Enhancing Motivation A Change Project In The Classrooms:

Promoting Behaviour for Learning in the Classroom Simon Ellis, Janet Tod, 2014-10-17 Promoting Behaviour for Learning in the Classroom offers essential support to help you develop capacity and confidence in managing behaviour in the group setting of the classroom. It provides a concise analysis of established behaviour management strategies recognising that no single approach will work for all pupils and that central to effective practice is an understanding of the different personal attributes and experiences teachers and pupils bring to the classroom. Illustrated by examples from the classroom Promoting Behaviour for Learning in the Classroom uses the tried and tested Behaviour for Learning framework to show how teachers' expertise in promoting learning can be used to improve behaviour. Key issues considered include Developing positive relationships in the classroom Understanding personal style and self management Effective use of feedback and rewards Using positive correction and sanctions Working with school systems and frameworks for managing behaviour Individual differences and special educational needs Dealing with challenging behaviour Written by experts in the field Promoting Behaviour for Learning in the Classroom offers much needed in depth realistic support and guidance to show teachers how to improve learning and behaviour in the group setting of the classrooms *Research on Sociocultural Influences on Motivation and Learning - 1st Volume* Dennis M.
