Troia,Rebecca K. Shankland,Anne Heintz,2010-04-29 What are the most effective methods for teaching writing across grade levels and student populations What kind of training do teachers need to put research validated methods into practice This unique volume combines the latest writing research with clear cut recommendations for designing high quality professional development efforts Prominent authorities describe ways to help teachers succeed by using peer coaching cross disciplinary collaboration lesson study and other professional development models All aspects of instruction and assessment are addressed including high stakes writing assessments applications of technology motivational issues writing in different genres and subject areas and teaching struggling writers *Language Arts and Literacy in the Middle Grades* Margaret J. Finders,Susan Hynds,2007 From two prominent scholars in the field of literacy comes a middle school teacher preparation text that offers important innovations not usually found in traditional secondary methods texts The book is rife with concrete examples of teaching literacy and language arts in middle school contexts but is relevant to preservice and practicing teachers at middle and high school levels This edition includes a stronger focus on culturally relevant pedagogy and the needs of English Language Learners as well as a Standards in Practice feature which helps teachers incorporate state and national standards in teaching and planning The book is based on a teacher as inquirer model A fieldwork component provides tools for classroom inquiry

and reflection in each chapter. The book is timely and relevant with classroom cases written by experienced and new middle school language arts teachers. **Collecting for the Curriculum** Amy J. Catalano, 2015-09-28 If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book is the only one that offers explicit advice on collection development in curriculum collections. It is for you. While there are many publications on the Common Core for school librarians and K-12 educators no such literature exists for curriculum librarians at the post secondary level. This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards (CCSS). The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices. The book begins with a primer on the CCSS and how curriculum librarians can support them. Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection. Material types covered include games, textbooks, children's literature, primary sources, counseling, and nonfiction. Additional chapters cover the management of curriculum collections, testing collections, and instruction and reference as well as how to support and collect for special needs learners. Current practices in collection development for curriculum materials librarians are also reviewed. The book closes with a discussion of the future of curriculum materials.
