## **Economics Of The Labor Managed Enterprises:**

**The Economics of Labor-managed Enterprises** Norman J. Ireland, Peter J. Law, 1982 *The Economics of Labour-managed Enterprises* Norman J. Ireland, Peter J. Law, 1982 Textbook giving theoretical economic analysis of workers cooperatives and enterprises under workers control uses econometric models to examine membership capital formation the effects of wages and prices efficiency the implications of a monopoly position and reactions to market uncertainties includes exercises and answers Graphs and references

**The General Theory of Labor-managed Market Economies** Jaroslav Vanek, 1970 Monograph presenting an economic theory in support of a new economic system based on workers self management workers participation covers the equilibrium of a competitive enterprise and changing market conditions the decentralization of decision making labour supply functions economic policy problems income sharing wages and wage incentive the allocation of economic resources legal aspects and basic institutional forms of the labour managed economy etc Diagrams and references

**The Economics of Labor-managed Enterprises** Soumyendranath Sikdar, 1984 *Economics of Cooperation and the Labour-Managed Economy* J. Bonin, L. Putterman, 2013-09-27 Discusses the theory of labour managed firms or producers cooperatives and of economies companies principally of such firms

*Advances in the Economic Analysis of Participatory and Labor-Managed Firms* Alex Bryson, 2012-09-25 With the financial crisis and Great Recession some economists have begun to question the orthodox approach to production and capital labor relations over the years This orthodoxy thrown into question due to concerns of poor corporate decision making corporate capture of regulators perceived rewards for failure and uneven productivity growth

**The Dialectics of Liberty** Chris Matthew Sciabarra, Edward W. Younkins, Roger E. Bissell, 2019-06-04 This collection of essays explores the ways in which the defense of liberty can be bolstered by use of a dialectical method that is a mode of analysis devoted to grasping the full context of philosophical cultural and social factors requisite to the sustenance of human freedom Its strength lies in the variety of disciplines and perspectives represented by contributors who apply explicitly dialectical tools to a classical liberal libertarian analysis of social and cultural issues In its conjoining of a dialectical method typically associated with the socialist left to a defense of individual liberty typically associated with the libertarian right this anthology challenges contemporary attitudes on both ends of the political spectrum Though this conjunction of dialectics and liberty has been explored before in several works including a trilogy of books written by one of our coeditors Chris Matthew Sciabarra this volume will be the first one of its kind to bring together accomplished scholars in political science economics philosophy aesthetics psychology law history education and rhetoric

**The Effects of Democratic Determination of Wages** Milan Vodopivec, 1992 Should workers participate in decisionmaking about pay Democratic decisionmaking about pay if divorced from substantive participation of workers in other areas decreases productivity

**Democracy and Efficiency in the Economic Enterprise** Ugo Pagano, Bob Rowthorn, 2002-03-11 The collapse of central planning was hailed as evidence of the economic and moral

superiority of capitalism over any possible alternative The essays in this book challenge that claim The case for more democratic forms of enterprise management is considered from a variety of viewpoints One chapter deals with the philosophical justification for enterprise democracy The remaining chapters are devoted to the question of efficiency which has been central to economic debates about ownership and control The orthodox belief amongst economists is that any shift to more democratic forms of enterprise control would be unworkable The essays in this book provide a thorough theoretical and empirical critique of this orthodoxy

**Labour Participatory Economy** S. Mahalingam,1993 Research Handbook on Sustainable Co-operative Enterprise Tim Mazzarol,Sophie Reboud,Elena Mamouni Limnios,Delwyn Clark,2014-02-28 Co-operatives are found in all industry sectors and almost all countries around the world However despite their significant economic and social contributions the academic literature has largely ignored these important businesses This book is a detailed

Comparative Economic Systems Richard L. Carson,1990 First Published in 2017 Routledge is an imprint of Taylor Francis an Informa company

**Firms' Objectives and Internal Organisation in a Global Economy** L. Lambertini,2009-10-09 The interplay between firms internal organization and market behaviour is a long standing issue in industrial economics This book examines firms objectives in the comparatively new perspective shaped by globalization The positive and normative aspects of theoretical analysis are developed and richly complemented by empirical studies

**Markets and Democracy** Samuel Bowles,Herbert Gintis,Bo Gustafsson,1993-07-22 This book asks whether a modern efficient economy can be rendered democratically accountable and if so what strategic changes might be required to regulate the market based interaction of economic agents The contributors bring contemporary microeconomic theory to bear in an attempt to find a progressive replacement to traditional state socialism Various approaches to the study of economic interaction are considered in an attempt to understand the relationship between power and efficiency in market economies

*Institutions and Economic Theory* Eirik Grundtvig Furubotn,Rudolf Richter,2000 A comprehensive introduction to and critical assessment of the theory and applications of the New Institutional Economics

Firms` Strategic Decisions Theoretical and Empirical Findings Kazuhiro Ohnishi,2016-05-05 This is the second volume of the book series featuring empirical research conducted on business decision making policies of oligopolistic organizations This volume brings together 11 chapters that cover economic and mathematical models to illustrate strategic decision making among different organizations Topics covered in this volume include the theory of firm behavior the Bertrand model of an incumbent and a potential industrial entrant strategic interactions in vertically related industries financial losses of enterprises caused by breaks of information security systems and the association of certain funding choices with efficiency in small medium enterprises Thus the volume encompasses a fresh collection of works on firm behavior and industrial economics

Producer Cooperatives as a New Mode of Production Bruno Jossa,2014-02-05 The notion that there is no alternative to capitalism emerged after the fall of the Berlin Wall and made rapid headway due to increasing economic globalisation More recently this belief that there is no

viable alternative has held firm despite the financial crisis high unemployment levels and an ever increasing gap between rich and poor However since the appearance of Benjamin Ward s seminal 1958 article economic theorists have been developing a workable alternative a system of self managed firms The core argument outlined in this book is that a well organised system of producer cooperatives would give rise to a new mode of production and ultimately a genuinely socialist society This argument is developed through three key steps First following on from Jaroslav Vanek s definition it is argued that a Labour Managed Firm a firm which strictly segregates capital incomes from labour incomes would implement a new production mode because it would reverse the pre existing relation between capital and labour Second given that a system of these Labour Managed Firm cooperatives would reverse the capital labour relationship it is suggested that this would constitute a form of market socialism Third it is argued that compared to capitalism a system of producer cooperatives offers a wealth of advantages including the potential for efficiency gains the eradication of unemployment and the end of exploitation Ultimately this book concludes that self management could take the place of central planning in Marxist visions for the future

**Enterprise Forms and Economic Efficiency** Kazuhiko Mikami, 2011-07-01 The book conducts a comparative study on the form of enterprise focusing on broadly defined cooperative firms in comparison with conventional capitalist firms It explores the essential advantages and disadvantages of the different types of firms and attempts to answer why capitalist firms are so prevalent in our economy The book attempts to explain these questions from the viewpoint of market failure in the framework of standard microeconomic theory In this analytical framework it proposes an alternative system of business organization based upon consumer cooperatives and the market for their memberships which can coexist consistently with the system of capitalist firms and the stock market within a single market economy The existing studies of the cooperative sector have been rather ideological The analytical framework that is presented in this book helps promote scientific exploration of cooperative and other types of firms which are indispensable and potentially promising constituents of our society
