A World Without Email Cal Newport,2021-03-02 A New York Times and Wall Street Journal bestseller From New York Times bestselling author Cal Newport comes a bold vision for liberating workers from the tyranny of the inbox and unleashing a new era of productivity Modern knowledge workers communicate constantly Their days are defined by a relentless barrage of incoming messages and back and forth digital conversations a state of constant anxious chatter in which nobody can disconnect and so nobody has the cognitive bandwidth to perform substantive work There was a time when tools like email felt cutting edge but a thorough review of current evidence reveals that the hyperactive hive mind workflow they helped create has become a productivity disaster reducing profitability and perhaps even slowing overall economic growth Equally worrisome it makes us miserable Humans are simply not wired for constant digital communication We have become so used to an inbox driven workday that it s hard to imagine alternatives But they do exist Drawing on years of investigative reporting author and computer science professor Cal Newport makes the case that our current approach to work is broken then lays out a series of principles and concrete instructions for fixing it In *A World without Email* he argues for a workplace in which clear processes not haphazard messaging define how tasks are identified

assigned and reviewed Each person works on fewer things but does them better and aggressive investment in support reduces the ever increasing burden of administrative tasks Above all else important communication is streamlined and inboxes and chat channels are no longer central to how work unfolds The knowledge sector s evolution beyond the hyperactive hive mind is inevitable The question is not whether a world without email is coming it is but whether you ll be ahead of this trend If you re a CEO seeking a competitive edge an entrepreneur convinced your productivity could be higher or an employee exhausted by your inbox *A World Without Email* will convince you that the time has come for bold changes and will walk you through exactly how to make them happen **Leading Good Schools to Greatness** Susan P.

Akbari, 2016-12-27 A young entrepreneur and sociologist shows readers how to reach personal fulfillment using the same strategies that power Silicon Valley s greatest startups As an entrepreneur Anna Akbari learned that one of the best things about startups is their ability to pivot quickly basically a euphemism for failing and starting over And she quickly found that personal success is no different It s not just about developing and following the right process but also having a good idea And that demands rigor and daily maintenance far beyond a few positive affirmations Like any Silicon Valley startup the business of life is not as glamorous as its Instagram account would make it seem What do you do when planning is not an option When control is out of your reach You isolate the small stuff experiment constantly and use the results to lay a more sustainable foundation for the future You validate your idealized vision by testing it out in bite sized increments You see what sticks integrate and move forward And inevitably you experience a series of failures along the way but those failures are key to your next success Living a start up life is about maximizing flexibility and measuring on going results not avoiding failure or reaching one particular end goal It s about embracing defeat analyzing it and failing up In *Startup Your Life* Akbari shows that after all it s often the stumbles that pave the way for real happiness *Saltwater Leadership* Robert Wray, 2013-03-15
