Ecuador Gender Review Issues And Recommendations:

Ecuador Gender Review Maria Correia, Bernice van Bronkhorst, 2000 Although Ecuador has made considerable strides in addressing gender issues over the years gender continues to be an important development issue While access to family planning methods has increased in general the availability of contraceptives remains limited for the poor As more women enter the labor force wage gaps based on gender persist Ecuador's strong civil society movement puts gender on the public agenda but land distribution by the government continues to be biased toward men This report brings to light the most salient gender issues affecting Ecuador's social and economic development today Its purpose is to reduce gender inequalities in Ecuadoran society and to improve the effectiveness of Ecuador's social and economic development programs Gender in this report pertains to both men and women and refers to the different experiences preferences needs opportunities and constraints men and women face because of socially ascribed gender roles and expectations The report contains an overview of gender issues and trends with special attention to the rural sector where almost half the population lives The authors recommend an overall strategy and priority actions to improve conditions This report will be of interest to government officials nongovernmental organizations academics and civil society *The Socio-Economic Impacts of Artisanal and Small-Scale Mining in Developing Countries* G.M. Hilson, 2003-01-01 The purpose of this book is to examine both the positive and negative socioeconomic impacts of artisanal and small scale mining in developing countries In recent years a number of governments have attempted to formalize this rudimentary sector of industry recognizing its socioeconomic importance However the industry continues to be plagued by Evaluating a Decade of World Bank Gender Policy, 1990-99, 2005-01-01 Annotation As part of the Bank's poverty reduction mandate the Bank's 1994 Operational Policy on Gender Dimensions of Development aimed to reduce gender disparity and increase the participation of women in the economic development of their countries This evaluation examines the relevance and results of this policy *New Century, Old Disparities* Hugo Nopo, 2012-09-07 To what extent do individuals with the same observable endowment of human capital receive different salaries on the basis of their gender or ethnicity What policy options promise to diminish these earnings gaps This book tries to answer these and other questions using an innovative technique of matching comparisons **A Guide to the World Bank**, 2003 The World Bank Group works in more than 100 developing economies and is one of the world's largest sources of development assistance In 2002 the institution provided US 19.5 billion in loans to its client countries This guide reviews the organisation's history objectives and operations and looks at the five institutions that make up the World Bank Group the International Bank for Reconstruction and Development IBRD the International Development Association IDA the International Finance Corporation IFC the Multilateral Investment Guarantee Agency MIGA and the International Centre for Settlement of Investment Disputes ICSID Development, Sexual Rights and Global Governance Amy Lind, 2010-01-04 This book addresses how sexual practices and identities are imagined and regulated through development discourses and within

institutions of global governance The underlying premise of this volume is that the global development industry plays a central role in constructing people's sexual lives access to citizenship and struggles for livelihood Despite the industry's persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti poverty programs this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks The work fills an important gap in understanding how people's intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship By placing heteronormativity at the center of analysis this anthology thus provides a much needed discussion about the development industry's role in pathologizing sexual deviance yet also more recently in helping make visible a sexual rights agenda Providing insights valuable to a range of disciplines this book will be of particular interest to students and scholars of Development Studies Gender Studies and International Relations It will also be highly relevant to development practitioners and international human rights advocates The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780203868348> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Historical Dictionary of the World Bank Sarah Tenney, Anne C. Salda, 2013-10-30 When it was founded back in 1944 no one could possibly have foreseen how the World Bank known more formally as the International Bank for Reconstruction and Development IBRD would flourish Today with 188 members it is by far the largest lender for projects in agriculture health infrastructure and many other fields in developing countries around the world with a budget of billions of dollars and a staff of more than 9 000 and its advice is usually heeded by both the developing countries which borrow from it and the advanced ones which contribute This second edition of the Historical Dictionary of the World Bank shows the substantial progress the Bank has made this mainly through the dictionary section with concise entries on its component institutions related organizations its achievements in various fields some of the major projects and member countries and its various presidents The introduction explains how the Bank works while the chronology traces the major events over nearly 70 years Meanwhile the list of acronyms reminds us just who the main players are And the bibliography directs readers to useful internal documentation and outside studies

Networking Arguments Rebecca Dingo, 2012-04-22 Networking Arguments presents an original study on the use and misuse of global institutional rhetoric and the effects of these practices on women particularly in developing countries Using a feminist lens Rebecca Dingo views the complex networks that rhetoric flows through globally and nationally and how it s often reconfigured to work both for and against women and to maintain existing power structures To see how rhetorics travel Dingo deconstructs the central terminology employed by global institutions mainstreaming fitness and empowerment and shows how their meanings shift depending on the contexts in which they re used She studies programs by the World Bank the United Nations and the United States among others to view the original policies then follows the trail of their diffusion and manipulation and the ultimate consequences for individuals To analyze transnational rhetorical processes Dingo builds a theoretical framework by employing concepts of transcoding ideological traffic and interarticulation to uncover the intricacies of power relationships at work within networks She also views transnational capitalism neoliberal economics and neocolonial ideologies as primary determinants of policy and arguments over women s roles in the global economy Networking Arguments offers a new method of feminist rhetorical analysis that allows for an increased understanding of global gender policies and encourages strategies to counteract the negative effects they can create

Doing Democracy Darren E. Lund, Paul R. Carr, 2008 In this provocative collection of essays with a distinctly critical and nuanced approach to how democracy is taught learned understood and lived authors from four continents share their visions on how democracy needs to be cultivated critiqued demonstrated and manifested throughout the educational experience The collective concern is how we actually do democracy in education The essays argue that democracy must be infused in everything that happens at school curriculum extra curricular activities interaction

with parents and communities and through formal organization and structures One of the book's central questions is Are educators merely teaching students skills and knowledge to prepare them for the world of work or is education more about encouraging students to thrive within a pluralistic society This book reveals that democracy is an ethos an ideology a set of values a philosophy and a complex and dynamic terrain that is a contested forum for debate From seasoned veterans to emerging scholars these writers challenge the idea that there is only one type of democracy or that democracy is defined by elections Using a range of theoretical conceptual and methodological approaches each essay makes a compelling case for how education can advance a more critical engagement in democracy that promotes social justice and political literacy for all Diverse examples illustrate the theme of doing democracy With its numerous models for teaching and learning to encourage critical thinking and engagement this book is certain to be an invaluable resource to educators researchers students and anyone with a passion for democratic ideals

Developing Partnerships Kate Bedford, 2009 A nuanced critique of how the World Bank encourages gender norms through its policies *Developing Partnerships* argues that financial institutions are key players in the global enforcement of gender and family expectations By combining analysis of documents produced and sponsored by the World Bank with interviews of World Bank staffers and case studies Kate Bedford presents a detailed examination of gender and sexuality in the policies of the world's largest and most influential development institution Looking concurrently at economic and gender policy Bedford connects reform of markets to reform of masculinities loan agreements for export promotion to pamphlets for indigenous adolescents advising daily genital bathing and attempts to strengthen institutions after the Washington Consensus to efforts to promote loving couplehood in response to economic crisis In doing so she reveals the shifting relationships between development and sexuality and the ways in which gender policy impacts debates about the future of neoliberalism Providing a multilayered account of how gender aware policies are conceived and implemented by the World Bank *Developing Partnerships* demonstrates as well how institutional practices shape development

Annual Review of United Nations Affairs 2008/2009 Joachim Müller, Karl P. Sauvant, 2010-04-15 Since the publication of its first edition in 1950 the Annual Review of United Nations Affairs has stood as the authoritative resource for scholars students and practitioners researching the latest developments of that august body From the insightful introduction prepared each year by a distinguished expert on UN affairs to the full text presentation of reports and resolutions and the helpful subject index ARUNA provides a practical tour of each year s U N actions and debates The expert selection of documents by Joachim Muller and Karl Sauvant and the topic based organization of those documents make any researcher s task much easier than the vast searching sorting and pruning required by the U N s website The series topic based organization of the materials and subject index lend invaluable guidance to all researchers ARUNA presents a comprehensive documentation of the work of the UN on an annual basis starting in September of each year with the beginning of the regular sessions of the General Assembly Coverage of the UN s key organs is provided including the General Assembly the Security Council the Economic and Social Council ECOSOC the International Court of Justice and the UN Secretariat In addition selected reports of intergovernmental bodies and expert groups are included Solely official UN documentation is used ARUNA occupies a special place in the publications on the work of the UN it allows readers to obtain an overview of the principal developments in its key organs This makes it an important reference source for policy makers

and academic researchers The highlight of this year's edition is the introductory essay written by the highly esteemed Jose Antonio Ocampo who is Professor of Professional Practice in International and Public Affairs Director of the Program in Economic and Political Development at the School of International and Public Affairs and Fellow of the Committee on Global Thought Columbia University Professor Ocampo previously held the positions of Under Secretary General of the United Nations for Economic and Social Affairs Executive Secretary of the United Nations Economic Commission for Latin America and the Caribbean and Minister of Finance of Colombia In 2009 he was a member of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System Professor Ocampo is also the author of numerous books and articles on macroeconomics policy and theory economic development international trade and economic history His recent publications include Stability with Growth Macroeconomics Liberalization and Development with Joseph E Stiglitz Shari Spiegel Ricardo Ffrench Davis and Deepak Nayyar New York Oxford University Press 2006 Professor Ocampo relying on his expertise as a policy economist and his own considerable experience working on economic issues at the United Nations has written an incisive introductory essay focusing on the United Nations and the global economic crisis Professor Ocampo's essay examines the history of the economic policy recommendations of UN institutions and concludes that they have often been more far sighted and accurate than those of the Bretton Woods Institutions including the World Bank and the International Monetary Fund He applies this analysis in particular to the recent global financial crisis and shows how the Monterrey Consensus of 2002 which once again made the UN a forum for global economic issues gave serious consideration to the concerns of developing countries and set many goals that might have helped to stave off the global financial crisis if they had been more actively pursued Professor Ocampo also examines the UN's role in the wake of the global financial meltdown particularly with regard to the Doha follow up Conference and the Commission of Experts on Reforms of the International Monetary and Financial System convened by the General Assembly and led by Joseph Stiglitz In spite of some resistance to these initiatives from the United States and other developed countries Professor Ocampo advocates in this essay for a more influential role for the UN's institutions in global financial reform especially in light of their superior track record in anticipating economic problems resulting from the inherent tendency of financial markets to experience boom bust cycles The 2008 2009 volumes of ARUNA therefore also devote considerable attention to the financial crisis as well as other international crises Among the documents in the 2008 2009 volumes are the complete General Assembly resolutions as well as the Report and Resolutions of the Security Council and the Economic and Social Council ECOSOC Annual Reports of note include reports of the United Nations Children's Fund UNICEF the UN Development Programme and UN Population Fund the UN High Commissioner for Human Rights the UN High Commissioner for Refugees the UN Relief and Works Agency for Palestine Refugee in the Near East and the World Food Programme Mr Muller and Dr Sauvart have also selected progress reports on key peacekeeping peace building and political

Grand Bargain of a comprehensive UN reform in the areas of development security and human rights it is argued that the Summit ended more on a note of lamentation and regret over a missed opportunity Mr Ricupero concludes that contrary to the daring proclamation at the outset by the Secretary General the conditions indispensable to succeed were not in place Indeed it was hard to imagine that an ambitious and balanced reform package for the UN could have had any real chance of succeeding **Publications Update** World Bank, 1996
