Future Of International Air Transport Policy:

The Future of International Air Transport Policy Organisation for Economic Co-operation and Development, 1997
This report addresses the key policy challenges confronting international air transport including globalization market entry and exit competition within the market subsidization privatization and foreign ownership International air transport is a major industry in its own right Faced with the prospect of an increasingly turbulent and uncertain world economic environment in the coming decades international aviation must evolve into an efficient dynamic and responsive sector that is able to contribute fully to global environmental development This report addresses the key policy challenges confronting international air transport including globalization market entry and exit competition within the market subsidization privatization and foreign ownership The highly contentious issue of liberalization is also tackled and a set of wide ranging policy recommendations to help decision makers shape the regulatory framework of the future is proposed **Journal of Transportation and Statistics**, 1999 **Progressive Commercialization of Airline Governance Culture** Jan Walulik, 2016-08-05 Progressive Commercialization of Airline Governance Culture analyzes the transition of the airline sector from the not for profit nation bound public utility model towards a profit oriented globalized industry It illustrates how legal political historical and cultural factors have shaped the corporate governance in the airline sector and describes how these factors influence economic decisions and performance The unique feature of the book is that the subject is consequentially discussed from the perspective of airline governance culture This approach links the examination of legal and policy factors which influence airline activities together with a discussion of economic issues all within one clear coherent and comprehensive framework **Legal and Regulatory Issues in International Aviation** Ruwantissa I.R. Abeyratne, 2023-07-03 Air law has recently grown in significance Drawing on international and national instruments and a wealth of case law from many jurisdictions including the International Court of Justice this book covers the role of international law in such matters as legal consequences arising from the use of automation in civil aviation the carriage of the elderly and disabled by air unlawful interference with civil aviation protection of the environment and the legal management of aviation security Published under the Transnational Publishers imprint *International Transportation: Moving the Global Economy Forward*, **Memorandum on Ocean-air Transportation** Emory Scott Land, 1944 Global Aviation & Aerospace Industry Handbook, Volume 2 Europe: Strategic Information and Contacts IBP USA, *International Airline Alliances : EC Competition Law/US Antitrust Law and International Air Transport* Angela Cheng-Jui Lu, 2003-01-01 This new study takes a keen look at the problems facing the international community due to conflicts arising from applications of varying competition laws by different competition authorities to international airline alliances As a result of privatisation deregulation liberalisation and globalisation international air carriers form alliances with one another in order to cope with growing competition in the international air transport market This book clearly provides an introduction to the

background to and origin of airline alliances different models of alliances and the related anti competitive practices resulting from existing international airline alliances The potential anti competitive practices resulting from these cross border alliances trigger a great deal of concern from various competition authorities Thus this study goes on to provide a detailed analysis regarding the relevant EC competition law and US antitrust law and their applications to alliance activities The comparison of different applications of EC competition law and US antitrust law to international airline alliances provides leading research results first hand In the conclusion the essential elements regarding establishing a level playing field in the international air transport market are identified and the author provides possible solutions for the harmonisation of different applications of competition law to international airline alliances

Civil Aviation and the Globalization of the Cold War Peter Svik,2020-08-10 This book focuses on the highly complex and intertwined relationship between civil aviation technological globalization and Cold War politics It explores how the advancement of Soviet civil aircraft engineering during the 1950s technically triggered the globalization of the Cold War The study also shows how the processes of technological standardization facilitated transfers of technology and knowledge across the Iron Curtain and how East West as well as East South connections evolved It uncovers the motives and reasons for this transfer of knowledge and expertise and aims to identify the specific roles played by states international organizations and interpersonal networks By taking a global approach to this history the book advances ongoing debates in the field It reassesses Europe s role in the Cold War pointing out the substantial differences in how Western Europe and the United States viewed the Communist world This book will be of interest to scholars of international history the history of technology and Cold War history

The Impact of EU Law on the Regulation of International Air Transportation Martin Bartlik,2016-12-05 On 5 November 2002 the European Court of Justice delivered its open skies judgment a landmark decision which may be the beginning of a new era in the regulation of international air law The consequences of this judgment may not only affect the European Union and its Member States this book shows how it could change the future

regulation of international aviation worldwide The first part of this book describes the difficulties arising from the fact that the competence for the regulation of air transportation in Europe is divided between the EU and the Member States This division of power will also affect the conclusion of air service agreements made with countries outside of Europe In the second part of the book the author examines a subject that was not part of the open skies judgment but which he believes will become a problematic consequence the distribution of air traffic rights within the European Union *Becoming a No-Fail Mission: The Origins of Search and Rescue in Canada* James Pierotti, 2018-09-27 The Royal Canadian Air Force's RCAF's involvement with the search and rescue SAR mandate in Canada dates to 1947 The RCAF's Air Sea Rescue predecessor capability from the Second World War dates back to 1942 How and why did the RCAF become involved with both of those capabilities and is there historical rationale for the continued involvement of the RCAF in the domestic SAR service today Amplified with operational examples of the rescue system in action this previously untold history aims to describe the origins of SAR history in Canada and to further the debate on the continued use of military resources for domestic responsibilities **Department of Commerce Appropriation Bill for 1946** United States.
