English Heritage Of York:

English Heritage Book of Viking Age York Richard Andrew Hall,1994 During the Viking Age York was the most important centre of Scandinavian power and influence in Britain This book outlines the history of this exciting period and traces the impact which the Viking settlers made

The York Corpus Christi Plays Clifford Davidson,2011-10-01 The feast of Corpus Christi celebrated annually on Thursday after Trinity Sunday was devoted to the Eucharist and the normal practice was to have solemn processions through the city with the Host the consecrated wafer that was believed to have been transformed into the true body and blood of Jesus In this way the cultus Dei thus celebrated allowed the people to venerate the Eucharistic bread in order that they might be stimulated to devotion and brought symbolically even mystically into a relationship with the central moments of salvation history Perhaps it is logical therefore that pageants and plays were introduced in order to access yet another way of visualizing and participating in those events Thus the invisible things of the divine order from the creation of the world might be displayed The York Corpus Christi Plays contained in London British Library MS Add 35290 and comprising more than thirteen thousand lines of verse actually represent a unique survival of medieval theater They form the only complete play cycle verifiably associated with the feast of Corpus Christi that is extant and was performed at a specific location in England

Medieval York D. M. Palliser,2014-01-23 Medieval York provides a comprehensive history of what is now considered England s most famous surviving medieval city covering nearly a thousand years The volume examines York from its post Roman revival as a town c 600 to the major changes of the 1530s and 1540s which in many ways brought an end to the Middle Ages in England York was one of the leading English towns after London and in status almost always the second city Much research and publication has been carried out on various aspects of medieval York but this volume seeks to cover the field in its entirety David Palliser offers an up to date and broad based account of the city by employing the evidence of written documents archaeology especially on the rich results of recent city centre excavations urban morphology numismatics art architecture and literature Special attention is paid to the city s religious drama and its wealth of surviving stained glass The story of Medieval York is set in a wide context to make comparisons with other English and Continental towns to establish how far York s story was distinctive or was typical of other English towns which have been less fortunate in the survival of their medieval fabric It is essential reading for anyone interested in York s past and in its rich heritage of medieval churches guildhalls houses streets and city walls the most complete medieval circuit in England

[Archaeology, History and Science](#) Marcos Martinon-Torres,Thilo Rehren,2016-09-16 Using a combination of historical archaeological and scientific data is not an uncommon research practice Rarely found however is a more overt critical consideration of how these sources of information relate to each other or explicit attempts at developing successful strategies for interdisciplinary work The authors in this volume provide such critical perspectives examining materials from a wide range of cultures and time periods to demonstrate the added value of

combining in their research seemingly incompatible or even contradictory sources Case studies include explorations of the symbolism of flint knives in ancient Egypt the meaning of cuneiform glass texts medieval metallurgical traditions and urban archaeology at industrial sites This volume is noteworthy as it offers novel contributions to specific topics as well as fundamental reflections on the problems and potentials of the interdisciplinary study of the human past **Cultural Policy is Local** Victoria Durrer, Abigail Gilmore, Leila Jancovich, David Stevenson, 2023-08-26 This Open Access edited collection calls for a greater understanding of the local within the ways the arts culture and creative practices are governed promoted regulated resourced and valued Cultural policy studies tends to privilege the national and international as the primary site at which cultural policy is enacted and focuses on the local as a case study of practice rather than a site of policy in its own right While this may make global policy transfer manageable for national policy agencies it ignores the contingent relationships diverse geographies and distinct identities of localities This volume addresses this gap and is structured around three themes disciplining the local which examines key concepts from different academic fields of study managing the local which identifies policy approaches that engage with the idea of the local in different ways and practising the local which offers case studies of how local cultural policies are being enacted in places of differing scale and geography *Archaeology in the PPG16 Era* Timothy Darvill, Kerry Barrass, Vanessa Constant, Ehren Milner, Bronwen Russell, 2019-02-28 The Archaeological Investigations Project AIP funded by English Heritage systematically collected information about the nature and outcomes of more than 86 000 archaeological projects undertaken between 1990 and 2010 This volume looks at the long term trends in archaeological investigation and reporting places this work within wider social political and professional contexts and reviews its achievements Information was collected through visits to public and private organizations undertaking archaeological work Planning Policy Guidance Note 16 Archaeology and Planning known as PPG16 published in 1990 saw the formal integration of archaeological considerations with the UK town and country planning system that and set out processes for informed decision making and the implementation of post determination mitigation strategies defined a formative era in archaeological practice and established principles that underpin today s planning policy framework The scale of activity represented more 1000 excavations per year for most of the PPG16 Era is more than double the level of work undertaken at peak periods during the previous three decades This comprehensive review of the project presents a wealth of data A series of case studies examines the illustrate different types of development project revealing many ways in which projects develop how archaeology is integrated with planning and execution and the range of outputs documenting the process and identified a series of ten important lessons that can be learned from these investigations Looking into the post PPG16 Era the volume considers anticipated developments in the changing worlds of planning property development and archaeological practice and proposes the monitoring of archaeological investigations in England using a two pronged approach that involves self reporting and periodic strategic overviews **York in 50 Buildings** Andrew

encouraged a shift from a site oriented approach towards landscape scaled research This volume brings together an wide range of perspectives setting traditional approaches that draw on historical and contemporary aerial photographs alongside cutting edge prospection techniques cross disciplinary analyses and innovative methods of presenting this material to audiences Essays from a range of disciplines archaeology history geography heritage and museum studies studying conflict landscapes across the globe throughout the twentieth century all draw on aerial and landscape perspectives to past conflicts and their legacy and the complex issues for heritage management Organized in four parts the first three sections take a broadly chronological approach exploring the use of aerial evidence to expand our understanding of the two World Wars and the Cold War The final section explores ways that the aerial perspective can be utilized to represent historical landscapes to a wide audience With case studies ranging from the Western Front to the Cold War Ireland to Russia this volume demonstrates how an aerial perspective can both support and challenge traditional archaeological and historical analysis providing an innovative new means of engaging with the material culture of conflict and commemoration *The Jewish Communities of Medieval England* Richard Barrie Dobson,2010 *The Government of Medieval York* Sarah Rees Jones,1997

Varndell, Peter Topping, 2002-01-01 These papers come from a conference on Neolithic Causewayed Enclosures in Europe held in London in 1999 They present a series of snapshots of some of the sites and regions at the forefront of current research on causewayed enclosures in Europe and as such are a complement to the Royal Commission on the Historical Monuments of England RCHME project which has systematically recorded all known Neolithic enclosures in England by both analytical topographic survey techniques and aerial transcription The detailed regional data collected by the RCHME project has allowed a radical reinterpretation of these sites and the recognition that there are regional groups of enclosures This series of papers serves to broaden the discussion about the structure and form of causewayed monuments beyond lowland England looking at a wide geographical range of sites across central Europe as well as considering some sites which do not conform to the traditional type but which have been proved by excavation to have a Neolithic context This collection of papers provides a long awaited and important addition to the debate on these enigmatic prehistoric sites *The Parisi* Peter Halkon, 2013-10-01 The Parisi were a tribe located somewhere within the present day East Riding of Yorkshire UK known from a brief reference by Ptolemy They were originally immigrants from Gaul and share their name with the tribe that occupied modern day France Fairly obvious from their name they gave the French capital its name The investigation of the Parisi began in the sixteenth and seventeenth centuries following the trend for antiquarian exploration elsewhere in Britain Before that the remains of Roman buildings encountered in medieval East Yorkshire were treated with little respect and used as a resource The Parisi tells this captivating story of the history of the archaeology of The Parisi from the initial investigations in the sixteenth century right through to modern day investigations *York* Sarah Rees Jones, 2013-10 This volume is a study of the development of the city of York as a place and as a community between 1068 and 1350 **Managing Archaeological Resources** Francis P McManamon, Andrew Stout, Jodi A Barnes, 2016-06-03 Original research articles show the range of activities issues and solutions undertaken by contemporary managers of heritage sites around the world
