Economics 101 And Other Thoughts:

Economics 101 and Other Thoughts Tom Donelson, 2002-11 It is easy to see that Tom Donelson loves to learn His chief interests are political science and economics But he also delves into biography boxing and rock n roll Sometimes he mixes what he gleans from different disciplines to support certain central ideas Freedom is good Free markets are good People can prosper if government stays out of their way So here it is as Donelson says a synopsis of his thoughts some of which have been offered in publications ranging from an alternative paper in Kansas City to daily newspapers including The Gazette of Cedar Rapids and Iowa City for which I work on the opinion page to the National Review As he observes it is self evident that he is a conservative But he provides plenty of evidence to back taking that point of view Kurt Rogahn Cedar Rapid Gazette

Women's Economic Thought in the Romantic Age Joanna Rostek, 2021-01-21 This book examines the writings of seven English women economists from the period 1735-1811 It reveals that contrary to what standard accounts of the history of economic thought suggest eighteenth and early nineteenth century women intellectuals were undertaking incisive and gender sensitive analyses of the economy

Women's Economic Thought in the Romantic Age argues that established notions of what constitutes economic enquiry topics and genres of writing have for centuries marginalised the perspectives and experiences of women and obscured the knowledge they recorded in novels memoirs or pamphlets This has led to an underrepresentation of women in the canon of economic theory Using insights from literary studies cultural studies gender studies and feminist economics the book develops a transdisciplinary methodology that redresses this imbalance and problematises the distinction between literary

and economic texts In its in depth readings of selected writings by Sarah Chapone Mary Wollstonecraft Mary Hays Mary Robinson Priscilla Wakefield Mary Ann Radcliffe and Jane Austen this book uncovers the originality and topicality of their insights on the economics of marriage women and paid work and moral economics Combining historical analysis with conceptual revision *Women s Economic Thought in the Romantic Age* retrieves women s overlooked intellectual contributions and radically breaks down the barriers between literature and economics It will be of interest to researchers and students from across the humanities and social sciences in particular the history of economic thought English literary and cultural studies gender studies economics eighteenth century and Romantic studies social history and the history of ideas
