Economic Crisis Civil Society And Democratization:

Economic Crisis, Civil Society, and Democratization Julius Omozuanvbo Ihonvbere,1996 The transition from an authoritarian to an egalitarian form of government is a major paradigm shift for any society When the forces of opposition remain major players however the transition is bound to be tumultuous In this the first major book on post UNIP Zambia the author chronicles the transition to democracy in Zambia and in doing so sheds light on the challenges for democratisation in post Cold War Africa

Civil Society and Democratization in the Arab World Francesco Cavatorta,Vincent Durac,2010-10-04 The transition paradigm has traditionally viewed civil society activism as an essential condition for the establishment of democracy The democracy promotion strategies of Western policy makers have therefore been based on strengthening civil society in authoritarian settings in order to support the development of social capital to challenge undemocratic regimes This book questions the validity of the link between an active associational life and democratization It examines civil society in the Arab world in order to illustrate how authoritarian constraints structure civil society dynamics in the region in ways that hinder transition to democracy Building on innovative theoretical work and drawing on empirical data from extensive fieldwork in the region this study demonstrates how the activism of civil society in five different Arab countries strengthens rather than weakens authoritarian practices and rule Through an analysis of the specific legal and political constraints on associational life and the impact of these on relations between different civic groups and between associations and state authorities the book demonstrates that the claim that civil society plays a positive role in processes of democratic transformation is highly questionable Offering a broad and alternative vision of the state of civil society in the region this book will be an important contribution to studies on Middle Eastern politics democratization and civil society activism

Middle Class, Civil Society and Democracy in Asia Hsin-Huang Michael Hsiao,2018-07-18 This book offers a timely analysis of the tripartite links between the middle class civil society and democratic experiences in Northeast and Southeast Asia It aims to go beyond the two popular theoretical propositions in current democratic theory which emphasise the bilateral connections between the middle class and democracy on one hand and civil society and democracy on the other Instead using national case studies this volume attempts to provide a new comparative typological interpretation of the triple relationship in Taiwan South Korea the Philippines Indonesia and Thailand Presenting a careful analysis and delineation of historical democratic transformation over the past thirty years three discernible typologies emerge Namely there are positive links in Taiwan and South Korea dubious links in the Philippines and Indonesia and negative links in Thailand Middle Class Civil Society and Democracy in Asia will be of interest to students and scholars of Asian politics and democracy

Political Mobilizations and Democratization in Sub-Saharan Africa

Wolfgang Stuppert,2019-06-14 This book explores why democratization processes in Sub Saharan Africa have made so little progress despite more than two decades of multi party politics on the subcontinent By applying multiple linear regression analyses to a new data set on multi party elections in Sub Saharan Africa the study investigates the relationship between political mobilizations and electoral competitiveness It finds that the more societal groups engage in political mobilizations such as protests and strikes the more competitive elections become Based on these results the author argues for a change in the policies of international democracy assistance programs The study s findings suggest that efforts to promote democracy would likely be more successful if international donors focused their support on organizations that have active constituencies and are willing to use their mobilization capacity to address ruling elites with political or socio economic grievances

Consolidation of Democracy in Africa Hussein Solomon,Ian Liebenberg,2017-11-22 This title was first published in 2000 The continent of Africa is undergoing great change While on the one hand there is talk of a re awakening of Africa or Renaissance various countries in Africa are still plagued by poverty intra and interstate violence In some countries the legacy of neo colonialism and under development contributed to social strife and the potential criminalization of the State This book addresses the topic of democratization and sustainable democracy in Africa against this background *Reconstructing the*

Third Wave of Democracy Rita Kiki Edozie,2009 Since the 1990s trends in African politics require the realization that the public policy practice and the theoretical analysis of democracy and democratization are becoming increasingly important tenets for understanding the contemporary political science of the region Reconstructing the Third Wave of Democracy explains these new political processes and ideas Author Rita Kiki Edozie identifies factors that Africans have encountered since the foundation of the modern African state and presents a critical analysis of African politics through the lenses of post colonial discourse by uniquely employing the ideas of democratic theory to guide an analysis of the Continent s democratic development and performance Edozie presents an intra regional comparative analysis of democratic politics in Africa in ways that few books on the same subject do for the continent Her methodology for examining democracy in Africa reveals the dynamism of several country cases and several more regime experiences with democracy encountered from the post World War II period to the current post Cold War period
