Les bases éthiques pour le droit et la société ,1986-10-20 Probl mes de Conflits de Lois en Mati re de Filiation Jacques Foyer Jacques Foyer Professor at the University of Paris II notes in introduction of his course that it can be enlightening to compare the different modern methods of solution of the conflict of laws regarding filiation The study of the different systems shows that there exist at least three methods to contradict the classic choice of law rule The course is structured around the analysis of these three methods Firstly it is the criticism of the rigid character and the unpredictability of the traditional rule that triggers the temptation of a manipulation of the choice of law rule The author then points out that one could question its abstract and arbitrary character which leads on the one hand to an attempt to hierarchization and on the other hand to a diversification of the choice of law rules Lastly it is the principle of the foreign law s purpose to govern legal relationships in the same way as the lex fori that is questioned which leads to its partial elimination to the profit of a more or less systematic application of the territorial law or of the one of the court hearing the action General Course on Private International Law Friedrich K Juenger According to Friedrich Juenger Professor at the University of California in Davis the outstanding characteristic of the conflict of laws is the lack of consensus on the discipline s goals and methods He proposes to put the accent in his course on the events for which public international law must find a solution in order to avoid the constant danger that threatens the discipline that is to become a simple academic game Three examples of reported cases and the kinds of issues they raise are given in the Introduction Professor Juenger next gives a detailed historical overview of the conflict of laws from Antiquity to Mancini In addition the author presents the emergence of new orthodoxies or rather proposes to re examine the traditional doctrines and points out the advantages of a teleological approach That allows him to revisit the three cases mentioned in the Introduction Les Bases thiques pour le Droit et la Soci t Perspectives de la Commission ind pendante sur les questions humanitaires internationales Sadruddin Aga Khan Conference of July 30 1985 Sadruddin Aga Khan President of the Independent Commission on International Humanitarian Issues recalls in his course on the ethical bases of law and society that the role of the commission he presides is to remind us of the basic elements of a code of ethics which has the same spiritual significance as that found in all major religions Lawyers as well as scientists adds the author must mobilize their immense resources bearing in mind that the rule of law should never disregard moral appreciation The Lives of Michel Foucault David Macey,2019-01-22 The classic biography of the radical French philosopher with a new afterword by acclaimed Foucault scholar Stuart Elden When he died of an AIDS related condition in

1984 Michel Foucault had become the most influential French philosopher since the end of World War II His powerful studies of the creation of modern medicine prisons psychiatry and other methods of classification have had a lasting impact on philosophers historians critics and novelists the world over But as public as he was in his militant campaigns on behalf of prisoners dissidents and homosexuals he shrouded his personal life in mystery In *The Lives of Michel Foucault* written with the full cooperation of Daniel Defert Foucault's former lover David Macey gives the richest account to date of Foucault's life and work informed as it is by the complex issues arising from his writings In this new edition Foucault scholar Stuart Elden has contributed a new afterword assessing the contribution of the biography in the light of more recent literature **Hugo**

**Pluralism Vis-à-vis Treaty Law** Sandra L. Bunn-Livingstone, 2002-03-11 *B Theories of Law Religion and International Law* Mark W. Janis, Carolyn Maree Evans, 1999-07-13 One of the great tasks perhaps the greatest weighing on modern international lawyers is to craft a universal law and legal process capable of ordering relations among diverse people with differing religions histories cultures laws and languages In so doing we need to take the world's peoples as we find them and not pretend out of existence their wide variety This volume builds on the eleven essays edited by Mark Janis in 1991 in *The Influence of Religion and the Development of International Law* more than doubling its authors and essays and covering more religious traditions Now included are studies of the interface between international law and ancient religions Confucianism Hinduism Judaism Christianity and Islam as well as essays addressing the impact of religious thought on the literature and sources of international law international courts and human rights law
