Wherry, 2011-07-25 Symbolic resources affect social cultural and economic development The value of being Made in America or Made in Italy for example depends not only on the material advantages each place offers but also on the symbolic resources embedded in those places of production Drawing on case studies that range from the vineyards of South Africa and the textiles of Thailand to the Mundo Maya in Latin America and tourist destinations in Tuscany this volume examines the various forms that cultural wealth takes the processes involved in its construction and the ways it is deployed Leading scholars from a range of disciplinary backgrounds examine how symbolic resources and cultural understandings help firms and regions develop Through a thoughtful analysis of current day cases as well as historical developments The Cultural Wealth of Nations offers an exciting new alternative to standard economic explanations about the wealth and poverty of nations **The Informal Economy in Global Perspective** Abel Polese, Colin C. The accession of Croatia to the EU marked the end of a long and arduous period of transition Croatia had to meet significantly higher criteria than previous states with suspicion and concerns among existing members about further enlargement increasing Meanwhile initially strong public support in Croatia declined as inconsistencies in EU policy entry criteria and problems caused by the economic crisis all combined with fears about the loss of national identity and the ability to realize national interests The successful Croatian accession to the EU in 2013 shows that despite concerns on both sides the EU continues to have meaning and significance and that membership remains highly desirable Through nine mutually interrelated chapters the contributors speak not only about the political and social situation in Croatia but also prospects for the European Union itself **Croatia Business Law Handbook Volume 1 Strategic Information and Basic Laws** IBP
