Efraín Ríos Montt: Servant Or Dictator? The Real Story Of Guatemala's Controversial:

Efraín Ríos Montt, Servant Or Dictator? Joseph Anfuso, 1984 *Efraín Ríos Montt: Servant Or Dictator?* Joseph Anfuso, Pat Robertson, David Sczepanski, 1983 Terror in the Land of the Holy Spirit Virginia Garrard-Burnett, 2010-01-15

Between 1982 and 1983 the military government of Guatemala waged a scorched earth campaign of terror against largely Mayan rural communities Drawing on newly available primary sources including guerrilla documents evangelical pamphlets speech transcripts and declassified US government records Virginia Garrard Burnett provides a fine grained picture of what happened during the rule of Guatemalan president by coup Efraín Ríos Montt She suggests that three decades of war engendered an ideology of violence that cut not only vertically but also horizontally across class cultures communities religions and even families Violence and Crime in Latin America Gema Santamaría, David Carey, 2017-02-21 According to media reports Latin America is one of the most violent regions in the world a distinction it held throughout the twentieth century The authors of *Violence and Crime in Latin America* contend that perceptions and representations of violence and crime directly impact such behaviors creating profound consequences for the political and social fabric of Latin American nations Written by distinguished scholars of Latin American history sociology anthropology and political science the essays in this volume range from Mexico and Argentina to Colombia and Brazil in the twentieth and twenty first centuries addressing such issues as extralegal violence in Mexico the myth of indigenous criminality in Guatemala and governments selective blindness to violent crime in Brazil and Jamaica The authors in this collection examine not only the social construction and political visibility of violence and crime in Latin America but the justifications for them as well Analytically and historically these essays show how Latin American citizens have sanctioned criminal and violent practices and incorporated them into social relations everyday practices and institutional settings At the same time the authors explore the power struggles that inform distinctions between illegitimate versus legitimate violence *Violence and Crime in Latin America* makes a substantive contribution to understanding a key problem facing Latin America today In its historical depth and ethnographic reach this original and thought provoking volume enhances our understanding of crime and violence throughout the Western Hemisphere Poverty and Inequality in the Latin American-U.S. Borderlands Keith Michael Kilty, Elizabeth A. Segal, 2004 Examines the implications of economic social political or military US interventions on four of its Latin American bordering countries Covers the Guatemalan counterinsurgent State Mexico's Progreso programme for poverty reduction US military presence in Puerto Rico survival strategies of Cuban mothers and emerging rural poverty as a result of programmes for environmental protection and economic aid near the Mexican Dolomito Biosphere Reserve **To Bring the Good News to All Nations** Lauren Frances Turek, 2020-05-15 When American evangelicals flocked to Latin America Africa Asia and Eastern Europe in the late twentieth century to fulfill their Biblical mandate for global evangelism their experiences abroad led them to engage more deeply in foreign policy activism at home Lauren Frances Turek tracks these trends and illuminates the

complex and significant ways in which religion shaped America's role in the late Cold War world. In *To Bring the Good News to All Nations* she examines the growth and influence of Christian foreign policy lobbying groups in the United States beginning in the 1970s, assesses the effectiveness of Christian efforts to attain foreign aid for favored regimes and considers how those same groups promoted the imposition of economic and diplomatic sanctions on those nations that stifled evangelism. Using archival materials from both religious and government sources, *To Bring the Good News to All Nations* links the development of evangelical foreign policy lobbying to the overseas missionary agenda. Turek's case studies, Guatemala, South Africa, and the Soviet Union, reveal the extent of Christian influence on American foreign policy from the late 1970s through the 1990s. Evangelical policy work also reshaped the lives of Christians overseas and contributed to a reorientation of U.S. human rights policy. Efforts to promote global evangelism and support foreign brethren led activists to push Congress to grant aid to favored yet repressive regimes in countries such as Guatemala while imposing economic and diplomatic sanctions on nations that persecuted Christians such as the Soviet Union. This advocacy shifted the definitions and priorities of U.S. human rights policies with lasting repercussions that can be traced into the twenty-first century. *Is Latin America Turning Protestant?* David Stoll, 2023-04-28. Protestants are making phenomenal gains in Latin America. This is the first general account of the evangelical challenge to Catholic predominance with special attention to the collision with liberation theology in Central America. David Stoll reinterprets the invasion of the sects as an evangelical awakening, part of a wider religious reformation which could redefine the basis of Latin American politics. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1990. Protestants are making phenomenal gains in Latin America. This is the first general account of the evangelical challenge to Catholic predominance with special attention to the collision with liberation theology in Central America. David Stoll reinterprets

The Charismatic Movement Charles Edwin Jones, 1995. *Societies of Fear* Kees Koonings, Dirk Kruijt, 1999-08. Latin America is in the grip of a double challenge: coping with what may be the worst economic crisis since the 1930s and the huge problems of poverty and inequality this has produced while simultaneously consolidating its democratic transition, trying to recover from the traumas of many years of authoritarian rule and state terror. This superb collection of original scholarship and historical and analytical overviews examines a subject that has received too little attention: the legacy of past conflict, violence, and terror in all the most important countries of South and Central America. This volume is ideal for scholars concerned with Latin American society and politics generally and civil-military relations, peace building, and good governance in particular. *Violencia y crimen en América Latina* Gema Kloppe-Santamaría, David Carey Jr., Cecilia Menjivar, 2020-12-01. *Violencia y crimen en América Latina* ofrece un análisis original e interdisciplinario sobre las razones históricas, culturales y

políticas detrás de la actual crisis de inseguridad que afecta a la región. A partir del análisis de las representaciones y los discursos sobre la violencia este libro demuestra que ni las causas puramente económicas ni aquellas centradas en las fallas institucionales del Estado logran explicar la continuidad de la violencia y el crimen durante diferentes periodos históricos en América Latina. A través de capítulos temáticos que cubren países tan diversos como Argentina, México, Brasil, Chile y Guatemala a lo largo de los siglos XX y XXI los autores argumentan que los debates públicos, las representaciones sociales y las luchas de poder son variantes centrales para entender por qué el Estado y los ciudadanos han aceptado y reproducido prácticas ilegales y violentas en el ámbito institucional, social y de la vida cotidiana.
