Economics Of Marx's Grundrisse An Annotated Summary:

The Economics of Marx's Grundrisse Adalbert G. Lallier,1989-09-01 This summary represents an attempt to analyze Marx's propositions concerning the economic subject matter in Grundrisse. Special emphasis is given to his seminal ideas concerning scope and method, the terms Arbeitskraft and Mehrwert, and the issue of equal or unequal exchange.

The Economics of Marx's Grundrisse Adalbert Lallier,1989

The Growth of Economic Thought Henry William Spiegel,1991 In a new and updated edition of this classic textbook, Henry William Spiegel brings his discussion and analysis of economic thought into the 1990s. A new introductory chapter offering an overall view of the history of economics and a bibliographic survey of the economic literature of the 1980s and early 1990s have been added. Maintaining the link between economics and the humanities, Spiegel's text will continue to introduce students to a wide range of topics in the history of economic thought. From reviews of previous editions: The history of economic thought to end all histories of economic thought. Robert D. Patton, Journal of Economic Literature. The book is in the grand tradition of the history of doctrines. It is a history of economic thought broadly conceived and superbly written to boot. It is not too much to say that Spiegel's book will become and remain a leading text in the field. Warren J. Samuels, Social Science. The author conveys the essence of an idea simply and clearly yet in a graceful style. William F. Kennedy, Journal of Economic Literature.

Handbook on the History of Economic Analysis Volume I Gilbert Faccarello, Heinz D. Kurz,2016-07-27 Volume I contains original biographical profiles of many of the most important and influential economists from the seventeenth century to the present day. These inform the reader about their lives, works, and impact on the further development of the discipline. The emphasis is on their lasting contributions to our understanding of the complex system known as the economy. The entries also shed light on the means and ways in which the functioning of this system can be improved and its dysfunction reduced.

An Analysis of Karl Marx's Capital Macat Team,2017-07-05 A critical analysis of Karl Marx's Capital, which is without question one of the most influential books to be published in the course of the past two centuries. Controversial in its politics and arriving at conclusions that are passionately debated to this day, it is nonetheless a fine example of the creative combination of a philosophical method, the dialectic, with historical and economic information to produce a new interpretation of history. Capitalism, thought Marx works by exploiting the working class. Their wages do not reflect the value of their labor. Marx concluded that capitalism would fail because of this contradiction at the heart of the capitalist system. He wrote Capital to give activists the theories and language they needed to criticize the system. But the work also outlines the new communist society that Marx hoped would rise in its place and it helped to inspire the rise of states that largely shaped the modern history of our planet. Today, after a century of conflict, Marx's analysis still offers valuable tools that help us analyze the modern world. Marx's belief that he had arrived at a scientific way of describing the present and predicting the future may not be shared by many of his modern interpreters. But his ability to connect things together in new ways is not in doubt, and

nor is the influence of the new hypotheses that he generated as a result of so much careful analysis *Innovation, Evolution and Economic Change* Blandine Laperche, James K. Galbraith, Dimitri Uzunidis, 2006-01-01 John Kenneth Galbraith was an eminent economist and proponent of change The contributors to the book further his analysis on the evolution of capitalism taking into account changes to the general economic climate since the publication of J K Galbraith's main thesis they outline new ideas which form fertile ground for new research The book begins with a penetrating analysis of the main features of today's capitalism and in particular the conflict between shareholders and managers It moves on to focus on the consequences of globalization in the decision making processes of large corporations and represents an important step in the development of a theory of fraud and corruption within corporations In the final part the authors address and explore the consequences of the domination of influential groups over major social and political decisions on the blurred boundaries between the public and the private sectors and its consequences in the fields of technological regulation and the evolution of public services In so doing the authors question the meaning and power of democracy in today's society *Innovation Evolution and Economic Change* will appeal to a wide readership and audience of economists policy makers and political organization

Karl Marx's Economics John Cunningham Wood, 1993 **Journal of Economic Literature**, 1990 *Essays in Economic Analysis* Association of University Teachers of Economics, 1976-06-10 UK Collection of conference papers on economic analysis discusses such subjects as macroeconomics trade and the balance of payments and employs utility functions economic models econometrics etc Diagrams graphs references and statistical tables Conference held in Sheffield 1975 apr *Handbook on the History of Economic Analysis Volume II* Gilbert Faccarello, Heinz D. Kurz, 2016-07-27 This unique troika of Handbooks provides indispensable coverage of the history of economic analysis Edited by two of the foremost academics in the field the volumes gather together insightful and original contributions from scholars across the world The encyclopaedic breadth and scope of the original entries will make these Handbooks an invaluable source of knowledge for all serious students and scholars of the history of economic thought *Marx and Social Justice* George E. McCarthy, 2017-11-01 In *Marx and Social Justice* George E McCarthy presents a detailed and comprehensive overview of the ethical political and economic foundations of Marx's theory of social justice in his early and later writings What is distinctive about Marx's theory is that he rejects the views of justice in liberalism and reform socialism based on legal rights and fair distribution by balancing ancient Greek philosophy with nineteenth century political economy Relying on Aristotle's definition of social justice grounded in ethics and politics virtue and democracy Marx applies it to a broader range of issues including workers control and creativity producer associations human rights and human needs fairness and reciprocity in exchange wealth distribution political emancipation economic and ecological crises and economic democracy Each chapter in the book represents a different aspect of social justice Unlike Locke and Hegel Marx is able to integrate natural law and natural rights as he constructs a classical vision of self government of the people by the people **Critical Discourse Analysis** G.

Weiss,R. Wodak,2007-10-18 Can discourse analysis techniques adequately deal with complex social phenomena What does interdisciplinarity mean for theory building and the practise of empirical research This original volume debates critical theory and discourse analysis focussing on the extent to which CDA can draw on a range of disciplines in the social sciences

Paul Samuelson on the History of Economic Analysis Paul Anthony Samuelson,2015 This collection of writings by Paul Samuelson illustrates the depth and breadth of his contribution to the history of economics *The Uncertainty of Analysis*

Timothy J. Reiss,2018-10-18 The Uncertainty of Analysis pursues key issues raised in the author s earlier Discourse of Modernism a ground breaking work which focused attention on the nature of discourse and the ways in which one culturally dominant discursive class may be replaced by another In this timely and provocative collection of his essays Timothy J Reiss shows how efforts to reconfirm the force and power of modernist analytico referential discourse in the late nineteenth and the twentieth centuries have actually brought to the fore internal contradictions have made clear the problematic nature of the dominant discourse and have precipitated the emergence of competing discourses Reiss considers the explorations in foundational logic by Frege and Peirce examinations of language and its relations to mind by Saussure Greimas and Chomsky work in linguistic and scientific epistemology by Wittgenstein and Heisenberg and the attempts to analyze the nature of society by Sartre and other Western Marxists Reiss turns to some practitioners of literary criticism and theory who have sought to escape past constraints and he points to what appear to be erroneous routes away from the dilemmas raised by these philosophers and critics

Development of Economic Analysis Ingrid H. Rima,2009-01-13 Now in its seventh edition Ingrid Rima s classic textbook charts the development of the discipline from the classical age of Plato and Aristotle through the middle ages to the first flowering of economics as a distinct discipline the age of Petty Quesnay and Smith to the era of classical economics and the marginalist revolution The book then goes on to offer extensive coverage of the twentieth century the rise of Keynesianism econometrics the Chicago School and the neoclassical paradigm The concluding chapters analyze the birth of late twentieth century developments such as game theory experimental economics and competing schools of economic thought This text includes a number of practical features a family tree at the beginning of each section illustrating how the different developments within economics are interlinked the inclusion of readings from the original key texts a summary and questions to discuss along with glossaries and suggestions for further reading This book provides the clearest most readable guide to economic thought that exists and encourages students to examine the relevance of the discipline s history to contemporary theory *Time and the Macroeconomic Analysis of Income* Alvaro Cencini,2013-11-07

Time and the Macroeconomic Analysis of Income will undoubtedly puzzle stimulate infuriate or annoy many readers Alvaro Cencini challenges so many of the commonly held notions which are perpetuated in elementary textbooks and taken for granted in learned journals that a first reaction is bound to be that the author must be naive or ignorant this is far from the case the questions that Cencini raises are original and searching His answers are even more intriguing for economists and

interested readers **Marx and the Meaning of Capitalism** S. Bober,2016-04-30 An introductory and analytical look into the essence of Marxian economics that begins the process of divorcing Marxian economics from Stalinism [The Formation of the Economic Thought of Karl Marx](#) Ernest Mandel,2016-09-06 A clear and compact guide to Marx's road to Das Kapital Ernest Mandel traces the development of Marx's economic ideas from the Economic and Philosophical Manuscripts to the completion of the Grundrisse In a series of crystalline chapters he provides an overview of subjects central to Marxist economic theory Mandel focuses on Marx's concept of alienation which gained much currency among Marxists in the twentieth century and traces the development of debates surrounding the labour theory of value and Marx's writings on communism and crisis These discussions remain pertinent today and these texts vital to all those who wish to interpret and to change the world **Marx's Critique of Political Economy Volume One** Allen Oakley,2013-11-05 Volume One analyses the intellectual sources and evolution of Marx's critique of political economy leading up to the writing of the main Capital manuscripts 1844-1860 The volume Provides a clear illustration of the contents of the texts in a way that enables readers to understand the intellectual influences on Marx Clarifies Marx's own view of what he was trying to achieve through his critique of political economy The themes of value income distribution and the law of motion of capitalism are traced to their origins **Marx's Concept of Money** Anitra Nelson,2012-11-12 This work relates Marx's theory of money to his overall political economy and places it firmly within the wider context of his political and philosophical thought It has for some time been held that there exists an epistemological break between the early humanist and later scientific Marx However in this ground breaking study Anitra Nelson links Marx's concept of money to his early key concepts with particular reference to alienation
