**Nuclear Weapons Free Zones** Exequiel Lacovsky, 2021-03-08 This book explores the conditions under which Nuclear Weapons Free Zones NWFZs can be established It analyzes four hypotheses that explain the factors contributing to the formation of NWFZs building upon realist constructivist and liberal theories from international relations Through structured focused comparison the book presents and compares the emergence of NWFZs in Latin America the South Pacific Southeast Asia Africa Central Asia and the Middle East which is a prospect for a NWFZ The book argues that NWFZ projects depend on the following conditions the security interest of regional states in avoiding nuclear threats preexisting regional institutions and regional economic cooperation leadership by a core of regional powers and shared interest in spreading non proliferation norms Democracy is not a necessary condition but democratization can help overcome barriers presented by hesitant or opposed regional governments As too many of the mentioned necessary conditions are lacking in the Middle East a NWFZ project thus will be possible only after major political changes This book will be of much interest to students of nuclear proliferation arms control security studies and International Relations

**The Belt and Road: Industrial and Spatial Coordinated Development** Wei Liu, Hui Zhang, 2022-09-13 This book mainly addresses China's Belt and Road Initiative in terms of the connectivity industrial and spatial development as well as current world's

economic and trade pattern under such synergy development and focuses on the function and mechanism of industry and geography coordination. Although current research on the value circulation between China and developed economies is relatively adequate, the book focuses on the value circulation between the countries and regions, especially the developing economies. China and other developing countries tie strongly with the production value circulation. The coordination of industrial and spatial development in the global value cycle is also the cornerstone of long-term stabilization and sustainable development in China. Therefore, this book provides the theoretical and empirical research on Belt and Road from the perspectives of industrial and spatial synergy. This book proposes several questions: Any inherent inlay between industrial and geographic allocation, i.e., is there any possibility for close integration? This book analyzes the necessity of coordinated development of industry and space, the perspective of production division. Secondly, from the perspective of historical evolution and current situation, it analyzes the relationship among industry, economic growth, and fluctuation, and compares realizing paths of synergy of industrial and spatial development. It contains the industry and spatial diffusion mechanism and the effect of synergy development. Moreover, the corresponding policy implication is provided for sustainable development through the Belt and Road Initiative.
