Second Image IPE Andreas Nölke, 2023-07-17

This book argues that the lack of adequate theories of contemporary capitalism is due to the increasing separation of the sub disciplines of Comparative and International Political Economy Theorizing only takes place in one of the two over specialized sub disciplines of Political Economy thereby leading to a neglect of the interplay between national and international dimensions of capitalism The author seeks to rectify this gap by developing a theory of Second Image IPE Based on the second image notion developed by Kenneth Waltz he furthers the classical theoretical approaches as developed by Peter Gourevitch and Peter Katzenstein For this purpose he incorporates recent analytical developments in Comparative Capitalism and Growth

Model analysis The book demonstrates the usefulness of Second Image IPE theory by studying the major empirical topics of Global Political Economy including security finance regional integration trade production and global order **Political Standards** Karthik Ramanna,2015-11-09 Prudent verifiable and timely corporate accounting is a bedrock of our modern capitalist system In recent years however the rules that govern corporate accounting have been subtly changed in ways that compromise these core principles to the detriment of the economy at large These changes have been driven by the private agendas of certain corporate special interests aided selectively and sometimes unwittingly by arguments from business academia With Political Standards Karthik Ramanna develops the notion of thin political markets to describe a key problem facing technical rule making in corporate accounting and beyond When standard setting boards attempt to regulate the accounting practices of corporations they must draw on a small pool of qualified experts but those experts almost always have strong commercial interests in the outcome Meanwhile standard setting rarely enjoys much attention from the general public This absence of accountability Ramanna argues allows corporate managers to game the system In the profit maximization framework of modern capitalism the only practicable solution is to reframe managerial norms when participating in thin political markets Political Standards will be an essential resource for understanding how the rules of the game are set whom they inevitably favor and how the process can be changed for a better capitalism **Travelling with the Argonauts** Małgorzata Irek,2018-06-11 Drawing on rich ethnographic materials from longitudinal fieldwork on informal trading routes across Europe Travelling with the Argonauts offers a new perspective in the research of the social space reflecting on how best to investigate amorphous social phenomena such as informal networks Breaking with much current theory the approach detailed here the Restricted Verticality Perspective examines the horizontal dimension of social relations and understands informality not as marginal or substandard but as life itself as the real experience of ordinary people

Science and Global Challenges of the 21st Century - Innovations and Technologies in Interdisciplinary Applications Ekaterina Isaeva,Álvaro Rocha,2023-05-25 This book comprises proceedings of the 2022 International Forum Science and Global Challenges of the XXI Century The main principle of the Forum s program is interdisciplinarity the formation of end to end innovation chains fundamental and applied research technology development implementation and wide application of networks and systems In 2022 the central theme of the forum is innovations and technologies in interdisciplinary applications The book covers a wide range of knowledge communication methodologies and effective technologies for processing data in various forms and areas The book might interest researchers working at the interface of disciplines such as e learning digital humanities computational linguistics cognitive studies GIS digital geography machine learning and others It can also be a valuable source of information for Bachelor and Master students with open curricula or majors and minors who seek to find a balance between several fields of their interest *The Role of the State and Accounting Transparency* Mohammad Nurunnabi,2016-03-17 Dr Mohammad Nurunnabi examines the factors that affect the implementation of International

Financial Reporting Standards IFRS in developing countries and answers these specific research questions What is the relative impact of accounting regulatory frameworks and politico institutional factors on the implementation of IFRS in developing countries How do cultural factors affect said implementation How does a study of implementing IFRS help to build an understanding of a theory of the role of the state in accounting change in developing countries This follows a mixed methodology approach in which interviews are conducted IFRS related enforcement documents and annual reports are evaluated More than 138 countries have adopted IFRS yet the International Accounting Standards Board IASB does not provide an implementation index Financial reporting varies by country even within the area of the world that has apparently adopted IFRS and Nurunnabi offers an important viewpoint that considers the issues of IFRS implementation from various perspectives This is an invaluable resource for Undergraduate Masters and PhD students policy makers at local regional and international level namely the IASB World Bank IMF practitioners and users giving them the necessary insight into the financial reporting environment and the state s attitude towards accounting transparency Most importantly this book contributes to military and democratic political regimes and the Max Weberian view of the theory of the role of the state s attitude towards accounting transparency *The Politics of Accounting Regulation* Sebastian Botzem,2012-01-01 How and why do transnational regulatory bodies emerge How do they acquire the authority and confidence to be actors in their own right These questions preoccupy scholars in many disciplines and Sebastian Botzem s *The Politics of Accounting Regulation* makes an important contribution to the debates Focusing on the case of the International Accounting Standards Board over a critical period of its development including the financial crisis Botzem addresses its evolution as an organization which produces accounting standards and whose efforts to be outside politics are inevitably and irredeemably political in nature This book is essential reading for sociologists political scientists accountants and anyone else interested in the organization of global governance Michael Power London School of Economics UK The financial crisis underlines the relevance of accounting standards as much more than instrumental rules for corporate reporting This important book outlines the accounting standards that embody societal and professional values and contribute to the distribution of financial benefits that put international harmonization of standards into the limelight Sebastian Botzem reveals that international standards have emerged after decades of contest and political bargaining which resulted in closely aligned standards voluntary consultation procedures and a network structure comprising actors mainly stemming from global auditing firms regulators and international organizations **Perspectives on Ecological Degradation and Technological Progress** Yilanci, Veli,2023-07-24 In economics researchers have stated that there is a limit to growth because natural resources are finite However with technological developments and the discovery of new natural resource reserves the limits on growth and development have begun to disappear New technologies promoting energy efficiency provide growth opportunity in new directions and the development of technologies have a positive effect on the environment *Perspectives on Ecological*

Degradation and Technological Progress explores the economic and social impacts of technological progress on environmental degradation from a multidisciplinary perspective Other factors that may affect environmental degradation are analyzed and indicators that may be important for the environment are determined Covering topics such as economic growth ecological degradation and environmental violations this premier reference source is an excellent resource for economists ecologists government officials sociologists environmental engineers and innovators students and educators of higher education librarians researchers and academicians
