Further Fridays John Barth, 1996-05-01 Essays cover a variety of topics from postmodern fiction and chaos theory to memory imagination and the arabesque *John Barth and Postmodernism* Berndt Clavier, 2007 John Barth's eminence as a postmodernist is indisputable However much of the criticism dealing with his work is prompted by his own theories of exhaustion and subsequent replenishment leaving his writing relatively untouched by theories of postmodernism in general This book changes that by focusing on the relationship between Barth's aesthetic and the ideology critique of the historical avant gardes which were the first to mobilize art against itself and its institutional practices and demands Examining Barth's metafictional parodies in the light of theories of space and subjectivity Clavier engages the question of ideology critique in postmodernism by offering the montage as a possible model for understanding Barth's fiction In such a light postmodernism may well be perceived as a mimesis of reality particularly a recognition of the collective nature of self and the world **First Pages** Giancarlo Maiorino, 2010-11 Titology a term first coined in 1977 by literary critic Harry Levin is the field of literary studies that focuses on the significance of a title in establishing the thematic developments of the pages that follow While the term has been used in the literary community for thirty years this book presents for the first time a thoroughly developed theoretical discussion on the significance of the title as a foundation for scholarly criticism Though Maiorino acknowledges that many titles are superficial and indexical there exists a separate and more complex class of titles that do much more than simply decorate a book's spine To prove this argument Maiorino analyzes a wide range of examples from the modern era through high modernism to postmodernism with writings spanning the globe from Spain and France to Germany and America By examining works such as *Essais* *The Waste Land* *Ulysses* and *Don Quixote* *First Pages* proves the power of the title to connect the reader to the thematic cultural and literary context of the writing as a whole Much like a facade to a building the title page serves as the frontispiece of literature a sign that offers perspective and demands interpretation On Creative Writing Graeme Harper, 2010-03-24 What is Creative Writing Millions of people do it but how do we do it really What evidence of its human undertaking does Creative Writing produce How do we explore Creative Writing as both an art form and a mode of communication How do we come to understand Creative Writing creatively and critically Posing questions about the nature of Creative Writing *On Creative Writing* asks us to consider what Creative Writing actually is and in doing so encourages us to reflect on how our knowledge of Creative Writing can be increased Emphasizing Creative Writing as an act and actions *On Creative Writing* considers what lies at the core of the activity called Creative Writing **Creative Writing and the New Humanities** Paul Dawson, 2005 This polemic account provides a fresh perspective on the importance of Creative Writing to the emergence of the new humanities and makes a major contribution to current debates about the role of the writer as public intellectual *The Cervantean Heritage* J. A. Garrido Ardila, 2017-12-02 Many critics regard Cervantes's *Don Quixote* as the most influential literary book on British literature Indeed the impact on British authors was

immense as can be seen from 17th century plays by Fletcher Massinger and Beaumont through the great 18th century novels of Fielding Smollett Sterne and Lennox and on into more modern and contemporary novelists 20th century critics fascinated by Cervantes were moved to write what we now see as the classical works of Cervantes scholarship Through their previous publications the eminent contributors to this volume have helped to determine the reception of Cervantes in Britain Together they now offer a comprehensive and innovative picture of this topic discussing the English translations of Cervantes s works the literary genres which developed under his shadow and the best known authors who consciously emulated him Cervantes s influence upon British literature emerges as decidedly the deepest of any writer outside of English and very possibly of any writer since the Renaissance

The Odeon Daniel Tobin,2025-08-11 The Odeon a new volume of essays by the celebrated poet and critic Daniel Tobin takes its title from the classical Greek and Roman buildings designed for the presentation of musical and poetic compositions Organized around the question of sensibility with its various social philosophical and aesthetic connotations the collection presents a sequence of related essays exploring both resonances and dissonances in the traditions of modern and contemporary poetry Although Tobin surveys a broad spectrum of works ranging from John Donne and Emily Dickinson to writers from the twenty first century such as Mark Doty Louise Glück and Carl Phillips his emphasis remains on details of poetic practice technique metaphysical outlook and artistic aspiration What most informs these essays is Tobin s own practice as a poet his own sensibility which is at once eclectic and yet very much calibrated to matters of what one theologian termed ultimate concern The Odeon offers an incisive foray into the state of the art of poetry in our time

Talking Art Gary Alan Fine,2018-08-31 In Talking Art acclaimed ethnographer Gary Alan Fine gives us an eye opening look at the contemporary university based master s level art program Through an in depth analysis of the practice of the critique and other aspects of the curriculum Fine reveals how MFA programs have shifted the goal of creating art away from beauty and toward theory Contemporary visual art Fine argues is no longer a calling or a passion it s a discipline with an academic culture that requires its practitioners to be verbally skilled in the presentation of their intentions Talking Art offers a remarkable and disconcerting view into the crucial role that universities play in creating that culture

*The New Romanticism* Eberhard Alsen,2014-02-04 The New Romanticism is an overview of the romantic trend taken up by American novelists in the twentieth century Includes three classic essays by Saul bellow Thomas Pynchon and Toni Morrison

*A Theory of Minimalism* Marc Botha,2017-10-19 The explosion of minimalism into the worlds of visual arts music and literature in the mid to late twentieth century presents one of the most radical and decisive revolutions in aesthetic history Detested by some embraced by others minimalism s influence was immediate pervasive and lasting significantly changing the way we hear music see art and read literature In The Theory of Minimalism Marc Botha offers the first general theory of minimalism equally applicable to literature the visual arts and music He argues that minimalism establishes an aesthetic paradigm for rethinking realism in genuinely radical terms In dialogue with thinkers from both the analytic and continental traditions

including Kant Danto Agamben Badiou and Meillassoux Botha develops a constellation of concepts which together encapsulate the transhistorical and transdisciplinary reach of minimalism Illustrated by a range of historical canonical and contemporary minimalist works of different media from the caves of early Christian ascetics to Samuel Beckett's late prose Botha offers a bold and provocative argument which will equip readers with the tools to engage critically with past present and future minimalism and to recognize how in a culture caught between the poles of excess and austerity minimalism still matters

**Images of Idiocy** Martin Halliwell, 2017-03-02 This book traces the concept of idiocy as it has developed in fiction and film in the nineteenth and twentieth centuries It focuses particularly on visual images of idiocy and argues that writers as diverse as Gustave Flaubert Fyodor Dostoevsky Joseph Conrad John Steinbeck Flannery O'Connor and Rohinton Mistry and filmmakers such as Jean Renoir Akira Kurosawa Alfred Hitchcock Werner Herzog and John Huston have all been attracted to idiot figures as a way of thinking through issues of language acquisition intelligence creativity disability religion and social identity Martin Halliwell provides a lively and detailed discussion of the most significant literary and cinematic uses of idiocy arguing that scientific conceptions of the term as a classifiable medical condition are much too narrow With the explosion of interest in idiocy among American and European filmmakers in the 1990s and the growing interest in its often overlooked history this book offers a timely reassessment of idiocy and its distinctive place at the intersection of science and culture

*Borrowed Knowledge* Stephen H. Kellert, 2009-05-15 What happens to scientific knowledge when researchers outside the natural sciences bring elements of the latest trend across disciplinary boundaries for their own purposes Researchers in fields from anthropology to family therapy and traffic planning employ the concepts methods and results of chaos theory to harness the disciplinary prestige of the natural sciences to motivate methodological change or conceptual reorganization within their home discipline and to justify public policies and aesthetic judgments Using the recent explosion in the use and abuse of chaos theory *Borrowed Knowledge and the Challenge of Learning across Disciplines* examines the relationship between science and other disciplines as well as the place of scientific knowledge within our broader culture Stephen H. Kellert's detailed investigation of the myriad uses of chaos theory reveals serious problems that can arise in the interchange between science and other knowledge making pursuits as well as opportunities for constructive interchange By engaging with recent debates about interdisciplinary research Kellert contributes a theoretical vocabulary and a set of critical frameworks for the rigorous examination of borrowing

Rewriting Early America Christopher K. Coffman, 2018-11-27 Recent poems and fictions set in the early Americas are typically read as affirmations of cultural norms as evidence of the impossibility of genuine engagement with the historical past or as contentious repudiations of received histories Inspired

particularly by Mihai Spărișu's arguments regarding literary playfulness as an opening to peace. *Rewriting Early America: The Prenatal Past in Postmodern Literature* adopts a different perspective with the goal of demonstrating that many recent literary texts undertake more constructive and hopeful projects with regard to the American past than critics usually recognize. While honoring writers' pervasive critiques of hegemony, this volume trades a preoccupation with antagonism for an interest in restoration and recuperation. It describes how texts by John Barth, John Berryman, Susan Howe, Toni Morrison, Paul Muldoon, Thomas Pynchon, and William T. Vollmann harness the ambiguities of the colonial past to find sociocultural possibilities that operate beyond the workings of power and outside the politics of difference. Throughout, this book remains devoted to uncovering the moments at which contemporary writers proffer visions of American communities defined not by marginalization and oppression but by responsive understanding and inclusion. ***Workshops of Empire*** Eric

Bennett, 2015-10-15. During and just after World War II, an influential group of American writers and intellectuals projected a vision for literature that would save the free world. Novels, stories, plays, and poems they believed could inoculate weak minds against simplistic totalitarian ideologies, heal the spiritual wounds of global catastrophe, and just maybe prevent the like from happening again. As the Cold War began, high-minded and well-intentioned scholars, critics, and writers from across the political spectrum argued that human values remained crucial to civilization and that such values stood in dire need of formulation and affirmation. Creative writing emerged as a graduate discipline in the United States amid this astonishing swirl of grand conceptions. *Workshops of Empire* explores this history via the careers of Paul Engle at the University of Iowa and Wallace Stegner at Stanford. In the story of these founding fathers of the discipline, Eric Bennett discovers the cultural, political, literary, intellectual, and institutional underpinnings of creative writing programs within the university. **Book jacket**

***The Desire to Write*** Graeme Harper, 2018-12-18. In this dynamic exploration of the discipline of creative writing, Graeme Harper departs from the established how-to model in a personal manifesto which analyses why human beings are and have long been passionate about writing. Illuminating the five essential keys to creative writing directly related to the desire to undertake it, Harper analyses creative writing's past and ponders its future, drawing on theories of the self, cultural interaction, consumption, and communication. Blending practice-based critical context with contemporary creative writing theory, this book is an ideal companion for undergraduate and postgraduate students of creative writing and literature. Lively and thought-provoking, it is an invaluable tool for all aspiring and established writers who wish to harness the positive effects of their craft. ***After Postmodernism*** Christopher K. Coffman, Theophilus Savvas, 2020-12-17. Several of American

literature's most prominent authors, and many of their most perceptive critics and reviewers, argue that fiction of the last quarter century has turned away from the tendencies of postmodernist writing. Yet the nature of that turn and the defining qualities of American fiction after postmodernism remain less than clear. This volume identifies four prominent trends of the contemporary scene: the recovery of the real, a rethinking of historical engagement, a preoccupation with materiality, and a

turn to the planetary Readings of works by various leading figures including Dave Eggers Jonathan Franzen A M Homes Lance Olsen Richard Powers William T Vollmann and David Foster Wallace support a variety of arguments about this recent revitalization of American literature The chapters in this book were originally published as a special issue of the journal Textual Practice      **American Studies after Postmodernism** Theodora Tsimpouki,Konstantinos Blatanis,Angeliki Tseti,2023-12-22 This book explores the major challenges that the long standing and diversely debated demise of postmodernism signifies for American literature art culture history and politics in the present third decade of the twenty first century Its scope comprises a vigorous discussion of all these diverse fields undertaken by distinguished scholars as well as junior researchers U S Americanists and European Americanists alike Focusing on socio political and cultural developments in the contemporary U S their contributions highlight the interconnectedness of the geopolitical economic environmental and technological crises that define the historical present on global scale Chapter 16 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)      Black Metafiction Madelyn Jablon,1997 Examines the tradition of self consciousness in African American literature The book points to the shortcomings of theories of metafiction founded on studies of Anglo American literature It analyzes and evaluates these theories providing a model for the evaluation of other Eurocentric theories      *Writing Creative Writing* Rishma Dunlop,Daniel Scott Tysdal,Priscila Uppal,2018-05-05 Essential and engaging essays about the joys and challenges of creative writing and teaching creative writing by a host of Canada s leading writers
