Writing and Rewriting National Theatre Histories S.E. Wilmer, 2009-11 Historians of theatre face the same temptations and challenges as other historians they negotiate assumptions their own and those of others about national identity and national character they decide what events and actors to highlight or omit and what framework and perspective to use for telling the story Personal biases trends in scholarship and sociopolitical contexts influence all histories and theatre histories too are often revised to reflect changing times and interests This significant collection examines the problems and challenges of formulating national theatre histories The essayists included here leading theatre scholars from all over the world many of whom wrote essays specifically for this volume provide an international context for national theatre histories as well as studies of individual nations They cover a wide geographical area Asia the Middle East Africa Europe and North America The essays contrast large countries India Indonesia with small Ireland newly independent Slovenia with established U S A developed Canada with developing Mexico South Africa capitalist U S A with formerly communist Russia monolingual Sweden with multilingual Belgium Canada and countries with stable historical boundaries Sweden with those whose borders have shifted Germany The essays also explore such sociopolitical issues as the polarization of language groups the importance of religion the invisibility of ethnic minorities the redrawing of geographical borders changes in ideology and the dismantling of colonial legacies Finally they examine such common problems of history writing as types of evidence periodization canonization styles of narrative and definitions of key terms *Writing and Rewriting National Theatre Histories* will be of special interest to students and scholars of theatre cultural studies and historiography

Performance and Femininity in Eighteenth-Century German Women's Writing W. Arons, 2006-10-03 In this book Wendy Arons examines how women writers used theater and performance to investigate the problem of female subjectivity and to intervene in the dominant discourse about ideal femininity Arons shows how contemporary demands for sincerity and authenticity placed a peculiar burden on women in the public sphere especially on actresses who like professional writers overstepped the boundaries of what was considered proper behavior for women Paradoxically in their representations of ideal women engaged in performance these writers expose ideal femininity as an impossible act even as

they attempt to perform it in their writing and in their lives *Selling Textiles in the Long Eighteenth Century* J. Stobart, B. Blonde, 2014-09-16 Textiles are a key component of the industrial and consumer revolutions yet we lack a coherent picture of how the marketing of textiles varied across the long 18th century and between different regions This book provides important new insights into the ways in which changes in the supply of textiles related to shifting patterns of demand

Images of Goethe Through Schiller's Egmont David Gethin John, 1998 John argues that shifting the focus from the text to the efficacy of performance requires broadening our concept of performance beyond what occurs on stage and its critical reception to include the daily life of the society that provides its context It follows from this semiotic approach that there can be no fixed text or understanding of Egmont or of Goethe himself only multiple images John's exploration of image includes literary motifs acting staging and social role playing with particular reference to Goethe's development as an artist and cultural icon In addition to presenting a comprehensive analysis of the play and a discussion of Egmont's reception from its first appearance to the present including productions on both stage and screen John provides an in depth performance analysis based on the theories of Alter Burns Carson Fischer Lichte Goffman Pavis and Schechner The book includes the complete Mannheim manuscript M372 critically edited and published as a performance text for the first time **Deutsche**
