**Seelenarbeit an Deutschland**, 2016-08-09 The last decade has undoubtedly been the most controversial in the long literary career of Martin Walser This volume presents a review of this career going far beyond short lived arguments to present an insightful overview of much of his work It considers not only major aspects of his writing covering both his literary beginnings and the most recent works but also different previously neglected features of his persona and his writing namely his activity as a university teacher and his art criticism In addition fruitful comparisons are made with other writers such as Proust Grass and Uwe Johnson At the same time recent controversies are also considered with major attention being paid to Walser's public speeches and those works of fiction which have been seen by some as demanding the end of German self-recriminations over the Nazi past This volume is unique in that much space is devoted to both sides of the argument It will provide stimulating reading to all those interested in Germany and German literature

**Performing the Local and the Global** Jane Wilkinson, 2007 This book explores the interplay between global and local influences in theatre festivals in the German speaking border region around Lake Constance Whilst opening up a fascinating yet under researched theatre region to academic study it also provides much needed empirical grounding for often vague theories of place globalisation and culture Do we really live in a shrinking world dominated by a homogenising global culture industry or are we experiencing the revival of local particularism To what extent is an apparently place dependent cultural form such as theatre affected by the processes of cultural globalisation Through

detailed analysis of theatrical case studies from Lake Constance and the application of an interdisciplinary theoretical framework this book begins to answer such important questions The empirical focus is on the defining features of the Lake Constance region the beautiful and often romanticised natural landscape of lake and mountains and the presence of the nation state borders which make this the crossroads of the German speaking world The author thus examines both open air summer theatre festivals such as the internationally renowned Bregenzer Festspiele and politically focused cross border theatre festivals such as the youth festival TRIANGEL
