### **Toward a New Mission**

**Statement for Canadian Fiscal Federalism** Harvey Lazar, 2000 Canada State of the Federation 1999 2000 identifies and explains major threads in Canadian fiscal federalism Set against the cacophony over domineering and arrogant centralization from supporters of Quebec sovereignty session on the one hand and fears that excessive decentralization is fuelling an obsessively neo liberal agenda on the other these essays replace much of this heat with new light The authors begin with an examination of recent developments in the theoretical literature surrounding fiscal federalism They then examine some of the major issues facing the federation Is there a vertical imbalance between federal and provincial governments Does Ottawa collect more revenues than are needed relative to its spending responsibilities while the provinces are under funded How do federal provincial struggles over money and jurisdictional power affect local government or the para public sector emerging aboriginal governments and citizens Federal government actions in 1999 suggest that Ottawa has not lost all of its interest in social outcomes It is however seeking to influence the well being of citizens by transferring money to them directly rather than through transfers to provinces The authors suggest that if this trend continues the approach to the millennium will be seen as a watershed in public policy given that current trends in Canadian fiscal federalism are as much about re balancing the federation as they are about decentralization

*Impact Assessment and Sustainable Development* Clive George, Colin H. Kirkpatrick, 2007-01-01 Impact assessment of various types is now a widely used policy tool. This volume helpfully brings together conceptual discussions and case studies to illustrate how impact assessment can be used to address issues of sustainability. It should be of considerable interest both to academic researchers and to practitioners concerned with the implementation of policies to support sustainable development. John Weiss, University of Bradford, UK. The translation of the principle of sustainable development into policy and practice and the evaluation of the outcomes of these strategic interventions are some of the most pressing challenges facing policymakers in Europe and beyond. By exploring the conceptual and methodological issues relating to the evaluation of sustainable development and analysing European practice and experience the sixteen chapters in this volume provide a coherent and integrated contribution to our understanding of these issues. This volume will be of interest to researchers, policy analysts and practitioners in the area of impact assessment and sustainable development.

*Capitalism Creates Disparity* Amelia Scott, AI, 2025-02-26 Capitalism Creates Disparity argues that wealth inequality is not just an unfortunate side effect but a built-in feature of capitalist systems. The book dives into how capital accumulation, market structures, and government policies all contribute to this growing problem. Did you know that returns on capital often outpace wage growth, widening the gap between those who own assets and those who primarily rely on their labor? Or that monopolies can further concentrate wealth by extracting excessive profits? The book explores these dynamics across three parts. It begins by defining key concepts like the Gini coefficient, then examines how capital accumulation, market power, and policy choices concentrate wealth. Finally, the text proposes potential policy solutions drawing from different countries and historical periods. It uses data from sources like the World Bank and OECD alongside case studies to illustrate wealth concentration and provide an accessible yet rigorous analysis of the economic forces shaping wealth distribution.
