues that English literature must make a case for itself by understanding its place in a newly configured discipline Issues discussed in the book include English language and literature pedagogy in Japan The modes through which EFL and English literary studies converge and diverge Globalized English beyond the Anglo American perspective English classroom practices particularly in Japan

The Japan Magazine ,1916 **Policies and Practice in Language Learning and Teaching** Sabine Doff, Richard Smith, 2025-10-01 This book brings together studies from Georgia Germany Italy Japan New Zealand Poland South Korea and the UK which explore links between policy and practice in language teaching in the twentieth century The 14 contributions set out to expand the remit of grounded history within the field of History of Language Learning and Teaching HoLLT by focusing on language teaching policies and linking these to practices and to contexts situating policy formulation in particular contexts on the one hand and exploring the relationship between policy and practice on the other In this sense the book shows how the theories policy pronouncements curricula textbooks and overall teaching approaches which tend to feature in most histories of language teaching always emerge from particular researchable contexts and in the other direction are interpreted and responded to in practice again in particular contexts In this way it hopes to contribute a context based perspective that highlights diversity of practices in opposition to received views that language teaching methodology is universal and context free

The Teaching of American Culture in English Courses in Japan Kenji Kitao, 1979 *English Language Teaching during Japan's Post-war Occupation* Mayumi Ohara, John Buchanan, 2018-06-27 In 1945 Japan had to adjust very rapidly to sudden defeat to the arrival of the American Occupation and to the encounter with the English language together with a different outlook on many aspects of society and government This scholarly book is based on in depth interviews with people now aged who were school

students at the time of the Occupation and who experienced first hand this immense cultural change The book considers the nature of the changing outlook including democratization the new role for the Japanese Emperor and all this represented for the place of tradition in Japanese life and the growing emphasis on individualism away from collectivism It discusses the changing system of education itself including new structures and new textbooks and relates the feelings of the participants as they came to terms with defeat and the language and culture of the former enemy Overall the book provides a fascinating insight into a key period of Japanese history

Motivation to Learn Multiple Languages in Japan Chika Takahashi, 2022-11-22 This book provides rare insights into motivation among extremely successful learners of English and languages other than English LOTE through the analysis of a longitudinal study and the examination of the factors involved in becoming multilingual in a non multilingual environment Based on sixteen interview sessions conducted over the course of nine years while the learners progressed from high school to the world of work this book offers the story of how two learners persist in English LOTE learning The study illuminates the long term processes through which the interviewees develop ideal English LOTE selves in an environment where multilingualism is not emphasized and where both English and LOTE can still be described as foreign languages Educators and researchers will learn from this study which stretches our understanding of motivation beyond the recent theorizing of L2 motivation and contributes to the limited research in long term motivational trajectories and LOTE learning motivation which is particularly scarce in non European contexts The book will be of interest not only to readers in Japan but also to those in other contexts as it offers an example of successful learners who go beyond the pragmatic and instrumentalist view of language learning to hold a more holistic view thus revealing the factors which can sustain multiple language learning even in foreign language contexts

The Evolution of English Language Learners in Japan Yoko Kobayashi, 2018-01-19 This book seeks a better understanding of the sociocultural and ideological factors that influence English study in Japan and study abroad contexts such as university bound high schools female dominant English classes at college ESL schools in Canada and private or university affiliated ESL programs in Singapore and Malaysia The discussion is based not only on data garnered from Japanese EFL learners and Japanese overseas educators but also on official English language policies and commercial magazine discourses about English study for Japanese people The book addresses

seemingly incompatible themes that are either entrenched in or beyond Japan's EFL context such as Japan's decades long poorly performing English education vs its equally long lived status as an economic power Japanese English learners preference for native English speakers norms in at home Japanese EFL contexts vs their friendship with other Asian students in western study abroad contexts Japanese female students dream of using English to further their careers vs Japanese working women's English study for self enrichment Japanese society's obsession with globalization through English study vs the Japanese economy sustained by monolingual Japanese businessmen Japanese business magazines frequent cover issues on global business English study vs Japanese working women's magazines less frequent and markedly feminized discourses about English study
