**Canaanites, Chronologies, and Connections** Susan L. Cohen,2018-07-17 The beginning of the Middle Bronze Age MB IIA in Canaan ca 1950 1740 B C E set the stage for many of the cultural political and economic institutions that shaped the ancient Near East Particular theoretical models for the analysis of complex societies are used in this study to examine textual pictorial and archaeological evidence relating to the nature and organization of MB IIA Canaan The written and pictorial evidence pertaining to Egyptian Canaanite contact indicates a fluid relationship that changed over time in response to changing social political and economic developments in both cultures As a result Egyptian policy toward Canaan was multifaceted including approaches ranging from the use of military force to magical rites The analysis of MB IIA site distribution indicates that Canaanite settlement first developed in areas on the coast most conducive to agricultural growth It then progressed according to a dendritic pattern of organization along the east west wadi systems into the interior in response to a growing demand for resources and raw materials fueled in part by contact with Egypt and the international world of the eastern Mediterranean Chronological correlations between the Canaanite settlement systems and Middle Kingdom Egypt also indicate that the beginning of the MB IIA in Canaan dates well into the Middle Kingdom rather than being contemporary with its beginnings as previously understood Findings concerning the Canaanite Egyptian relationship Canaanite site distribution and chronological connections between these two regions all illustrate the development of Canaan from a society in the first stages of urbanization to a fully urbanized one setting the stage for the rise of the Hyksos to power in Egypt

**Yotvata** Lily Singer-Avitz,Etan Ayalon,2023-01-03 This book presents the final report of the excavations at Yotvata the largest oasis in the Arabah Valley conducted by the Sonia and Marco Nadler Institute of Archaeology of Tel Aviv University in 1974 1980 under the direction of Dr Ze ev Meshel The report covers two central sites a fortified Iron I site and an Early Islamic settlement The Iron I remains consist of an irregular casemate wall surrounding a courtyard The location of this site suggests that the settlement was established in order to protect the water sources and to overlook and supervise the

nearby crossroads Based on the relative proximity of the site to Timna it may be concluded that the oasis formed the main source of water and wood for the population involved in copper production in that region The rich finds uncovered at the Early Islamic settlement including a large courtyard building and a nearby bathhouse among other structures point to habitation from the end of the seventh to the early ninth century CE The proximity of the settlement to a sophisticated irrigation system qanat and the administrative economic ostraca discovered at the site suggest that it served as the center of an agricultural estate owned by an elite Muslim family Among the unique finds is a large assemblage of locally produced handmade pottery which is thoroughly studied here The findings from the excavations at the Yotvata oasis have made a major contribution to the study of Early Islamic settlement and material culture in the greater Arabah region and beyond

Manzanilla, Mitchell Rothman, 2016-05-20 The ability to accumulate and store large amounts of goods is a key feature of complex societies in ancient times Storage strategies reflect the broader economic and political organization of a society and changes in the development of control mechanisms in both administrative and non administrative often kinship based sectors This is the first volume to examine storage practices in ancient complex societies from a comparative perspective This volume includes 14 original papers by leading archaeologists from four continents which compare storage systems in three key regions with lengthy traditions of complexity the ancient Near East Mesoamerica and Andes *Storage in Ancient Complex Societies* demonstrates the importance of understanding storage for the study of cultural evolution

*Egypt and American Foreign Assistance 1952-1956* J. Alterman, 2002-10-03 From the ground up the story of missed opportunities mixed messages and mutual frustrations in American relations with Egypt at a seminal time Unprecedented in its drawing on Egyptian official sources *Hopes Dashed* sheds new light on the difficulties and challenges of a nascent relationship characterized by missed opportunities mixed messages and mutual frustrations However beneficial the intentions of those on the ground their desire for Egyptian economic development was stymied by bureaucratic obstacles both in Egypt and the United States And as Egypt became embroiled in the Cold War policy decisions increasingly were made at higher levels by officials more concerned with geopolitical and Arab Israeli issues and less how U S assistance could help the domestic political economy of Egypt Alterman compellingly shows how the interests of both countries diverged to eventually undermine an early American attempt at economic assistance

Ancient Egypt B. G. Trigger, B. J. Kemp, D. O'Connor, A. B. Lloyd, 1983-09-22 The rich and extensive floodplain of the River Nile can claim to be the cradle of one of the earliest and most spectacular civilizations of antiquity *Ancient Egypt A Social History* first published in 1983 presents an innovative perspective on the ancient societies which flourished in the Nile Valley from the Predynastic period to the conquest by Alexander the Great From the introduction of a subsistence economy through the establishment of the first agricultural communities to the development of urban centres and the political state this volume traces the process of political social and economic change The emphasis on the social and economic aspects of Egyptian
