Economic Sanctions In International Law Les Sanctions Economiques En Droit International Volume 23:

Economic Sanctions in EU Private International Law Tamás Szabados, 2020-01-23 Economic sanctions are instruments of foreign policy. However, they can also affect legal relations between private parties principally in contract. In such cases, the court or arbitration tribunal seized must decide whether to give effect to the economic sanction in question. Private international law functions as a filter transmitting economic sanctions that originate in public law to the realm of private law. The aim of this book is to examine how private international law rules can influence the enforcement of economic sanctions and their related foreign policy objectives. A coherent EU foreign policy position in addition to promoting legal certainty and predictability would presuppose a uniform approach not only concerning the economic sanctions of the EU but also with regard to the restrictive measures imposed by third countries. However, if we examine in detail the application of economic sanctions by Member States' courts and arbitral tribunals, we find a somewhat different picture. This book argues that this can be explained in part by the divergence of private international law approaches in the Member States.

Le contentieux de la mise en conformité dans le règlement des différends de l'O.M.C. / Adjudicating Compliance in the WTO Dispute Settlement System Andrea Hamann, 2014-06-05 Le mécanisme de règlement des différends de l'O.M.C. se distingue des autres juridictions internationales en ce qu'il comporte un ensemble sophistiqué de procédures spécifiquement et exclusivement destinées à traiter les différends pouvant surgir au cours de l'exécution de l'obligation qui résulte pour un Membre de la décision juridictionnelle qui déclare sa responsabilité. Leur existence même et la façon dont les organes de jugement s'acquittent de leur mission témoignent de ce que l'exécution des obligations résultant des actes juridictionnels dans l'ordre international ne chappe pas fatalement au droit. Ainsi, le système de l'O.M.C. exprime mais aussi réalise une ambition singulière en droit international : renforcer la garantie de la légalité en habilitant la juridiction à encadrer, contrôler et en définitive participer à assurer l'exécution de ses propres décisions. The WTO dispute settlement system has created a sophisticated set of procedures designed with the sole purpose of dealing with all disagreements that can arise between the parties during the implementation process. The very existence of these procedures and the manner in which the adjudicative bodies accomplish their task give evidence of the fact that compliance with judgments in the international legal order does not inevitably lie outside the realm of the law. The WTO system thereby expresses but also fulfills a strong ambition unique when considered through the lens of international law : strengthening the rule of law by vesting the adjudicative bodies with the task of supervising, reviewing and ultimately contributing to inducing and enforcing compliance with their own judgments. *Hague Yearbook of International Law / Annuaire de La Haye de Droit International, Vol. 25 (2012)* Nikolaos Lavranos, Ruth A.
