**A Philosophical Anthropology Drawn from Simone Weil's Life and Writings** Helen E. Cullen, 2017-11-07 A Philosophical Anthropology Drawn from Simone Weil s Life Writings situates Weil s thought in the time between the two world wars through which she lived and traces Weil s consistent conception of a mind body dualism in the Cartesian sense to a dualism that places the mind within a carnal part of the soul and establishes an eternal part of the soul as the essence of human beings Helen Cullen argues that in Weil s early conception of human nature her Cartesian conception of perception already shows a glimpse of the eternal Weil s dualistic conception also forms the basis of her political analysis of the left of her time and through working in factories and in the fields she develops a conception of labour as a theory of action and work with a method Weil

was influenced by leading thinkers of her time prompting her to do an analysis of current scientific theories Cullen argues that Weil's analysis of Christianity already present in Greek philosophy shows us a theory of identical thought inherited from the East India and China and brought forth by peoples around Israel This theory leads to Weil's analysis developed in *The Need for Roots* of how we've been uprooted through colonization and how we can grow roots in a free local society both rural and urban

*The Origin of the Political* Roberto Esposito, 2017-04-03 In this book Roberto Esposito explores the conceptual trajectories of two of the twentieth century's most vital thinkers of the political Hannah Arendt and Simone Weil Taking Homer's Iliad that great prism through which every gesture has the possibility of becoming public precisely by being observed by others as the common origin and point of departure for our understanding of Western philosophical and political traditions Esposito examines the foundational relation between war and the political Drawing actively and extensively on Arendt's and Weil's voluminous writings but also sparring with thinkers from Marx to Heidegger *The Origin of the Political* traverses the relation between polemos and polis between Greece Rome God force technicity evil and the extension of the Christian imperial tradition while at the same time delineating the conceptual and hermeneutic ground for the development of Esposito's notion and practice of the impolitical In Esposito's account Arendt and Weil emerge in the inverse of the other's thought in the shadow of the other's light to think what the thought of the other excludes not as something that is foreign but rather as something that appears unthinkable and for that very reason remains to be thought Moving slowly toward their conceptualizations of love and heroism Esposito unravels the West's illusory metaphysical dream of peace obliging us to reevaluate ceaselessly what it means to be responsible in the wake of past and contemporary forms of war

*A Personalist Philosophy of History* Bennett Gilbert, 2019-01-15 Historical study has traditionally been built around the placement of the human at the center of inquiry The de stabilized concepts of the human in contemporary thought challenge this configuration However the ways in which

these challenges provoke new historical perspectives both expand and enrich historical study but are also weak and vulnerable in their concept of the human lacking or omitting something valuable in our self understanding A Personalist Philosophy of History argues for a robust concept of personhood in our experience of the past as a way to resolve this conflict Focused on those who know history rather than on the abstract properties of knowledge it extends the moral agency of persons into non human trans human and deep history domains It describes an approach to moral life through historical experience and study rather than through abstractions And it describes a kind of historiography that matches factual accuracy to both the constructed nature of understanding and to unavoidable moral purpose **A Selection of Short**

**Essays on Simone Weil's Life and Writings** Helen E. Cullen, 2023-12-04 Simone Weil was an extraordinary French woman who born in 1909 didn't have the same freedoms women today enjoy Despite that she became a political activist a teacher and one of the world's most well respected philosophers By the time she died at the age of thirty three Weil had made significant contributions to humanity In Helen Cullen's book A Selection of Short Essays on Simone Weil's Life and Writings Weil's background and philosophies on life are laid out and examined Though many believe that her political leanings had become more conservative over time as she embraced a more mystical life Cullen aims to demonstrate how she continued to have very progressive and leftist beliefs until her death Weil wrote copiously during her short life addressing many social political and religious issues such as the rights of factory workers during the Second World War She was an activist during the 1930's herself working in factories so she could live the experiences she wrote about Weil's perspectives on life were heavily influenced by Plato and his philosophy which Cullen analyzes in her essays Cullen also spends time examining Weil's theory of Identical Thought which some believe is her greatest contribution to humanity This book of essays offers new insight into one of this world's greatest female minds inspiring us to consider how we too may contribute to humanity

Emmanuel Gabellieri, 2003 Rassemblant l'intégralité des dimensions de la pensée de S. Weil selon un double axe chronologique et thématique ce livre montre comment héritière du spiritualisme français allant de Biran à Alain S. Weil en a radicalisé les intuitions les plus audacieuses celles d'un cogito perceptif d'une ontologie du travail ou d'une christologie philosophique renouvelant en profondeur le platonisme chrétien. Il montre ensuite comment le dialogue opéré de 1938 à 1943 entre modernité hellénisme christianisme et pensées orientales révèle un essai de refondation trinitaire de la question de l'être unique dans l'histoire de la métaphysique. Anticipant sur la critique heideggerienne de l'ontothéologie la pensée weilienne de l'universel concret a ignoré l'opposition moderne du théorique et du pratique du rationnel et du religieux et redéployé au XX<sup>ème</sup> siècle la triple dimension existentielle spéculative et mystique de la philosophie antique. Manuel historique du système politique des États de l'Europe et de leurs colonies, depuis la découverte des deux Indes Arnold Hermann Ludwig Heeren, 1821 **Manuel historique du système politique des états de l'Europe et de leurs Colonies, depuis la découverte des deux Indes. ... Arnold Hermann Ludwig Heeren, 1821 **Althusser** Gregory Elliott, 2006-08-01 First published in 1987 Althusser The Detour of Theory was widely received as the fullest account of its subject to date. Drawing on a wide range of hitherto untranslated material it examined the political and intellectual contexts of Althusser's return to Marx in the mid 1960s analysed the novel character of the Marxism developed in his major works charted their author's subsequent evolution from his self-criticism to the proclamation of a crisis of Marxism and concluded with a balance sheet of Althusser's contribution to historical materialism. For this second edition Gregory Elliott has added a substantial postscript in which he surveys the posthumous edition of the French philosopher's work published in the 1990s from the early writings of the 1940s through to the late texts of the 1980s relating the unknown Althusser revealed by them to the familiar figure of For Marx and Reading Capital together with a comprehensive bibliography of Althusser's oeuvre. La gravedad y la gracia Simone Weil, 2024-04-18 La gravedad y la gracia comprende los cuadernos que Simone Weil 1909-1943 escribió en Marsella entre el otoño de 1941 y la primavera de 1942. Auténticos fogonazos de luz que tratan temas concernientes a lo más real del espíritu humano: la sed de absoluto, la fe, el amor, la verdad, la contradicción, el trabajo, la desgracia, el sufrimiento, la injusticia, el ateísmo o el más intrincado terreno de lo sobrenatural. Un pensamiento alentado por una enorme sed de verdad y ahogado a la luz de una inteligencia serena y proba. Un ejercicio filosófico que da cuenta de hasta qué punto su autora entiende la filosofía como virtud, como trabajo sobre uno mismo con vistas a una transformación del ser. Del prólogo de Carmen Herrando Cugota. Traducción de Igo Sánchez Paos y Elena M. Cano **Simone Weil y los crucificados de la Tierra** José Luis Vázquez Borau, 2021-03-10 La filósofa francesa Simone Weil, judía revolucionaria heterodoxa apasionada radical, estuvo al lado de los más desfavorecidos en las fábricas, en las huelgas, en las guerras, en el exilio, en la adversidad y hasta en la muerte. Estamos ante una de las grandes místicas judías de la modernidad, junto a Edith Stein o Etty Hillesum. Como ella misma afirma en carta a
