**Economics and the Law** Nicholas Mercuro, Steven G. Medema, 2006-08-20 Publisher Description

**Book Review, Nicholas Mercuro & Steven G. Medema, Economics and the Law** James Ming Chen, 2014 It is no longer credible to speak of a single law and economics movement Rather there are multiple schools of thought each applying economic analysis of law in a distinct way and none commanding widespread acceptance Chaos would seem the natural result of any attempt to marry economics a value laden discipline beset by critics who decry the immorality of the dismal science with law a profession as methodologically incoherent as it is intellectually promiscuous A literature of staggering size and dazzling diversity thus confronts anyone who tries to survey law and economics from Posner to post modernism In *Economics and the Law* Nicholas Mercuro and Steven G Medema acknowledge the Herculean nature of their task by confining themselves to a concise overview of this field Mercuro and Medema nevertheless promise more than they can deliver With each blow at the many headed Hydra that economic analysis of law has become the authors leave marginally useful abstraction and significantly offsetting confusion in their wake

Markovits, 2020-05-30 This book examines the

principal publications that founded the school were Veblen's *The Theory of the Leisure Class* and Commons's *A Sociological View of Sovereignty* both published in 1899. As a tribute to these two seminal works, Warren Samuels has assembled an exceptionally prestigious international group of scholars to produce this landmark volume celebrating the centenary. The chapters assess the work of Veblen and Commons and their influence on the school of institutional economics from a variety of theoretical perspectives. The contributions on Veblen appraise his anthropological analysis of consumption habits of American households from sociological, linguistic and feminist points of view. Conversely, the essays on Commons's work focus on the concepts of property, power and the relationship between legality and economics.

The Neoliberal Regime in the Agri-Food Sector Steven A. Wolf, Alessandro Bonanno, 2013-12-04. For the last three decades the Neoliberal regime emphasising economic growth through deregulation, market integration, expansion of the private sector and contraction of the welfare state has shaped production and consumption processes in agriculture and food. These institutional arrangements emerged from and advanced academic and popular beliefs about the virtues of private market based coordination relative to public state based problem solving. This book presents an informed constructive dialogue around the thesis that the Neoliberal mode of governance has reached some institutional and material limits. Is Neoliberalism exhausted? How should we understand crisis applied to Neoliberalism? What are the opportunities and risks linked to the construction of alternatives? The book advances a critical evaluation of the evidence supporting claims of rupture of or incursions into the Neoliberal model. It also analyzes pragmatic responses to these critiques including policy initiatives, social mobilization and experimentation at various scales and points of entry. The book surveys and synthesizes a range of sociological frames designed to grapple with the concepts of regimes, systemic crisis and transitions. Contributions include historical analysis, comparative analysis and case studies of food and agriculture from around the globe. These highlight particular aspects of crisis and responses including the potential for continued resilience, a neo-productivist return as well as the emergence and scaling up of alternative models.
