Time and Psychological Explanation Brent D. Slife,1993-07-01 Psychology has been captured by an assumption that is almost totally unrecognized This assumption the linearity of time unduly restricts theory and therapy yet this restriction is so common so customary that it is often completely ignored This book traces the influence of this assumption and reveals the many overlooked anomalies to its dominance Slife describes the many findings and explanations that are incompatible with linear time in several psychological specialties He contends that these unnoticed anomalies point to alternative conceptions of time that offer innovative ideas for psychological explanation and treatment

Being and Nothingness Jean-Paul Sartre,1992 Sartre explains the theory of existential psychoanalysis in this treatise on human reality

Kierkegaard, Eve and Metaphors of Birth Alison Assiter,2015-04-29 There has been a recent revival of interest in reading Kierkegaard as an ontologist as a thinker who engages with questions about the kinds of entity or process that constitute ultimate reality This new way of reading Kierkegaard stands alongside a revival of interest in ontology and metaphysics more generally This highly original book concentrates on the claim that Kierkegaard focuses in part on ontological questions and on issues pertaining to the nature of being as a whole Alison Assiter asserts that Being for Kierkegaard following Schelling can be read in terms of conceptions of birthing the capacity to give birth as well as the notion of a birthing body She goes on to argue that the story offered by Kierkegaard in The Concept of Anxiety about the origin of freedom connects with a birthing body and that Kierkegaard offers a speculative hypothesis in terms of metaphors of birthing about the nature of Being

Access to God in Augustine's Confessions Carl G. Vaught,2006-06-01 Continuing his groundbreaking reappraisal of the Confessions Carl G Vaught shows how Augustine s solutions to philosophical and theological problems emerge and discusses the longstanding question of the work s unity

Ending the Science Wars John D. Baldwin,2015-12-03 The science wars have been raging for decades raising many questions about the power of science Some critics claim that science including social science is merely a social construction that fallible humans have created with words and other symbols If this is true is science as formidable a source of knowledge as most scientists

claim Baldwin explains why the edifice of science has robust properties that make it one of the most useful forms of knowledge that humans have ever created although it is not perfect He trenchantly examines all sides of the debate and uses the philosophy of pragmatism to reveal the special characteristics that make science work as well as it does Ending the Science Wars shows how science is far better grounded than its critics claim The book not only helps resolve many current debates about science it is a major contribution for explaining science in terms of a powerful philosophical system This makes the book valuable to scientists in all fields of research and intellectually challenging for science s critics An Existential Approach to Human Development Martin Adams,2018-08-11 This textbook reviews for the first time the thinking of six major existential philosophers S ren Kierkegaard Friedrich Nietzsche Martin Heidegger Jean Paul Sartre Maurice Merleau Ponty and Simone de Beauvoir with respect to their ideas about human development Martin Adams presents a philosophical and psychological analysis and critically evaluates the different ways that existential philosophy can illuminate the way we all strive for meaning and purpose in life Written in a detailed well structured manner this text offers a fundamentally different way to understand not only life in general but the practice of psychotherapy in particular Kant's Dog David E. Johnson,2012-05-01 Situates Borges at the limit of philosophy and literature *Living In Amida's Universal Vow* Alfred Bloom,2004-05-14 This is the first comprehensive collection of essays on Shin Buddhism by many of the most important Shin scholars and religious authorities of the last one hundred years *Philosophical Foundations for a Christian Worldview* J. P. Moreland,William Lane Craig,2003-03-31 Arguments are clearly presented and rival theories are presented with fairness and accuracy **BOOK JACKET** **The Coming of God** Jürgen Moltmann,Margaret Kohl,2004-07-27 Winner of Grawemeyer Award In this remarkable and timely work in many ways the culmination of his systematic theology world renowned theologian Jurgen Moltmann stands Christian eschatology on its head Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution He centers instead on hope and God s promise of new creation for all things Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end Yet Moltmann s novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology Are there eternal life and personal identity after death How is one to think of heaven hell and purgatory What are the historical and cosmological dimensions of Christian hope What are its social and political implications In a heartbreakingly fragile and fragment world Moltmann s comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God *Existentialist Background* William Leon McBride,1997 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare s *A Comedy of Errors* Miola s edited work also features a comprehensive critical history coupled with a full bibliography and photographs of major productions of the play from around the world In the collection there are five previously unpublished essays The

topics covered in these new essays are women in the play the play's debt to contemporary theater its critical and performance histories in Germany and Japan the metrical variety of the play and the distinctly modern perspective on the play as containing dark and disturbing elements To compliment these new essays the collection features significant scholarship and commentary on *The Comedy of Errors* that is published in obscure and difficult accessible journals newspapers and other sources This collection brings together these essays for the first time

The Contemporary Theory of Metaphor Ning Yu, 1998-01-01 This volume aims to contribute to the theory of metaphor from the viewpoint of Chinese in order to help place the theory into a wider cross linguistic and cross cultural perspective It focuses on metaphors of emotion the time as space metaphor and the Event Structure Metaphor

Analytics and Intuition in the Process of Selecting Talent Jürgen Deters, 2022-11-07 Human decisions especially in management and personnel selection are based on making judgments about people analytically and intuitively Yet in business and scientific contexts judgments are expected to be based on a rational analysis rather than intuitions or emotions Intuition is often seen as something mystical that should not be trusted and thus eliminated from human decision making Our empirical and theoretical research shows that this is impossible when people are dealing with people Instead intuitions and emotions have significant power in the decision making process Neuroscience even shows that humans are incapable of switching off their emotions or intuitions when making decisions Therefore intuition and emotions as evolutionary achievements of human beings should be looked at more closely to use the wisdom they offer This book provides an insight into the current state of research on rational analytical procedures in personnel selection and complements this with research on intuitions and emotions in personnel diagnostics By integrating scientifically verifiable rational analytical decision making procedures with the inner experiential knowledge of people this book bridges two complementary ways of recognizing and making good decisions It demonstrates how intuitions are developed and used in different fields of practice and cultures and how scientific research results from rational analytical and intuitive emotional selection procedures are successfully integrated by practitioners

Marxist Criticism of the Hebrew Bible: Second Edition Roland Boer, 2014-12-18 The only large scale critical introduction to Western Marxism for biblical criticism Roland Boer introduces the core concepts of major figures in the tradition specifically Althusser Gramsci Deleuze and Guattari Eagleton Lefebvre Lukács Adorno Bloch Negri Jameson and Jameson Throughout Boer shows how Marxist criticism is relevant to biblical criticism in terms of approaches to the Bible and in the use of those approaches in the interpretation of specific texts In this second edition Boer has added chapters on Deleuze and Guattari and Negri Each chapter has been carefully revised to make the book more useful on courses while maintaining challenges and insights for postgraduate students and scholars Theoretical material has been updated and sharpened in light of subsequent research and a revised conclusion considers the economies of the ancient world in relation to biblical societies

The Acquisition of the Present Dalila Ayoun, 2015-10-15 This is the first edited volume that tackles the acquisition of the present tense aspect

temporality an under researched area particularly compared to the acquisition of past temporality The first two chapters focus on the L1 acquisition of English from the perspective of the Aspect hypothesis and the Verb Island hypothesis Wang Shirai and the L1 acquisition of French from the perspective of the zero tense hypothesis Demirdache Lungu The remaining chapters tackle the L2 acquisition of English Liszka Al Thubaiti Vraciu French Ayoun Saillard Spanish Gabriele et al Russian Martelle and Japanese Shirai Li by learners of different L1s French English Arabic Chinese and Korean testing various semantic and syntactic hypotheses The last chapter presents a summary of the findings and offers a few conclusions as well as broad directions for future research
