Economics of Racism II Victor Perlo,1996 A completely new edition Reexamines the facts and explores their new dimensions the issues and remedies for the 1990s and the next millennium **Economics of Racism U.S.A.** Victor Perlo,1975 Monograph presenting an economic analysis of racial discrimination in the USA investigates some of the economic implications of discrimination particularly with regard to unemployment and poor employment opportunities for Blacks low income due to inequitable income distribution etc References and statistical tables The Blackwell Companion to Sociology Judith R Blau,2008-04-15 The Blackwell Companion to Sociology is a milestone collection of new essays by renowned sociologists covering both the traditions and strengths of the field as well as newer developments and directions Authors from the US the UK Europe and elsewhere have contributed to this all in one reference work highlighting the relevance of interdisciplinary and international perspectives while at the same time representing the scope and quality of sociology in its current form **Race Struggles** Theodore Koditschek,Sundiata Keita Cha-Jua,Helen A. Neville,2009 The essays in this collection start with the premise that although race like class and gender is socially constructed all three categories have been shaped profoundly by their context in a capitalist society Race in other words is a historical category that develops not only in dialectical relation to class and gender but also in relation to the material conditions in which all three are forged In addition to discussing and analyzing various dimensions of the African American experience contributors also consider the ways in which race plays itself out in the experience of Asian Americans and in the very different geopolitical environments of the British Empire and postcolonial Africa Contributors are Pedro Caban Sundiata Keita Cha Jua David Crockett Theodore Koditschek Scott Kurashige Clarence Lang Minkah Makalani Helen A Neville Ibitola O Pearce David Roediger Monica M White and Jeffrey Williams **The Bloomsbury Companion to Marx** Andrew Pendakis,Imre Szeman,Jeff Diamanti,2018-12-27 There are very few figures in history that have exerted as much and as varied an influence as Karl Marx His work represents an unrivalled intervention into fields as various as philosophy journalism economics history politics and cultural criticism His name is invoked across the political spectrum in connection to revolution and insurrection social justice and economic transformation The Bloomsbury Companion to Marx is the definitive reference guide to Marx s life and work Written by an international team of leading Marx scholars the book offers comprehensive coverage of Marx s life and contexts sources influences and encounters key writings major themes and topics and reception and influence The defining feature of this Companion is its attention to the new directions in Marxism that animate the theoretical scientific and political sides of Marx s thought Gender and the growing importance of Marxist feminism is treated as equally important to clarifying Marx today as traditional and diverse categories of critique such as class capital and mode of production Similarly this Companion showcases the methodological and political importance of Marxism to environmentalist politics Finally the volume examines in detail non European Marxisms demonstrating the centrality of Marxist thought to political movements

both within and beyond the global north This book is the ideal research resource for anyone working on Marx and his ideas today and as an entry point if you are approaching Marx's thought for the first time Dimensions of Prejudice Zak Cope, 2008 This book argues that unreasonable dogmatic beliefs are expressions of socially structured patterns of prejudice Specifically prejudice is explained as being produced and dispersed within the confines of the political structures governing the manner in which material human needs are created and met Classifying various dimensions of prejudice philosophical epistemological psychological sociological political and cultural the book conceptualises the relation between dogmatic thinking and these facets of human existence Criticising and comparing a wide range of theories and factual data relating to the growth and expression of prejudice the book is a theoretical discussion of problems surrounding the production of cultural norms the psychological effects of filial systems and relations between the sexes the constitution of modern capitalist society and elementary principles of political democracy Drawing on feminism whiteness studies Marxist theories of racism and imperialism psychoanalysis critical theory and cultural studies the author examines the constraints placed upon individuals groups and nations propensity for scientific and rational thinking **Spectres of 1919** Barbara Foley, 2010-10-01 A look at the violent Red Summer of 1919 and its intersection with the highly politicized New Negro movement and the Harlem Renaissance With the New Negro movement and the Harlem Renaissance the 1920s was a landmark decade in African American political and cultural history characterized by an upsurge in racial awareness and artistic creativity In *Spectres of 1919* Barbara Foley traces the origins of this revolutionary era to the turbulent year 1919 identifying the events and trends in American society that spurred the black community to action and examining the forms that action took as it evolved Unlike prior studies of the Harlem Renaissance which see 1919 as significant mostly because of the geographic migrations of blacks to the North *Spectres of 1919* looks at that year as the political crucible from which the radicalism of the 1920s emerged Foley draws from a wealth of primary sources taking a bold new approach to the origins of African American radicalism and adding nuance and complexity to the understanding of a fascinating and vibrant era
