English Churches In A Secular Society Lambeth 1870 1930:

The Nineteenth-Century Church and English Society Frances Knight,1995 The first study of lay people and parish clergy in the nineteenth century Church of England **The English Churches in a Secular Society** Jeffrey Cox,1982 Focusing his study on the borough of Lambeth in South London Cox argues against the prevailing theory among historians and sociologists that the decline of religion in England at the end of the Victorian era was an inevitable consequence of pluralism the Industrial Revolution and the secularization of thought Modern Spiritualism and the Church of England, 1850-1939 Georgina Byrne,2010 Shows how some of the ideas about the afterlife presented by spiritualism helped to shape popular Christianity in the period From the moment of its arrival in Britain in 1852 modern spiritualism became hugely popular among all sections of society As well as offering mysterious and entertaining s ance phenomena spiritualism was underpinned by a belief that the living could communicate with the departed and even come to know what life after death looked like This book offering the first detailed account of the theology of spiritualism examines what happened when the Church of England itself already grappling with questions about the nature of the afterlife met with such a vibrant and confident presentation Although this period saw a gradual liberalising in the Church s own theology of heaven and hell this was not communicated to the wider public as long as sermons and liturgy remained largely framed in traditional language Over time spiritualism already embedded in common culture explicitly influenced the thinking of some Anglican clergy and implicitly began to permeate and shape popular Christianity to the extent that even some of spiritualism s harshest critics made use of its colourful imagery This study sets one significant aspect of Christian doctrine alongside an attractive alternative and provides a fascinating example of the negotiation of belief the way in which in the interface between Church and culture religious belief came to be refreshed and redefined GEORGINA BYRNE is an ordained Anglican priest and currently Director of Ordinands for the Diocese of Worcester and a Residentiary Canon at Worcester Cathedral Culture, Philanthropy and the Poor in Late-Victorian London Geoffrey A. C. Ginn,2017-04-21 In refreshing our understanding of this obscure but eloquent activism Ginn approaches cultural philanthropy not simply as a project of class self interest nor as fanciful missionary aestheticism Rather he shows how liberal aspirations towards adult education and civic community can be traced in a number of centres of moralising voluntary effort Concentrating on Toynbee Hall in Whitechapel the People s Palace in Mile End Red Cross Hall in Southwark and the Bermondsey Settlement the discussion identifies the common impulses animating practical reformers across these settings Ginn shows how these were shaped by a distinctive diagnosis of urban deprivation and anomie **The Death of Christian Britain** Callum G. Brown,2013-04-15 The Death of Christian Britain uses the latest techniques to offer new formulations of religion and secularisation and explores what it has meant to be religious and irreligious during the last 200 years By listening to people s voices rather than purely counting heads it offers a fresh history of de christianisation and predicts that the British experience since the 1960s is emblematic of the

destiny of the whole of western Christianity Challenging the generally held view that secularization has been a long and gradual process beginning with the industrial revolution it proposes that it has been a catastrophic short term phenomenon starting with the 1960 s Is Christianity in Britain nearing extinction Is the decline in Britain emblematic of the fate of western Christianity Topical and controversial The Death of Christian Britain is a bold and original work that will bring some uncomfortable truths to light Secularisation in the Christian World Michael Snape,2016-04-01 The power of modernity to secularise has been a foundational idea of the western world Both social science and church history understood that the Christian religion from 1750 was deeply vulnerable to industrial urbanisation and the Enlightenment But as evidence mounts that countries of the European world experienced secularising forces in different ways at different periods the timing and causes of de Christianisation are now widely seen as far from straightforward Secularisation in the Christian World brings together leading scholars in the social history of religion and the sociology of religion to explore what we know about the decline of organised Christianity in Britain Europe the United States Canada and Australia The chapters tackle different strands themes comparisons and territories to demonstrate the diversity of approach thinking and evidence that has emerged in the last 30 years of scholarship into the religious past and present The volume includes both new research and essays of theoretical reflection by the most eminent academics It highlights historians and sociologists in both agreement and dispute With contributors from eight countries the volume also brings together many nations for the first consolidated international consideration of recent themes in de Christianisation With church historians and cultural historians and religious sociologists and sociologists of the godless society this book provides a state of the art guide to secularisation studies **Philanthropy and the Funding of the Church of England, 1856-1914** Sarah Flew,2015-10-06 The changing relationship between the church and its supporters is key to understanding changing religious and social attitudes in Victorian Britain Using the records of the Anglican Church s home missionary organizations Flew charts the decline in Christian philanthropy and its connection to the growing secularization of society *Tracing Your Church of England Ancestors* Stuart A. Raymond,2017-08-30 In his latest handbook on the records of the major Christian religions Stuart Raymond focuses on the Church of England He identifies the available sources comments on their strengths and weaknesses and explains how to make the best use of them The history of the Church of England is covered from the Reformation in the mid sixteenth century until the present day Anyone who has a family connection with the Church of England or a special interest in the local history of the church will find his book to be a mine of practical information and an essential aid for their research A sequence of short accessible chapters gives an insight into the relevant records and demonstrates how much fascinating genealogical information can be gleaned from them After providing a brief history of the Church of England and a description of its organization Stuart Raymond explores the wide range of records that researchers can consult Among them are parish registers bishops transcripts marriage licenses churchwardens accounts vestry minutes church magazines tithe records and

the records of the ecclesiastical courts and Anglican charities and missions A wealth of research material is available and this book is the perfect introduction to it **Spirits of Community** K. D. M. Snell, 2016-06-16 Concern about the decline of community and the theme of community spirit are internationally widespread in the modern world The English past has featured many representations of declining community expressed by those who lamented its loss in quite different periods and in diverse genres This book analyses how community spirit and the passing of community have been described in the past whether for good or ill with an eye to modern issues such as the so called loneliness epidemic or the social consequences of alternative structures of community It does this through examination of authors such as Thomas Hardy James Wentworth Day Adrian Bell and H E Bates by appraising detective fiction writers analysing parish magazines considering the letter writing of the parish poor in the 18th and 19th centuries and through the depictions of realist landscape painters such as George Morland K D M Snell addresses modern social concerns showing how many current preoccupations had earlier precedents In presenting past representations of declining communities and the way these affected individuals of very different political persuasions the book draws out lessons and examples from the past about what community has meant hitherto setting into context modern predicaments and judgements about spirits of community today

Crown, Church and Constitution Jörg Neuheiser, 2016-05-01 Much scholarship on nineteenth century English workers has been devoted to the radical reform politics that powerfully unsettled the social order in the century's first decades Comparatively neglected have been the impetuous patriotism royalism and xenophobic anti Catholicism that countless men and women demonstrated in the early Victorian period This much needed study of the era's conservatism from below explores the role of religion in everyday culture and the Tories successful mobilization across class boundaries Long before they were able to vote large swathes of the lower classes embraced Britain's monarchical religious and legal institutions in the defense of traditional English culture *Labour and the Free Churches, 1918-1939* Peter Catterall, 2016-10-06 Did the Labour Party in Morgan Phillips famous phrase owe more to Methodism than Marx Were the founding fathers of the party nurtured in the chapels of Nonconformity and shaped by their emphases on liberty conscience and the value of every human being in the eyes of God How did the Free Churches traditionally allied to the Liberal Party react to the growing importance of the Labour Party between the wars This book addresses these questions at a range of levels including organisation rhetoric policies and ideals and electoral politics It is shown that the distinctive religious setting in which Labour emerged indeed helps to explain the differences between it and more Marxist counterparts on the Continent and that this setting continued to influence Labour approaches towards welfare nationalisation and industrial relations between the wars In the process Labour also adopted some of the righteousness of tone of the Free Churches This setting was however changing Dropping their traditional suspicion of the State Nonconformists instead increasingly invested it with religious values helping to turn it through its growing welfare functions into the provider of practical Christianity This nationalisation of religion

continues to shape British attitudes to the welfare state as well as imposing narrowly utilitarian and material tests of relevance upon the churches and other social institutions The elevation of the State was not however intended as an end in itself What mattered were the social and individual outcomes Socialism for those Free Churchmen and women who helped to shape Labour in the early twentieth century was about improving society as much as systems

Culture in Manchester

Janet Wolff,2015-11-01 This book brings together studies of cultural institutions in Manchester from 1850 to the present day giving an unprecedented account of the city's cultural evolution These bring to light the remarkable range of Manchester's contribution to modern cultural life including the role of art education popular theatre religion pleasure gardens clubs and societies The chapters show the resilience and creativity of Manchester's cultural institutions since 1850 challenging any simple narrative of urban decline following the erosion of Lancashire's industrial base at the same time illustrating the range of activities across the social classes This book will appeal to everyone interested in the cultural life of the city of Manchester including cultural historians sociologists and urban geographers as well as general readers with interests in the city It is written by leading international authorities including Viv Gardner Stephen Milner Mike Savage Bill Williams and Janet Wolff

The Church Mission Society Brian Stanley, Kevin Ward,2019-07-12 The Church Missionary Society now renamed the Church Mission Society has been for most of its 200 year history the largest and most influential of the British Protestant missionary agencies Its bicentenary in 1999 is being marked by the publication of this collection of historical and theological essays by an international team of scholars including Lamin Sanneh Kenneth Cragg and Geoffrey A Oddie The volume contains re assessments of the classic centenary history of the CMS by Eugene Stock and of the strategic vision of Henry Venn one of the two architects of the Three Self theory of the indigenous church There are chapters on the close links between the CMS and the Basel Mission women missionaries and regional studies of Samuel Crowther and the Niger mission Iran the Middle East New Zealand India and Kikuyu Christianity The volume makes a major contribution to the growing body of literature on the indigenization of missionary traditions and will be of interest to historians of the missionary movement and non western Christianity as well as theologians concerned with religious pluralism dialogue and Christian mission

Squires in the Slums Nigel Scotland,2007-06-27 Settlements were a distinctive aspect of late Victorian church life in which individual philanthropic Christians were encouraged to live and work in communities amongst the poor and set an example for the underprivileged through their own actions Often overlooked by historians settlements are of great value in understanding the values and culture of the 19th century Settlement missions were first conceived when Samuel Barnett the incumbent of St Jude's Whitechapel in the East End of London sought to introduce them as a major aspect of Victorian church life Barnett argued that settlers should be incorporated into London communities that suffered from squalor and poverty to live and work alongside the poor to demonstrate their Christian faith and attempt to enhance social conditions from the inside His first recruits were Oxford undergraduates and when Toynbee Hall was founded in Oxford in 1884 his

radical vision of adapting Christian morality towards tackling social deprivation had begun By the end of the Victorian era more than fifty similar institutions had been created Whilst few settlements lasted beyond the Victorian period by injecting Christian ethics into trade unions local government and the community they had a huge impact which is still felt in the way these organisations operate today *Pathways and Patterns in History* Peter J. Morden, 2020-10-06 Professor David Bebbington is a highly regarded historian He holds a chair at the University of Stirling has been President of the Ecclesiastical History Society and has delivered numerous endowed lecture series as well as being deeply involved in the Dr Williams s Dissenting Academies Project He is both a popular and influential academic historian whose writings have significantly shaped our thinking about the history of evangelicalism Baptist life and political developments In *Pathways and Patterns* colleagues former research students and friends who are indebted to Professor Bebbington and value his contribution to scholarship join together to pay tribute to his outstanding work Not only has he stimulated academic endeavour he has also given much personal support not least to those in the Baptist Historical Society and in Colleges among them Spurgeon s College and Baylor University USA where he is a Distinguished Visiting Professor This volume reflects his wide involvements and the grateful esteem in which he is held Among Professor Bebbington s achievements has been both instituting and masterminding the very important International Conference on Baptist Studies ICOBS held every three years in different parts of the world It is appropriate then that this volume was presented to him at the Seventh ICOBS Conference held in Manchester July 2015 **Britain's Experience of Empire in the Twentieth Century** Andrew Thompson, 2016-11-24 Written by specialists from various fields this edited volume is the first systematic investigation of the impact of imperialism on twentieth century Britain The contributors explore different aspects of Britain s imperial experience as the empire weathered the storms of the two world wars was subsequently dismantled and then apparently was gone How widely was the empire s presence felt in British culture and society What was the place of imperial questions in British party politics Was Britain s status as a global power enhanced or underpinned by the existence of its empire What was the relation of Britain s empire to national identities within the United Kingdom The chapters range widely from social attitudes to empire and the place of the colonies in the public imagination to the implications of imperialism for demography trade party politics and political culture government and foreign policy the churches and civil society and the armed forces The volume also addresses the fascinating yet complex question of how after the formal end of empire the colonial past has continued to impinge upon our post colonial present as contributors reflect upon the diverse ways in which the legacies of empire are interpreted and debated in Britain today *The Evangelical Age of Ingenuity in Industrial Britain* Joseph Stubenrauch, 2016 It demonstrates that developments in technology commerce and infrastructure in the late eighteenth and early nineteenth centuries were closely linked to theological shifts and changing modes of religious life as British evangelicals developed new methods of spreading the gospel and new forms of personal religious practice **The 'Empty' Church Revisited** Robin

Gill,2017-07-05 When did churches start to appear more empty than full and why The very physicality of largely empty churches and chapels in Britain plays a powerful role in popular perceptions of religion Empty churches are frequently cited in the media as evidence of large scale religious decline The Empty Church Revisited presents a systematic account of British churchgoing patterns over the last two hundred years uncovering the factors and the statistics behind the considerable process of decline in church attendance Dispelling as myth the commonly held views that the process of secularization in British culture has led to the decline in churchgoing and resulted in the predominantly empty churches of today Gill points to physical factors economics and issues of social space to shed new light on the origins of empty churches This thoroughly updated edition of Robin Gill s earlier work The Myth of the Empty Church presents new data throughout to explore afresh the paradox of church building activity in a context of decline the patterns of urbanisation followed by sub urbanisation affecting churches changes in patterns of worship and changes within the sociology of religion in the last decade

Nineteenth-Century Religion, Literature and Society Rebecca Styler,2020-12-14 This four volume historical resource provides new opportunities for investigating the relationship between religion literature and society in Britain and its imperial territories by making accessible a diverse selection of harder to find primary sources These include religious fiction poetry essays memoirs sermons travel writing religious ephemera unpublished notebooks and pamphlet literature Spanning the long nineteenth century c 1789 1914 the resource departs from older models of the Victorian crisis of faith in order to open up new ways of conceptualising religion This first volume looks at Traditions offering an overview of the different religious traditions and denominations present in Britain during this period *Religious Routes to Gladstonian Liberalism* Jacob Ellens,1994-08-30 This book covering the period 1832 to 1868 describes how the so called church rates controversy contributed to the rise of a secular liberal state in England and Wales The church rate was an ancient tax required of all ratepayers regardless of denomination for the upkeep of parish churches of the Church of England This meant that Dissenters and other non Anglicans paid for the support of the established Church In the 1830s however the Dissenters determined to tolerate the situation no longer The resulting thirty six year struggle became the central church state issue of the Victorian period Ellens further argues that church rates played a pivotal role in the shaping of Victorian liberalism Dissenters desired a society in which church and state would be separate and religious affairs voluntary When Gladstone decided to champion the Dissenters voluntarist cause in the 1860s he established the relationship that would give him the solid basis of electoral strength he needed to carry out the great liberal reforms of his governments after 1868 Elegantly written and argued this book carefully details the process of disestablishment in England and Wales and uncovers an important and little recognized dimension to the formation of the Liberal party
