**Fur Trade Wars** J. M. Bumsted, 1999 At its height the HBC's holdings covered almost a tenth of the world's land surface stretching from the Arctic Ocean across the Prairies and the Rocky Mountains to British Columbia and Oregon When the upstart North West Company of Montreal challenged the HBC supremacy however an ongoing battle erupted which changed the course of Canadian history University of Manitoba historian J M Jack Bumsted has written a colourful in depth account of this titanic struggle Combining astute scholarship with an accessible writing style Bumsted's *Fur Trade Wars* brings to life the dramatic events and memorable characters that helped shape a nation

**The Early Northwest** Gregory P. Marchildon, 2008 This publication is the inaugural volume of the *History of the Prairie West* series Each volume in the series focuses on a particular topic and is composed of articles previously published in *Prairie Forum* and written by experts in the field The original articles are supplemented by additional photographs and other illustrative material

**Laws and Societies in the Canadian Prairie West, 1670-1940** Louis A. Knafl, Jonathan Swainger, 2011-11-01 *Laws and Societies in the Canadian Prairie West 1670-1940* examines the legal history of the north west frontier from the earliest years of European Native contact in the seventeenth century to the mid 1900s Challenging myths about a peaceful west and prairie exceptionalism the book explores the substance of prairie legal history and the degree to which the region's mentality is rooted in the historical experience of distinctive prairie peoples The chapters written by a cross section of established and emerging scholars working in the allied fields of law legal history sociology and criminology focus on what is distinctive in prairie legal culture By approaching the issue from a variety of perspectives those of colonial administrators fur company employees Native peoples women men entrepreneurs judges magistrates and the police among others the authors find evidence of a conscious effort to apply broad non regional experiences to seemingly familiar local issues The ways in which prairie peoples perceived themselves and their relationships to a wider world were directly framed by notions of law and legal remedy shaped by the course and themes of prairie history Legal history is not just about black letter law It is also deeply concerned with the ways in which people affect and are affected by the law in their daily lives By examining how central and important the law has been to individuals communities and societies in the Canadian Prairies this book makes an original contribution

**A Big History of North America** Kevin Jon Fernlund, 2022-12-16 The special relationship between the United Kingdom an established and secure power and the United States a rising one began after the War of 1812 as the former enemies sought accommodation with rather than the annihilation of one another At the same time Mexico also a rising power was not so fortunate Its relationship with Spain an established but declining power turned hostile with Spain's final exit from North America after Mexico's War of Independence leaving its former colony isolated internally unstable and vulnerable to external attack Significantly Mexico posed little threat to its northern neighbor By the third decade of the nineteenth century then the fate of North America was largely discernable Nevertheless the three century journey to get to this point had been anything but predictable The United States rise as a regional power was very much conditioned by constantly shifting transcontinental transpacific and above all transatlantic factors all of which influenced North America's three interactive cultural spheres the Indigenous the Hispano and the Anglo And while the United States profoundly shaped the history of Canada and Mexico so too did these two transcontinental countries likewise shape the course of U S history In this ground breaking work Kevin Fernlund shows us that any society's social development is directly related to its own social power and just as crucially to the protective extension or destructive intrusion of the social power of other societies

**People of the Fur Trade** Irene Ternier Gordon, 2011-11-15 The years from the fall of New France in 1763 to the amalgamation of the Hudson's Bay Company and North West Company in 1821 were marked by fierce competition in the fur trade Traders from the warring companies pushed west undertaking incredible voyages in their search for new sources of furs Irene Gordon explores the eventful lives of those who worked in the trade including Alexander Henry the Elder a trader and merchant who left a vivid written account of his experiences Net no kwa a woman of the Ottawa tribe who was so highly regarded by the traders at Michilimackinac that they saluted her with gunfire every time she arrived there and the bold and flamboyant Scotsman Colin Robertson who used glittering pomposity to impress those he dealt with From chief factors to servants independent traders to Native trappers and Metis the people of the fur trade left an indelible imprint on North American history

Métis in Canada Christopher Adams, Gregg Dahl, Ian Peach, 2013-08-14 These twelve essays constitute a groundbreaking volume of

new work prepared by leading scholars in the fields of history anthropology constitutional law political science and sociology who identify the many facets of what it means to be Métis in Canada today After the Powley decision in 2003 Métis peoples were no longer conceptually limited to the historical boundaries of the fur trade in Canada Key ideas explored in this collection include identity rights and issues of governance politics and economics The book will be of great interest to scholars in political science and Indigenous studies the legal community public administrators government policy advisors and people seeking to better understand the Métis past and present Contributors Christopher Adams Gloria Jane Bell Glen Campbell Gregg Dahl Janique Dubois Tom Flanagan Liam J Haggarty Laura Lee Kearns Darren O Toole Jeremy Patzer Ian Peach Siomonn P Pulla Kelly L Saunders      **Forging Alberta's Constitutional Framework** Richard Connors, John M. Law, University of Alberta. Centre for Constitutional Studies, 2005-11 Forging Alberta's Constitutional Framework analyzes the principal events and processes that precipitated the emergence and formation of the law and legal culture of Alberta from the foundation of the Hudson's Bay in 1670 until the eve of the centenary of the Province in 2005 The formation of Alberta's constitution and legal institutions was by no means a simple process by which English and Canadian law was imposed upon a receptive and passive population Challenges to authority latent lawlessness interaction between indigenous and settler societies periods pre and post 1905 of jurisdictional confusion and demands for individual group and provincial rights and recognitions are as much part of Alberta's legal history as the heroic and mythic images of an emergent and orderly Canadian west patrolled from the outset by red coated mounted police and peopled by peaceful and law abiding subjects of the Crown Papers focus on the development of criminal law in the Canadian west in the nineteenth century the Natural Resources Transfer Agreement of 1930 the National Energy Program of the 1980s Federal Provincial relations and the role and responsibilities of the offices of Justices of the Peace and of the Lieutenant Governor and the legacies of the Lougheed and Klein governments      A History of Law in Canada, Vol. 1 Philip Girard, Jim Phillips, R. Blake Brown, 2018-01-01 A History of Law in Canada is the first of two volumes Volume one begins at a time just prior to European contact and continues to the 1860s while volume two will start with Confederation and end at approximately 2000 The history of law includes substantive law legal institutions legal actors and legal culture The authors assume that since 1500 there have been three legal systems in Canada the Indigenous the French and the English At all times these systems have co existed and interacted with the relative power and influence of each being more or less dominant in different periods The history of law cannot be treated in isolation and this book examines law as a dynamic process shaped by and affecting other histories over the long term The law guided and was guided by economic developments was influenced and moulded by the nature and trajectory of political ideas and institutions and variously exacerbated or mediated intercultural exchange and conflict These themes are apparent in this examination and through most areas of law including land settlement and tenure and family commercial constitutional and criminal law      *Canada and the British Empire* Phillip Alfred Buckner, 2008 Canada and the

British Empire traces the history of Canada within the wider context of British imperialism Exploring themes such as migration gender imperial law and aboriginal experiences it sheds new light on the creation of Canada and the country's critical role in the evolution of the Empire

**Thomas Scott's Body** J.M. Bumsted, 2000-11-17 What did happen to the body of Thomas Scott The disposal of the body of Canadian history's most famous political victim is the starting point for historian J M Bumsted's new look at some of the most fascinating events and personalities of Manitoba's Red River Settlement To outsiders 19th century Red River seemed like a remote community precariously poised on the edge of the frontier Small and isolated though it may have been Red River society was also lively well educated multicultural and often contentious By looking at well known figures from a new perspective and by examining some of the more obscure corners of the settlement's history Bumsted challenges many of the widely held assumptions about Red River He looks for instance at the brief unhappy Swiss settlement at Red River examines the controversial reputation of politician John Christian Shultz and delves into the sensational scandal of a prominent clergyman's trial Vividly written Thomas Scott's Body pieces together a new and often surprising picture of early Manitoba and its people

**Marie-Anne** Maggie Siggins, 2009-10-13 Compulsively readable this first social history of the opening up of the Canadian West is a triumph of historical detective work and gives us Siggins at the top of her game While researching the biography of Louis Riel Maggie Siggins became aware of a figure lurking in the background who had had a profound influence on the great Canadian reformer This was his grand mother Marie Anne Lagimodiere ne Gaboury As Siggins research progressed she came to regard Marie Anne as the most exceptional Canadian woman of the nineteenth century The perils of Laura Secord and Susanna Moodie paled in comparison yet she remains largely unknown Beautiful and rebellious Marie Anne was still unmarried at twenty five unheard of in 1800s Quebec habitant society Furthermore once she did marry Jean Baptiste Lagimodiere she insisted on accompanying her fur trapper husband to the uncharted wilderness of western Canada The year was 1807 and no European woman had yet ventured west of the Great Lakes region For the next thirty years she would live among the native people or at fur trading forts from Pembina to Edmonton House leading an undoubtedly difficult life but one with freedoms unknown to women in western societies of her time Drawing from primary sources Siggins paints a vivid portrait of life in the West from survival on the plains and bison hunts to the tribal warfare triggered by the fur trade economy Through it all Marie Anne survived and thrived living to ninety six the matriarch of a large and diverse family whose descendants still live in Manitoba

**Lord Selkirk** J.M. Bumsted, 2008-11-01 Thomas Douglas the Fifth Earl of Selkirk 1770 1820 was a complex man of his times whose passions left an indelible mark on Canadian history A product of the Scottish Enlightenment and witness to the French Revolution he dedicated his fortune and energy to the vision of a new colony at the centre of North America His final legacy the Red River Settlement led to the eventual end of the dominance of the fur trade and began the demographic and social transformation of western Canada The product of three decades of research this is the definitive biography of Lord Selkirk Bumsted's

passionate prose and thoughtful analysis illuminate not only the man but also the political and economic realities of the British empire at the turn of the nineteenth century He analyzes Selkirk s position within these realities showing how his paternalistic attitudes informed his social experiments in colonization and translated into unpredictable and often tragic outcomes Bumsted also provides extensive detail on the complexities of colonization the Scottish Enlightenment Scottish peerage the fur trade the Red River settlement and early British Canadian politics

**Pemmican Empire** George Colpitts,2015 Pemmican Empire explores the fascinating and little known environmental history of the role of pemmican bison fat in the opening of the British American West

**The Company** Stephen Bown,2020-10-27 NATIONAL BESTSELLER A thrilling new telling of the story of modern Canada s origins The story of the Hudson s Bay Company dramatic and adventurous and complex is the story of modern Canada s creation And yet it hasn t been told in a book for over thirty years and never in such depth and vivid detail as in Stephen R Bown s exciting new telling The Company started out small in 1670 trading practical manufactured goods for furs with the Indigenous inhabitants of inland subarctic Canada Controlled by a handful of English aristocrats it expanded into a powerful political force that ruled the lives of many thousands of people from the lowlands south and west of Hudson Bay to the tundra the great plains the Rocky Mountains and the Pacific northwest It transformed the culture and economy of many Indigenous groups and ended up as the most important political and economic force in northern and western North America When the Company was faced with competition from French traders in the 1780s the result was a bloody corporate battle the coming of Governor George Simpson one of the greatest villains in Canadian history and the Company assuming political control and ruthless dominance By the time its monopoly was rescinded after two hundred years the Hudson s Bay Company had reworked the entire northern North American world Stephen R Bown has a scholar s profound knowledge and understanding of the Company s history but wears his learning lightly in a narrative as compelling and rich in well drawn characters as a page turning novel

**A Legacy of Exploitation** Susan Dianne Brophy,2022-05-15 It is unlikely that buyers of the Hudson s Bay Company s iconic multistripe point blanket these days reflect on the historically exploitative relationship between the company and Indigenous producers This critical re evaluation of the company s first planned settlement at Red River uncovers that history As a settler colonialist project par excellence the Red River Colony was designed to undercut Indigenous peoples troublesome autonomy and better control their labour Susan Dianne Brophy upends standard historical portrayals by foregrounding Indigenous peoples autonomy as a driving force of change A Legacy of Exploitation offers a comprehensive account of legal economic and geopolitical relations to show how autonomy can become distorted as complicity in processes of dispossession Ultimately this book challenges enduring yet misleading national fantasies about Canada as a nation of bold adventurers

**Manitoba History** ,2003 **Saint-Laurent, Manitoba** Nicole St-Onge,University of Regina. Canadian Plains Research Center,2004 Examines the development of Metis identity and pride through the accounts of selected families

and their descendants
