III Sarah Stockwell, 2017-03-02 Few aspects of the history of modern empires are of such significance as their economics and politics. These factors are inextricably linked in many analyses, have generated extensive historiographical debate and are currently the subject of some of the freshest and liveliest scholarship. The articles and chapters which are brought together in this volume relate not only to the European colonial empires but also to the Napoleonic, Russian and Japanese empires. The collection is strongly comparative in approach, with the articles arranged into thematic sections on the place of politics and economics in the rise and fall of modern empires, the causal relationship between modern empires and colonial, global and metropolitan economic transformations and the technologies of rule which provided the frameworks through which colonial economies were managed and rights defined. The collection reflects new approaches as well as the continuing importance of issues addressed in an older historiography, and the thematic arrangement produces useful juxtapositions of older and newer literatures. The substantial introduction explores the themes and identifies key historiographical trends in relation to each

The Tentacles of Progress Daniel R. Headrick, 1988-03-10 This penetrating examination of a paradox of colonial rule shows how the massive transfers of technology including equipment, techniques and experts from the European imperial powers to their colonies in Asia and Africa resulted not in industrialization but in underdevelopment. Examining the most important technologies: shipping and railways, telegraphs and wireless, urban water supply and sewage disposal, economic botany and plantation agriculture, irrigation and mining and metallurgy, Headrick provides a new perspective on colonial economic history and reopens the debate on the roots of Asian and African underdevelopment. *Imperialism and Economic Development in Sub-Saharan Africa* Simon Mollan, 2020-09-09 This book examines the economic and business history of Sudan, placing Sudan into the wider context of the impact of imperialism on economic development in sub-Saharan Africa. From the 1870s onwards, British interests in Sudan began to intensify as a consequence of the opening of the Suez Canal in 1869 and the overseas expansion of British business activities associated with the Scramble for Africa and the renewal of imperial impulses in the second half of the nineteenth century. Mollan shows the gradual economic embrace of imperialism in the years before 1899, the impact of imperialism on the economic development of colonial Sudan to 1956 and then the post-colonial economic legacy of imperialism into the 1970s. This text highlights how state-centred economic activity was developed in cooperation with British international business. Founded on an economic model that was debt-driven, capital-intensive and cash-crop oriented, the colonial economy of Sudan was centred on cotton growing. This model locked Sudan into a particular developmental path that in turn contributed to the nature and timing of decolonization and the consequent structures of dependency in the post-colonial era. Economic Relationships among States Evan Luard, 1984-06-18

British Foreign Policy since 1870 Will Podmore, 2008-10-13 This book surveys Britain's foreign policy since 1870. Conventional accounts stress the rulers' benevolent rhetoric. I present the evidence that refutes this superficial liberal view. Britain's economy is the key to understanding its foreign policy; capitalism causes a conflict-ridden foreign policy. The rulers

focus has been on seizing profits from abroad for which they have sacrificed the welfare of the British people British governments Conservative Liberal and Labour alike have represented the tiny minority who own the means of production and have opposed the great majority who have to work for a living The ruling class's external focus has also damaged relations with other countries and helped to produce the two recurring types of war wars between rival empires and wars against national liberation

Imperialism in the Modern World William Bowman, Frank Chiteji, J. Megan Greene, 2016-11-03 Imperialism in the Modern World combines narrative primary and secondary sources and visual documents to examine global relations in the nineteenth and twentieth centuries The three co editors Professors Bowman Chiteji and Greene have taught for many years global history classes in a variety of institutions They wrote Imperialism in the Modern World to solve the

problem of allowing teachers to combine primary and secondary texts easily and systematically to follow major themes in global history some readers use primary materials exclusively Some focus on secondary arguments This book is more focused than other readers on the markets for those teachers who are offering more specialized world history courses one important trend in global history is away from simply trying to cover everything to teaching real connections in more chronologically and thematically focused courses The reader also provides a genuine diversity of global perspectives and invites students to study seriously world history from a critical framework Too many readers offer a smorgasbord approach to world history that leaves students dazed and confused This reader avoids that approach and will therefore solve many problems that teachers have in constructing and teaching world history courses at the introductory or upper division levels The reader will allow show students how to read historical documents through a hands on demonstration in the introduction The book also incorporates images as visual documents Finally the book conceives of global history in the widest possible terms it contains pieces on political diplomatic economic and military history to be sure but it also has selections on technology medicine women the environment social changes and cultural patterns Other readers can not match this text s breadth because they are chronologically and thematically so extended Managing the Business of Empire Peter Burroughs,A.J.
