Heltzel,2016-10-06 Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville s work *The Meaning of Religious Freedom* Franklin I. Gamwell,1995-02-01 This is the most thorough philosophical analysis available of the principle of religious freedom It draws on the thought of philosophers and political theorists Rawls Habermas Murray Rorty Greenawalt and Mead rather than on the framers of the Constitution and the Bill of Rights *The Highroad Around Modernism* Robert Cummings Neville,1992-09-01 Discussions of modernism and postmodernism in philosophy and the arts are usually based on a narrow reading of the Western tradition and are not conscious of the narrowness The modern period beginning with the European Renaissance spawned many developments not just the modernist one in terms of which the tradition has been read From the standpoint of the highroad around modernism both modernism and post modernism look like nothing more than two late modern movements perhaps too preoccupied with themselves and their historical place to engage a swiftly changing world containing more than the Western tradition The Highroad Around Modernism develops and defends an explicitly non modernist and non postmodernist extension of modernity applicable to the problems of world wide cultural interactions **Building Technology Publications** Center for Building Technology,1980 **Energy Abstracts for Policy Analysis** ,1986-07 **Publications of the National Institute of Standards and Technology ...
