Economic Thought In Spain:

Early Economic Thought in Spain, 1177-1740 Marjorie Grice-Hutchinson, 1978-01-01 **Economic Thought in Spain** Marjorie Grice-Hutchinson, 1993 This study examines the important contribution that Spanish economic writers have made over the centuries *Early Economic Thought in Spain, 1177-1740 (Routledge Revivals)* Marjorie Grice-Hutchinson, 2012-06-14 The growth of serious interest during the last fifty years in the scholastic contribution to the development of economic thought has been very marked and no where more so than in the history of economic thought in Spain This book begins in the Middle Ages and traces the effect on business practice and on thought of the presence of the Christian Islamic and Jewish communities who lived side by side in the Peninsula It shows how the economics of Plato and Aristotle were transmitted by way of Toledo to the Latin West In the second half of the book the author considers Salamanican ideas and the views of the political economists and projectors who preceded the Enlightenment At the same time she surveys the present state of the subject and offers bibliographical guidance for the reader **Early Economic Thought in Spain, 1170-1740** Marjorie Grice-Hutchinson, 1978 **English Economic Thought in Spain, 1776-1848** Robert Sidney Smith, 1968* *Studies in the History of Latin American Economic Thought* Oreste Popescu, 1997 This is the first study of the development of economic thought in Latin America It traces the development of economic ideas during five centuries and across the whole continent It addresses a wide range of approaches to economic issues including the scholastic tradition in Latin American economies the quantity theory of money cameralism human capital theory Divine Providence in Early Modern Economic Thought Joost Hengstmengel, 2019-05-21 In this important volume Joost Hengstmengel examines the doctrine of divine providence and how it served as explanation and justification in economic debates in the sixteenth seventeenth and eighteenth centuries throughout Western Europe The author discusses five different areas in which God was associated with the economy international trade division of labour value and price self interest and poverty and inequality Ultimately it is shown that theological ideas continued to influence economic thought beyond the Medieval period and that the science of economics as we know it today has theological origins Interdisciplinary in nature this book will be of interest to advanced students and researchers in the history of economic thought the history of theology philosophy and intellectual history An Austrian Perspective on the History of Economic Thought Murray Newton Rothbard, **Evolving economic thought in Spain** Elsa Ann Gonzalez, 1994 Adam Smith and The Wealth of Nations in Spain Jesús Astigarraga, Juan Zabalza, 2021-12-19 Adam Smith's *An Inquiry into the Nature and Causes of the Wealth of Nations* was the product of the rich tradition of the Scottish Enlightenment but the book's fame immediately spread across the whole of Europe This book looks at the long journey of Smith's ideas from Scotland to peninsular Spain reconstructing in detail the reception adaptation interpretation and application of Smith's central concepts from 1777 up to 1840 In light of methodological advances during the last two decades in the history of economic thought and the studies on the late Spanish Enlightenment and early

Liberalism the book tackles a series of significant issues and gaps in the historiography In particular this book sheds new light on the role of France as an intermediate step as the ideas spread from Britain southwards the analysis draws not just on translations but also handwritten materials book reviews syntheses summaries plagiarism and rebuttals a wide range of methods of dissemination are considered including the printing press and periodicals parliamentary debates academic chairs and societies the role of individual translators and agents is given due prominence the political interpretations of the Wealth of Nations and the ways in which the book was incorporated into the work of Spanish economists in the decades following publication are also considered This book marks a significant contribution to the literature on the reception of Smith's Wealth of Nations studies of the Spanish Enlightenment and history of economic thought more broadly

Ancient and Medieval Economic Ideas and Concepts of Social Justice S. Todd Lowry, Barry Lewis John Gordon, 1998 13 scholars contribute to this survey of past discussions of the workings of economic structures and of justice in interpersonal relations cultural institutions and the social order They investigate the sources in each historic period from the world of the Old Testament and the ancient Greeks through to Spanish scholasticism and its offshoots in the Spanish Americas of the 18th century and relate the ideas of writers from the past to modern discussions

The Theory of Crisis and the Great Recession in Spain Juan Pablo Mateo Tomé, 2019-11-08 This book has a dual purpose First it analyses the concept of economic crises within economic theory showing the various theoretical foundations and controversies amongst different schools of economic thought Second it presents an empirical analysis of the Great Recession in Spain addressing the growth period of 1995 to 2007 08 the subsequent depression until 2013 14 and the recovery that followed It also shows the way in which the inner contradictions of capital manifests itself in an European peripheral economy under a real estate bubble emphasizing the role of the Spanish economy in European capitalism This theoretical and empirical heterodox approach will be of interest to students and scholars in political economy and those with an interest in the Eurozone

A History of American Economic Thought Samuel Barbour, James Cicarelli, J. E. King, 2017-10-04 This vital addition to the Routledge History of Economic Thought series surveys arguably the most important country in the development of economics as we know it today the United States of America A History of American Economic Thought is a comprehensive study of American economics as it has evolved over time with several singularly unique features including a thorough examination of the economics of American aboriginals prior to 1492 a detailed discussion of American economics as it has developed during the last fifty years and a generous dose of non mainstream American economics under the rubrics Other Voices and Crosscurrents It is far from being a native American community and numerous social reformers and those with alternative points of view are given as much weight as the established figures who dominate the mainstream of the profession Generous doses of American economic history are presented where appropriate to give context to the story of American economics as it proceeds through the ages from seventeenth century pre independence into the twentieth first century packed full of influential figures including John Bates

Clark Thorstein Veblen Irving Fisher Paul Samuelson and John Kenneth Galbraith to name but a few This volume has something for everyone interested in the history of economic thought the nexus of American economic thought and American economic history the fusion of American economics and philosophy and the history of science

The Light and Shade of Italian Economic Thought in Spain (1750-1850) Jesús Astigarraga, 2001

Economic Thought and History Monika Poettinger, Gianfranco Tusset, 2016-02-12

Economic Thought and History looks at the relationship between facts and thought in historical economic research viewing it in the context of periods of economic crisis and providing detailed analyses of methods used in determining the bond between economic history and economic theory This interdisciplinary collection brings together international researchers in the history of economic thought and economic history in order to confront varying approaches to the study of economic facts and ideas rethinking boundaries methodologies and the object of their disciplines The chapters explore the relationship between economic thought and economic theory from a variety of perspectives exploring the relationship between history and economics and the boundaries defining the history of economic thought in terms of both single authors and schools of thought The book offers particular insights on the Italian tradition of thought The uniquely interdisciplinary and analytical approach presented here bridges the methodological gap between these disciplines unearthing a fertile common ground of research This book is intended for Postgraduate students conducting further research into the field or for professors and academics of economic history and history of economic thought

The Mediterranean Tradition in Economic Thought Louis Baeck, 2012-08-21

The Mediterranean Tradition in Economic Thought surveys the legacy of thinking on economic affairs from the countries in the Mediterranean basin over four millennia It considers the economic content of the scriptures of the Mesopotamian civilisations Pharaonic Egypt and the Biblical peoples and the contributions of the Greeks and Romans and their influence on Islamic civilisation and on the Medieval scholastics The flowering of the school of Salamanca as recently as the seventeenth century demonstrates how long lived the tradition was and throughout Baeck demonstrates how these ideas continue to survive and resurface citing the renewed interest in the ethical dimension of economics the revival of interest in the history of Islamic thought and the re emergence of Slavophile doctrines in contemporary Russian

Justice in the Marketplace in Early Modern Spain Michael Thomas D'Emic, 2014-06-17

Justice in the Marketplace in Early Modern Spain examines two late scholastic economic treatises the Provechoso tratado de cambios of Cristóbal de Villalón 1542 and the Instrucción de mercaderes of Saravia de la Calle 1544 It does this in the context of the two principal questions that economic historians pose concerning the economic literature of the Spanish late scholastics in general Is there a clear link between this literature and modern economic science and does it manifest a free market orientation Michael D'Emic draws two conclusions First there is a palpable relationship between the work of these two authors and modern economic analysis particularly that of financial economics Second the authors fundamentally disagreed on most questions mostly concerning the justice of the free market Villalón condemns the workings of the market

and refuses to allow any possibility that the profit motive may be morally neutral With considerable clarity he articulates a cost of production theory of value and advocates a system of prices based upon labor and cost and administered by civil authority Saravia counters with an elegant expression of the utility theory of value and argues with logical force that prices established by the workings of the market are fundamentally just He allows considerable moral latitude to the pursuit of profit which he regards as spiritually dangerous but not necessarily evil Through the lens of their opposing views on economic value the market price and what does or does not constitute the sin of usury the authors with astonishing technical acumen observe analyze and pass moral judgment on a remarkably wide range of complex transactions most of which have counterparts in twenty first century financial markets In the process they tackle problems that still bedevil economists and accountants in our own day such as the difference between a sale and a borrowing the just value of future income flows and the presence of asymmetrical information in pricing The result is a vivid record of the color and texture of early modern economic life that reveals a surprising degree of financial sophistication that the present book makes accessible to the modern reader

The Growth of Economic Thought Henry William Spiegel,1991 In a new and updated edition of this classic textbook Henry William Spiegel brings his discussion and analysis of economic thought into the 1990s A new introductory chapter offering an overall view of the history of economics and a bibliographic survey of the economic literature of the 1980s and early 1990s have been added Maintaining the link between economics and the humanities Spiegel s text will continue to introduce students to a wide range of topics in the history of economic thought From reviews of previous editions The history of economic thought to end all histories of economic thought Robert D Patton Journal of Economic Literature The book is in the grand tradition of the history of doctrines It is a history of economic thought broadly conceived and superbly written to boot It is not too much to say that Spiegel s book will become and remain a leading text in the field Warren J Samuels Social Science The author conveys the essence of an idea simply and clearly yet in a graceful style William F Kennedy Journal of Economic Literature

The Economic Thought of Friedrich List Harald Hagemann,Stephan Seiter,Eugen Wendler,2018-11-08 As the world grapples with increased globalization and technological change Friedrich List s work appears more relevant than ever before His theory of productive powers and his argument for protecting infant industries give us a valuable way of looking at innovation systems winners and losers in international trade and the current shift towards economic and political nationalism Comprising fifteen specially commissioned chapters from a range of international scholars this book explores many aspects of List s economic thought including industrial development political economy the economics of education infrastructure and catching up processes in Asian economies This volume will be illuminating reading for advanced students and researchers in the history of economic thought economic history economic policy and international trade

Spain, Europe, and the 'Spanish Miracle', 1700-1900 David R. Ringrose,1998-11-26 A challenging re examination of Spanish history questioning orthodoxies about Spain s economy and society

FAQs About Economic Thought In Spain Books

What is a Economic Thought In Spain PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Economic Thought In Spain PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Economic Thought In Spain PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Economic Thought In Spain PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Economic Thought In Spain PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
