Eighth Air Force Story In World War II:

The US Eighth Air Force in World War II William J. Daugherty, 2024-04-15 When America entered World War II in 1941 it was first left to the Army Air Forces to take the fight to Germany. In January 1942 the US Eighth Air Force was created and ordered to England even though it was without men, equipment or airplanes. This is the story of Brigadier General Ira C. Eaker's two years with VIII Bomber Command and later as commander of the Eighth as he worked to grow it into a force capable of striking German targets from above twenty thousand feet. Initially promised one hundred airplanes and the men to fly them, he soon discovered his bombers were often diverted to the North Africa and Pacific theaters. Along the way Eaker faced other critical issues including atrocious weather, heavy casualties and the absence of escort fighters. Meanwhile the head of the Army Air Forces, General Hap Arnold, clashed with and criticized Eaker for not flying more missions with more airplanes. Ultimately as the air war unfolded, the war of words behind the scenes continued until the generals reached a point of irreconcilable differences and Arnold relieved Eaker of command. In spite of this, the Mighty Eighth Air Force continued to pummel the Germans. Not once, not even in the two absolute worst air battles of the war, the Schweinfurt missions of 1943, each of which cost one of every four bombers and six hundred plus men for each mission, did the Eighth ever turn back before reaching their target. Not until after the first two years was there a fighter that could escort the heavy bombers, the B-17s and B-24s, even partway into Germany, much less to targets near the Vienna border and return. The story of the first two years of the Mighty Eighth Air Force in many senses presents an even stronger case for heroism, dedication and simple self-sacrifice than that depicting events in the final seventeen months. *Eighth Air Force Story ... in World War II* Kenn C. United States Air Force and Its Antecedents James T. Controvich, Martin Gordon, 2004-06-24 This bibliography lists published and printed unit histories for the United States Air Force and Its Antecedents including Air Divisions, Wings, Groups, Squadrons, Aviation Engineers and the Women's Army Corps. [The Story of World War II](#) Henry Steele Commager, Donald L. Miller, 2010-05-11 Drawing on previously unpublished eyewitness accounts, prizewinning historian Donald L. Miller has written what critics are calling one of the most powerful accounts of warfare ever published. Here are the horror and heroism of World War II in the words of the men who fought it, the journalists who covered it and the civilians who were caught in its fury. Miller gives us an up-close, deeply personal view of a war that was more savagely fought and whose outcome was in greater doubt than readers might imagine. This is the war that Americans at the home front would have read about had they had access to the previously censored testimony of the soldiers on which Miller builds his gripping narrative. Miller covers the entire war on land, at sea and in the air and provides new coverage of the brutal island fighting in the Pacific, the bomber war over Europe, the liberation of the death camps and the contributions of African Americans and other minorities. He concludes with a suspenseful, never-before-told story of the atomic bombing of Nagasaki based on interviews with the men who flew the mission that ended the war. *The Boys in the*

flak bursts and collisions that resulted in horrifying explosions and were sent on strafing runs that made them targets in a lethal shooting gallery. Downed airmen encountered both unexpected kindness and cruel deprivation as prisoners of war. Through interviews and official records, Jim Gregory tells the stories of heroic Central Coast veterans who fought a war that stretched from New Guinea to North Africa. Strategic Bombing by the United States in World War II Stewart Halsey Ross, 2015-10-03. The United States relied heavily on bombing to defeat the Germans and the Japanese in World War II, and air raids were touted as precision bombing in American propaganda. But was precision possible over cloud-covered Europe or a darkened Japanese countryside? Could the vaunted Norden optical bombsight in fact drop bombs into pickle barrels as advertised? Were the American aircrews well trained and well protected? How good were their airplanes? What were the results of the costly raids? This work sets suppositions against facts surrounding the United States' use of strategic bombing in World War II. Chapters cover the events leading up to World War II, the start of the war, the seers and the planners, the airplanes, bombs, bombsights, and aircrews; the planes Germany used to defend itself against American planes; the five cities: Hamburg, Dresden, Tokyo, Hiroshima, and Nagasaki that experienced the most destruction; and the U.S. Strategic Bombing Survey of the damage done by aerial bombing. The book also probes the government's myth-building statements that supported America's view of itself as a uniquely humanitarian nation and analyzes the role played by interservice rivalry, battleship admirals, and bomber generals. World War II Arroyo Grande Jim Gregory, 2016. On December 7, 1941, war came to Arroyo Grande when two local sailors were killed on the USS Arizona at Pearl Harbor. People from the small town were thrust into great circumstances and quickly answered the call for action. A local storekeeper's son won the Silver Star after he brought his flaming B-17 safely back to base. A valley farmworker served with the famed 442nd Regimental Combat Team, largely composed of soldiers of Japanese descent. Chinese guerrillas commanded by Mao Zedong, the future Chairman Mao, threw a birthday party for an Arroyo Grande soldier. At home, community groups like the Arroyo Grande Women's Club brought packed lunches for their Japanese American neighbors. On the morning they were forced to leave for the internment camps, local author Jim Gregory brings to life the sorrows and triumphs of a dramatic period in local history. **Life of the Soldier and the Airman**, 1948 **American Warplanes of WWII**, **Ideas, concepts, doctrine** Robert Frank Futrell, 1980.
