## **Economic Liberalization And Integration In East Asia A Post Crisis Paradigm:**

**Economic Liberalization and Integration in East Asia** Yung Chul Park, 2005-12-15 Several years before the 1997 98 Asian financial crisis most East Asian economies with the exception of China had engaged in the liberal reform prescriptions of the Washington Consensus The Asian financial crisis added impetus to the transformation process as the crisis countries accepted the Washington Consensus as part of their commitment to the IMF policy conditionality In this book the author argues for the continuing validity of an East Asian model of economic development that differs distinctly from the Washington Consensus He argues that while this model was undermined to some extent by the 1997 98 financial crisis it remains robust and important in explaining economic events in East Asia In doing so he covers the accomplishments and failures of the East Asian development model and the reform agenda for a new East Asian paradigm for post crisis development

Economic Liberalization and Integration in East Asia Yŏng-ch'ŏl Pak, 2006 In this book Park argues for the continuing validity of an East Asian model of economic development that differs distinctly from the Washington Consensus He argues that while this model was undermined to some extent by the 1997 98 financial crisis it remains robust and important in explaining economic events in East Asia

Initiatives of Regional Integration in Asia in Comparative Perspective Howard Loewen, Anja

Zorob,2018-03-12 This volume offers to compare and explain variances of regionalism in Asia by disclosing the distinctive features of regional arrangements and how they evolved during the 1990s and 2000s against the background of a changing global environment Moreover it takes up a genuinely inter Asian perspective By analysing and comparing diverse manifestations of regional integration agreements across Asia and its different sub regions it sets out to track their common characteristics and sub regional facets with respect to their establishment design and consequences In addition political processes accompanying their negotiation and implementation are scrutinized The analysis encompasses nine case studies written by renowned scholars who together as a group combine an extraordinary mixture of different disciplinary backgrounds as well as expertise on shapes and processes of regional integration in different parts of Asia The case studies seize on some of the most important features and controversial issues characterizing the second regionalism Such are the emergence and impact of overlapping FTAs regional financial and sub regional economic integration and cooperation power and the politics of regional integration as well as the nexus between conflict resolution state failure and regional integration

*The Nature of Asian Politics* Bruce Gilley,2014-09-15 The Nature of Asian Politics is a broad and thematic treatment of the fundamental factors that characterize politics in the fourteen key countries of Southeast and Northeast Asia Bruce Gilley begins with an overview of state society relations then moves on to the fundamental questions of development and democracy and finally shifts to an exploration of governance and public policy in the region This book proposes an Asian governance model that is useful for understanding politics from Japan to Indonesia By reviving an earlier paradigm known as oriental despotism and applying it to political theories on the Asian region this book is likely to attract wide debate among students of Asian politics and among Western policy makers seeking to engage the region

*Confronting South Korea's Next Crisis* Jaejoon Woo,2022-05-12 South Korea s economic miracle is a well known story However today Korea is confronting a new set of internal and external risks which may foreshadow the next crisis The Korean economy has been struggling with the faltering growth momentum and the rise of unprecedented socio economic problems over recent years well before the pandemic crisis After abrupt downshifts to markedly slower growth in the early 2000s economic growth has continued to decelerate Koreans are grappling with slow income growth all time high household debt high youth unemployment inequality and social polarization Politics is in disarray and is incapable of directing social discourse for the common good Rapid population aging along with the world s lowest fertility rates stokes fears of Japanification Simultaneously disruptive technologies and fast changing business environment such as the rise of China clash with a range of long standing structural problems The contemporary challenges are radically different from those seen in the early stages of industrialization There are multiple risks that threaten to self perpetuate low or stagnant growth over the next decade or so if not an outright financial crisis Motivated by these latest developments this book seeks to provide a timely and in depth analysis of key current issues and foreseeable challenges of the economy with a provocative reassessment of its future Based

on extensive new empirical works it examines the underlying causes of the socio economic problems In a constructive spirit it puts in perspective what would constitute critical elements of ideal policy solutions and the direction of the future government's role *New Life Courses, Social Risks and Social Policy in East Asia* Raymond K.
