A. Radice, 1985      **The Economic History of Eastern Europe, 1919-1975**, 1982      The Economic History of Eastern Europe, 1919-1975: Institutional change within a planned economy, 1985      Institutional Change Within a Planned Economy Michael Charles Kaser, 1986 This third volume presents the process of economic change in the same countries The main emphasis of the book is on institutions on the changes in economic mechanism and their consequences for the position of the household      **An Economic History of Twentieth-Century Europe** Ivan T. Berend, 2016-09-22 This new edition of Ivan T. Berend's leading overview of economic regimes and economic performance from the start of the twentieth century to the present is fully updated to incorporate recent events including the causes and impacts of the 2008 financial economic crisis Praised for its clear prose and uncluttered analytical style as well as its use of illustrative case studies this is an integrated comparative account of European economic development from the evolution of capitalism to the fascist and communist regimes and their collapse and Europe's current economic problems The book examines both successes and failures in responding to the challenges of this crisis ridden but highly successful age It introduces the main factors behind economic growth and the various economic regimes that were invented and trialled It also shows how the vast disparity which had existed between the European regions started gradually decreasing as a result of increased integration      THE ECONOMIC HISTORY OF EASTERN EUROPE 1919-1975 Michael Charles KASER, 1986      **The Economic History of Eastern Europe, 1919-1975** Michael Charles Kaser, Edward Albert Radice, 1986      **Helsinki 1975 and the Transformation of Europe** Oliver Bange, Gottfried Niedhart, 2008-07-01 It was in Europe that the Cold War reached a decisive turning point in the 1960s leading to the era of détente The Conference on Security and Cooperation in Europe CSCE with its Final Act in Helsinki in August 1975 led to a rapprochement between East and West in the fields of security economy and culture This volume offers a pilot study in what the authors perceive as the key issues within this process an understanding over the German problem balancing the recognition of the post war territorial status quo against a formula for the eventuality of a peaceful change of frontiers and the Western strategy of transformation through a multiplication of contacts between the two blocs Both of these arguments emerged from the findings of an international research project on Détente and CSCE in Europe 1966 1975 funded by the Volkswagen Stiftung and headed by the two editors      A Social and Economic History of Twentieth-century Europe Gerold Ambrosius, William H.
