Transition Economies after 2008 Martin Myant, Jan Drahekoupil, 2014-04-07 The economic crisis of 2008 starting from the crisis in banking in the USA in 2008 affected economic and political development in varied ways around the world This edited volume covers the impact and policy responses in Eastern Europe and Russia Taken as a whole the economies of the former state socialist countries frequently still referred to for convenience as transition economies were hit hard by the crisis suffering falls in GDP in 2009 that were deeper than the

average around the world However there was considerable variety in the effects on individual countries with a few continuing to grow while some others suffered quite exceptional falls in output Policy responses were also quite diverse and do not obviously fit with the nature and severity of economic factors The more general impacts on political life were also varied In many cases very much the same governments continued in power while in others there were significant changes and signs of a growing instability in party and political structures The articles in this book explore these differences between countries and to set them in a wider international context This book was published as a special issue of *Europe Asia Studies*

The Role of Innovation and Entrepreneurship in Economic Growth Michael J Andrews, Aaron Chatterji, Josh Lerner, Scott Stern, 2022-03-17 This volume presents studies from experts in twelve industries providing insights into the future role of innovation and entrepreneurship in driving economic growth across sectors We live in an era in which innovation and entrepreneurship seem ubiquitous particularly in regions like Silicon Valley Boston and the Research Triangle Park But many metrics of economic growth such as productivity growth and business dynamism have been at best modest in recent years The resolution of this apparent paradox is dramatic heterogeneity across sectors with some industries seeing robust innovation and entrepreneurship and others seeing stagnation By construction the impact of innovation and entrepreneurship on overall economic performance is the cumulative impact of their effects on individual sectors Understanding the potential for growth in the aggregate economy depends therefore on understanding the sector by sector potential for growth This insight motivates the twelve studies of different sectors that are presented in this volume Each study identifies specific productivity improvements enabled by innovation and entrepreneurship for example as a result of new production technologies increased competition or new organizational forms These twelve studies along with three synthetic chapters provide new insights on the sectoral patterns and concentration of the contributions of innovation and entrepreneurship to economic growth

The Europa Lectures, 2002-2014 Martin Holland, Serena Kelly, 2017-11-01 Commencing in 2001 the Europa Lecture has become a high profile fixture on the EU New Zealand calendar As witnessed by the fifteen lectures reproduced in this new volume the

speakers were selected for both their high level profile as well as their importance to this bilateral dialogue This volume includes speeches from three Prime Ministers a President four European Commissioners as well as four Foreign Ministers both European and New Zealanders Each lecture naturally reflects the important issues of their day and cumulatively they produced a unique record of how EU New Zealand relations have evolved matured and continued to converge since the start of the new millennium The earlier lectures reflect a general optimism in the European integration project perhaps best highlighted by the historic enlargement of 1st May 2004 However with the onset of the global financial crisis and then subsequent Eurozone debt crisis the anticipated trajectory towards a supranational ever closer union was interrupted and the EU found itself confronting a period of both internal and external criticism and anxiety It was in these less than auspicious times that significant effort towards enhancing New Zealand s bilateral relations with the EU gained momentum These initiatives are expected to bear fruit in 2016 with the signing of a Partnership Agreement on Relations and Cooperation and BREXIT notwithstanding a fully fledged EU NZ Free Trade Agreement before 2020 This collection of lectures ends just as the rise in Euroscepticism became evident and the first serious murmurings of BREXIT could be detected within British politics The impact the UK s decision will have on EU New Zealand relations remains uncertain although as the introductory chapter to this volume suggests since 2015 New Zealand s media have seemingly begun to conflate coverage of the EU as being tantamount to BREXIT If this trend does come to dominate the New Zealand media landscape then Kiwi perceptions towards Europe run a risk of becoming unbalanced and a Back to the Future perspective reflecting the difficulties of the 1970s may again come shape perceptions
