Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. All entries conclude with a fully annotated bibliography.

James Payne's YouTube Channel Great Art Explained gained a huge and appreciative worldwide audience. This beautifully put together book is simply the best introduction to the lifelong pleasure and rewards of looking at pictures since Gombrich. An instant classic. Stephen Fry. Based on the popular and enormously successful YouTube channel of the same name, Great Art Explained unveils the fascinating stories behind some of the world's most iconic paintings and sculptures, proving that there's more to art than just watching paint dry. Art can be thrilling and resonate on a deep personal level. It is how you view the work, place it in context, and understand its history that makes an artwork truly come alive. A fresh approach to a classic subject. James Payne's no-nonsense analysis sheds new light on 30 masterpieces from around the globe and reveals what makes them truly timeless works of art. Each chapter delves into not only the art itself but also the artist's life as well as the work's place in their wider oeuvre. In other words, what makes it great. From Hilma af Klint's occult altarpieces to Claude Monet's Water Lilies, Botticelli's The Birth of Venus to Georgia O'Keeffe's Jimson Weed, each artwork is explored with clarity and passion.
