economy complements a fledgling democracy Others argue that the two are inherently incompatible and that exposure to economic globalization actually jeopardizes new democracies Which view is correct Bumba Mukherjee argues that the reality of how democracy and trade policy unravel in developing countries is more nuanced than either account Mukherjee offers the first comprehensive cross national framework for identifying the specific economic conditions that influence trade policy in developing countries Laying out the causes of variation in trade policy in four developing or recently developed countries Brazil India Indonesia and South Africa he argues persuasively that changing political interactions among parties party leaders and the labor market are often key to trade policy outcome For instance if workers are in a position to benefit from opening up to trade party leaders in turn support trade reforms by decreasing tariffs and other trade barriers At a time when discussions about the stability of new democracies are at the forefront Democracy and Trade Policy in Developing Countries provides invaluable insight into the conditions needed for a democracy to survive in the developing world in the context of globalization

Policy Matters Jose Antonio Ocampo, Jomo Kwame Sundaram, Sarbuland Khan, 2007-03 In 2000 UN member states pledged to halve world poverty by 2015 among other Millennium Development Goals MDG s But progress has been elusive since The chapters in this volume address disparate problems in achieving the UN Development Agenda from the complex effects of trade and financial liberalisation to the realities of development aid itself a central pillar of the MDGs The unifying theme is one of economic and social integration and an emphasis on long term strategic investments in education health and infrastructure
