Economics At The Wheel The Costs Of Cars And Drivers:

Economics at the Wheel Richard C. Porter, 1999-06-09 Talks about cars and driving and the various problems that cars and drivers create for America This book explains actual government policy intended to reduce the damage cars and drivers do to us and it explains why these government policies are almost all failures because they attack the wrong problem or attack it in the wrong way Journal of Urban Economics ,1999 **Journal of Economic Theory** Karl Shell, Jess Benhabib, 2000 **The Economic Geography of the Car Market** Bartłomiej Kołsut, Tadeusz Strykiewicz, 2022-09-26 This book provides a comprehensive analysis of long term changes in the car market of an emerging economy with a focus on its spatial and temporal dimensions Poland the case study in question represents a unique laboratory of automobile revolution during the late 20th and early 21st centuries The volume brings to the fore several key aspects of the car market such as car ownership markets for new cars import of second hand cars car use electromobility and environmental impact Many of them are the subject of a global debate in the context of achieving sustainable development goals Others meanwhile point to the unique nature of transformations related to the car market in Poland Altogether consideration of these aspects enriches the international literature with new results and findings that will broaden the field of discussion on the car market onto the emerging economies especially those of Central and Eastern Europe The book combines the results of quantitative and qualitative research The former is based on a big data set ca 40 million vehicles and the latter on an in depth social survey questionnaire interviews with more than 4 000 drivers The discussion of the geography of automobile revolution is linked to other social economic and spatial phenomena and processes e g urban sprawl or rural marginalisation consumer decisions and the evolution of quality of life and the development of individual entrepreneurship or environmental protection as well as to transport tax and customs policies The analysis of the dynamics of change pays particular attention to the role of critical junctures such as the collapse of the communist system EU membership the world financial crisis 2007 2009 and first period of COVID 19 pandemic 2020 2021 The book will be of interest to scholars students and practitioners dealing with transport research geography of transportation spatial economy urban and regional planning and sustainability studies and for car hobbyists *Fuel Economy Standards for New Passenger Cars After 1985* Sally A.
