Englishmen Abroad Being An Account Of Their Travels In The Seventeenth Century:

Englishmen Abroad Robert Munter, Clyde L. Grose, 1986 A collection of extracts from the writings of 39 travellers explorers colonists exiled monarchs soldiers of fortune both for their intrinsic value and for their representation of the development of travel writing as a literary genre *Englishmen abroad* Robert Munter, Clyde L. Grose, 1986 **British Travellers in Holland During the Stuart Period** C. D. Van Strien, 1993 The book discusses the form and contents of seventeenth and early eighteenth century travel journals and correspondence together with other aspects of tourism such as transport accommodation and sightseeing It contains annotated texts by Edward Browne and John Locke written while on tour in Holland Travel Writing 1700-1830 Elizabeth A. Bohls, Ian Duncan, 2008-08-14 How is the mind agitated and bewildered at being thus as it were placed on the borders of a new world William Bartram Thus you see dear sister the manners of mankind do not differ so widely as our voyage writers would have us believe Mary Wortley Montagu With widely varied motives scientific curiosity commerce colonization diplomacy exploration and tourism British travellers fanned out to every corner of the world in the period the Critical Review labelled the Age of Peregrination The Empire already established in the Caribbean and North America was expanding in India and Africa and founding new outposts in the Pacific in the wake of Captain Cook s voyages In letters journals and books travellers wrote at first hand of exotic lands and beautiful scenery and encounters with strange peoples and dangerous wildlife They conducted philosophical and political debates in print about slavery and the French Revolution and their writing often affords unexpected insights into the writers themselves This anthology brings together the best writing from authors such as Daniel Defoe Celia Fiennes Mary Wollstonecraft Olaudah Equiano Mungo Park and many others to provide a comprehensive selection from this emerging literary genre ABOUT THE SERIES For over 100 years Oxford World s Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more *Studies on Ottoman Society and Culture, 16th-18th Centuries* Rhoads Murphey, 2023-05-31 The studies presented in this collection are concerned most particularly with the material conditions of life in the mature Ottoman state of the 16th 18th centuries They range from the evaluation of sources of livelihood and conditions in the workplace on the one hand to notions of domesticity and organization of the private sphere on the other and deal with the provinces in both the Balkans and in Asia as much as with Istanbul At the same time the volume aims to illuminate Ottoman imperial institutional forms and norms as they existed in the high imperial era before the rapid change and transformation associated with late imperial times when the empire was more exposed both to global economic forces and external political pressures This concentration on the relatively stable conditions that prevailed in the empire throughout the bulk of the early modern era ca 1450 ca 1750 provides the reader with an opportunity to assess Ottoman institutional

development and observe social and economic organization in their relatively pure state before the double impact of industrialization and increasing Westernization in the late nineteenth century **Saxon and Medieval Antecedents of the English Common Law** Kurt von S. Kynell,2000 This volume provides an interdisciplinary approach to legal history utilizing law linguistics cultural anthropology and social history to document and analyze the slow but steady growth of the English common law from Anglo Saxon times to the 19th century **Asia and the History of the International Economy** A.J.H. Latham,Heita Kawakatsu,2018-02-02 The Christian churches have frequently pioneered educational advances from the seventh century down to the nineteenth Schools universities and colleges of education stand as tangible evidence of these efforts Do all these ventures belong merely to educational history relics of the days when Christianity was influential enough to play a leading part in education Or has Christianity still a distinctive contribution to make to educational thought and practice The educationalists who contributed to the Hibbert Lectures of 1965 are convinced that it has They examine the nature of this contribution and show how it is to be made a time when education seems to be mainly influenced by secular rather than religious assumptions and aims The six lectures fall into two main parts Christianity in the schools is the theme of the first three Christianity in higher education that of the last three *George Jacob Holyoake (1817-1906) and the Development of the British Cooperative Movement* Barbara J. Blaszak,1988 This is a portrait of George Jacob Holyoake the social reformer and founder of Secularism describing his contribution to the Co operative Movement and his connection with the workers movement **Crisis and Legitimacy in Atlantic American Narratives of Piracy** Alexandra Ganser,2020-08-11 This Open Access book Crisis and Legitimacy in Atlantic American Narratives of Piracy 1678 1865 examines literary and visual representations of piracy beginning with A O Exquemelin s 1678 *Buccaneers of America* and ending at the onset of the US American Civil War Examining both canonical and understudied texts from Puritan sermons James Fenimore Cooper s *The Red Rover* and Herman Melville s *Benito Cereno* to the popular cross dressing female pirate novelette Fanny Campbell and satirical decorated Union envelopes this book argues that piracy acted as a trope to negotiate ideas of legitimacy in the contexts of U S colonialism nationalism and expansionism The readings demonstrate how pirates were invoked in transatlantic literary production at times when dominant conceptions of legitimacy built upon categorizations of race class and gender had come into crisis As popular and mobile maritime outlaw figures it is suggested pirates asked questions about might and right at critical moments of Atlantic history **Domesticity, Imperialism, and Emigration in the Victorian Novel** Diana C. Archibald,2002 **The Portrayal of Life Stages in English Literature, 1500-1800** Jeanie Watson,Philip McM. Pittman,1989 Covering the years 1500 to 1800 these essays which portray life stages in English literature include studies of Erasmus Fulke Greville Johnson and Thomas More They examine how the many ages of man are treated in the literature of this period **Encyclopedia of the Essay** Tracy Chevalier,2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages

in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies Travel in England in the Seventeenth Century Joan Parkes,1925 **The Genius of the English Nation** Anna Suranyi,2008 Travel literature was one of the most popular literary genres of the early modern era This book examines how concepts of national identity imperialism colonialism and orientalism were worked out and represented for English readers in early travel and ethnographic writings **English Travellers Abroad, 1604-1667** John Stoye,1989-01-01 This delightful book by John Stoye allows us to accompany the seventeenth century traveler on his journeys into France Italy Spain and the Netherlands *Images of the Educational Traveller in Early Modern England* Sara Warneke,1995 This book provides valuable new insights into the public debate over educational travel in early modern England and examines the seven major images of the educational traveller and the fears and insecurities within English society that engendered them *Canadian Books in Print* ,1988 **Refugee Nuns, the French Revolution, and British Literature and Culture** Tonya J. Moutray,2016-03-22 In eighteenth century literature negative representations of Catholic nuns and convents were pervasive Yet during the politico religious crises initiated by the French Revolution a striking literary shift took place as British writers championed the cause of nuns lauded their socially relevant work and addressed the attraction of the convent for British women Interactions with Catholic religious including priests and nuns Tonya J Moutray argues motivated writers including Hester Thrale Piozzi Helen Maria Williams and Charlotte Smith to reevaluate the historical and contemporary utility of religious refugees Beyond an analysis of literary texts Moutray s study also examines nuns personal and collective narratives as well as news coverage of their arrival to England enabling a nuanced investigation of a range of issues including nuns displacement and imprisonment in France their rhetorical and practical strategies to resist authorities representations of refugee migration to and resettlement in England relationships with benefactors and locals and the legal status of English nuns and convents in England including their work in recruitment and education Moutray shows how writers and the media negotiated the multivalent figure of the nun during the 1790s shaping British perceptions of nuns and convents during a time critical to their survival **The Nineteenth Century** ,1896 Imperial Boredom Jeffrey A. Auerbach,2018-10-03 Imperial Boredom offers a radical reconsideration of the British Empire during its heyday in the nineteenth century Challenging the long established view that the empire was about adventure and excitement with heroic men and intrepid women eagerly spreading commerce and civilization around the globe this thoroughly researched engagingly written and lavishly illustrated account suggests instead that boredom was central to the experience of empire Combining individual stories of pain and perseverance with broader analysis Professor Auerbach considers what it was

actually like to sail to Australia to serve as a soldier in South Africa or to accompany a colonial official to the hill stations of India He reveals that for numerous men and women from explorers to governors tourists to settlers the Victorian Empire was dull and disappointing Drawing on diaries letters memoirs and travelogues *Imperial Boredom* demonstrates that all across the empire men and women found the landscapes monotonous the physical and psychological distance from home debilitating the routines of everyday life wearisome and their work tedious and unfulfilling The empires early years may have been about wonder and marvel but the Victorian Empire was a far less exciting project Many books about the British Empire focus on what happened this book concentrates on how people felt
